**Summary of Fire Insurance in Canada, 1936.**—Of the total amount of fire insurance effected in Canada during each year, a part is sold by companies holding provincial licences and permits. Such companies generally confine their operations to the province of incorporation, but may be allowed to sell insurance in other provinces. The bulk of fire insurance business, however, is transacted by companies registered by the Dominion. Operations in 1936 are summarized in Table 7.

## Section 2.—Life Insurance.

An article descriptive of the growth and development of life insurance in Canada, more particularly with reference to insurance legislation, contributed by A. D. Watson, of the Department of Insurance, Ottawa, appeared on pp. 937-944 of the Canada Year Book, 1933.

**Life Insurance Statistics.**—Life insurance business was transacted in Canada in 1936 by 42 companies registered by the Dominion, including 28 Canadian, 6 British, and 8 foreign companies. There were also 6 British and 7 foreign companies registered to write insurance which had practically ceased to write new insurance, while 2 other British and 3 other foreign companies were authorized under the Act to transact business in connection only with policies written prior to Mar. 31, 1878. One foreign company was licensed to transact business in 1931, but has not yet written any life insurance business in Canada, except by way of reinsurance.

As shown by the chronological statistics of Table 8, life insurance business in Canada has expanded from very small beginnings, the total net life insurance in force in all companies licensed by the Dominion in 1869 being only \$35,680,082, while in 1936 it was \$6,403,037,477,\* the amount per head of the estimated population of Canada having more than doubled since 1919—an evidence of the general recognition of the value of life insurance for the adequate protection of dependants against misfortune. Notable also from these statistics is the fact that in this field British companies, the leaders in 1869, have fallen far behind the Canadian and the foreign companies. The total net amount of new insurance effected during the year 1936 was \$618,264,819,† as compared with \$588,353,277 in 1935, \$595,194,820 in 1934, \$578,585,659 in 1933, \$653,249,366 in 1932, \$782,716,064 in 1931, \$884,749,748 in 1930, and \$978,141,485 in 1929, while the premiums paid were \$200,541,265, as compared with \$200,157,567 in 1935, \$202,583,536 in 1934, \$206,954,224 in 1933, \$216,132,957 in 1932, \$225,100,571 in 1931, \$220,523,727 in 1930, and \$210,728,479 in 1929.

In Table 9 detailed statistics are given of the business of Canadian, British, and foreign companies, respectively, by companies, in 1936, while Table 10 is a summary showing the business of Canadian, British, and foreign companies for the past 5 years. Table 11 shows the ordinary and industrial policies in force and effected during the year ended Dec. 31, 1936. Table 12 gives the insurance death rates by classes of companies, and Tables 13, 14 and 15 show, respectively, the assets, liabilities, cash income, and expenditure of Canadian and other life insurance companies for the years 1932-36. Statistics of Dominion fraternal insurance are given in Table 16 and of Dominion and provincial insurance combined in Table 17, which shows that on Dec. 31, 1936, the total life insurance in force in Canada was \$6,701,667,839.

\* This total does not include \$168,586,134 of fraternal insurance. Preliminary figures for 1937 indicate \$6,542,789,202 of life insurance in force in Dominion companies not including \$174,384,095 of fraternal insurance.

† The net amount of new insurance effected in 1937 was \$672,794,293 according to preliminary figures.

**8.—Life Insurance in Force and Effectuated in Canada by Companies Operating under Dominion Registration, calendar years 1869-1937.<sup>1</sup>**

| Year.     | Net Amounts in Force. |                    |                    |               | Insurance in Force per Head of Estimated Population. <sup>2</sup> | Net Amount of New Insurance Effectuated during Year. |

<sup>1</sup> Figures do not include insurance in force and effectuated by fraternal societies operating under Dominion charters. The amount of insurance in force in such societies amounted to \$174,384,035 in 1937, according to preliminary figures. Corresponding figures for the years 1932-36 are given in Table 16, pp. 905-966.

<sup>2</sup> For estimates of populations upon which these figures are based, see p. 155.

<sup>3</sup> Subject to revision.

## 9.—Life Insurance in Force and Effectuated in Canada by Companies Operating under Dominion Registration, 1935.

NOTE.—The statistics of this table do not include the business of Canadian companies outside of Canada.

| Company.                             | Policies Effectuated. |                    | Policies in Force. |                      | Net Premium Income. | Net Amount of Policies Become Claimants. |

### 13.—Assets of Canadian Life Companies with Dominion Registration, and Assets in Canada of Life Companies other than Canadian Companies, 1932-36.

NOTE.—Certain British companies transacting fire insurance in Canada transact also life insurance in Canada, and inasmuch as a separation of assets has not been made between these two classes, their assets in Canada are not included here, but are included in the assets of British companies shown in Table 3 on p. 953.

<sup>1</sup> Includes income on business outside of Canada.

<sup>2</sup> Expenditure in Canada.

**Life Insurance Effected through Fraternal Benefit Societies.**—In addition to life insurance, some fraternal benefit societies grant other insurance benefits to members, notably sickness benefits, but these are relatively unimportant. Table 16 gives statistics of life insurance effected with fraternal benefit societies by Canadian members, together with statistics of assets, liabilities, income and expenditure relating to the whole business of Canadian societies and to the business in Canada of foreign societies. The rates charged by these societies are computed to be sufficient to provide the benefits granted, having regard for actuarial principles. Each benefit fund of every society must be valued annually by a qualified actuary (Fellow, by examination, of the Institute of Actuaries, London; of the Faculty of Actuaries in Scotland; of the Actuarial Society of America; or of the American Institute of Actuaries); and unless the actuary certifies to the solvency of each fund a readjustment of rates or benefits must be made. The statistics in the first part of this table relate to the Canadian societies reporting to the Insurance Department of the Dominion Government. These numbered 9 in 1936, *viz.*, Alliance Nationale, Ancient Order of Foresters, Artisans Canadiens Français, Canadian Woodmen of the World, Catholic Mutual Benefit Association, Commercial Travellers' Association of Canada, the Grand Orange Lodge of British America, Independent Order of Foresters, and Ukrainian Mutual Benefit Association of St. Nicholas.

Under an amendment to the Insurance Act, effective Jan. 1, 1920, all foreign fraternal benefit societies were required to obtain Dominion authority precedent to transacting business in Canada, but any such societies which at that date were transacting business under provincial licences, while forbidden to accept new members, were permitted to continue all necessary transactions in respect of the insurance of their then members. Most of these societies have since obtained Dominion authority to transact business, also some foreign societies which had not previously been licensed by the provinces. Of both classes of society, 27 transacted business in Canada in 1936, *viz.*, Aid Association for Lutherans, Association Canado-Américaine, Brotherhood of R. R. Trainmen Insurance Department, Catholic Order of Foresters, Commercial Travelers' Mutual Accident Association of America (accident business only), Croatian Fraternal Union, Expressmen's Mutual Life Insurance

Company (which is continuing the business issued by the Expressmen's Mutual Benefit Association), First Catholic Slovak Ladies Union, First Catholic Slovak Union, Jewish National Workers' Alliance, Knights of Columbus, Ladies' Catholic Benevolent Association, Lutheran Brotherhood, Lutheran Mutual Aid Society, Maccabees, Ministers Life and Casualty Union, Modern Woodmen of America, National Fraternal Society of the Deaf, National Slovak Society of U.S.A., Royal Arcanum, Slovene National Benefit Society, Sons of Norway, United Commercial Travelers of America (accident business only), Woman's Benefit Association, Women's Catholic Order of Foresters, Workmen's Circle, and Yeomen Mutual Life Insurance Company (which is continuing the business issued by the Brotherhood of American Yeomen).

**16.—Statistics of Insurance of Fraternal Benefit Societies Reporting to the Dominion Insurance Department, 1932-36.**

**Summary of Life Insurance in Canada, 1936.**—In addition to the business transacted by life insurance companies registered by the Dominion, a considerable volume of business is also transacted by companies licensed by the provinces. Statistics of these provincial companies have been collected since 1915 by the Department of Insurance. Table 17, showing policies effected and in force, premiums received, and losses paid, in Canada in 1936, summarizes the volume of business done by both life companies and fraternal societies, whether registered by the Dominion or licensed by the provinces.

**Summary of Life Insurance in Force Out of Canada by Canadian Companies Registered by the Dominion Government.**—Tables 18 and 19 give summary statistics of insurance in force as at Dec. 31, 1936, in currencies other than Canadian, classified by companies and by the currencies in which business was written, respectively. The data are given in Canadian dollars, mainly at par rates of exchange for the countries concerned, but there are several exceptions where, for purposes of account, certain companies have converted foreign currencies at rates other than par, particularly where the current rate differs substantially from the par rate. The major part (over 62 p.c.) of the business was written in United States currency and over 23 p.c. in sterling. From another standpoint, over 32 p.c. was written in currency of British countries outside Canada and nearly 68 p.c. in currencies of foreign countries.

Canadian life companies operating under Dominion registration had, at Dec. 31, 1936, life insurance in force in countries outside Canada amounting to \$2,915,593,936. As shown in Table 19, insurance in force in currencies other than Canadian amounted to \$2,879,656,378. The difference between these figures is presumably the net amount of non-Canadian business transacted in Canadian currency. As against the total non-Canadian business, including annuity business, the foreign investments of Canadian life insurance companies as at Dec. 31, 1936, amounted to \$691,333,950.

Since the business in force in Canada of these companies at Dec. 31, 1936, amounted to \$4,256,850,150, the total business on their books, Canadian and non-Canadian, amounted to \$7,172,444,086. Thus over 40 p.c. of the total business in force was out of Canada. If to this total are added the amounts of life insurance in force in Canadian fraternal benefit societies registered by the Dominion Government (\$103,673,283 of Canadian, and \$98,384,103 of foreign business), the total business of Canadian companies and societies operating under Dominion registration reached the amount of \$7,374,501,472 at the end of 1936. On the assumption that all provincially-licensed companies and societies are Canadian and limit their business to Canada, then, adding the amount of their business in force in Canada (\$130,044,228), the grand total of net insurance in force in Canadian companies and societies, in and out of Canada, would amount to about \$7,504,545,700 at Dec. 31, 1936.

### 18.—Life Insurance in Force by Canadian Companies<sup>1</sup> Operating under Dominion Registration in Currencies other than Canadian, by Companies, 1936.

NOTE.—Figures are given in Canadian dollars mainly at par rates of exchange.

### Section 3.—Miscellaneous Insurance.

Since 1875 the growth of insurance business other than fire and life has been steady. The report of the Superintendent of Insurance for the calendar year 1880 shows that the number of companies licensed for the transaction of accident, guarantee, plate glass, and steam boiler insurance—the only four classes of miscellaneous insurance then transacted—was 5, 3, 1, and 1, respectively. The report for the year 1936 shows that miscellaneous insurance in Canada now includes: accident, automobile, aviation, burglary, credit, earthquake, explosion, forgery, guarantee, hail, leakage, live-stock, steam boiler, title, tornado, weather insurance, etc. In 1880, 10 companies transacted business of the miscellaneous kind, but in 1936 such insurance was issued by 235 companies, of which 51 were Canadian, 63 British, and 121 foreign; 179 of these 235 companies also transacted fire insurance. In addition, 16 fraternal orders or societies carried on accident and sickness insurance as well as life insurance business and 2 fraternal orders or societies carried on accident insurance only.

**Accident Insurance.**—The first licence of this kind was issued to the Travelers' Co., of Hartford, Conn., in 1868. The first licence to a Canadian company was issued to the Accident Insurance Co. of Canada, which was organized in 1872 and commenced business in 1874. In 1927 life companies were empowered to include in life insurance policies additional insurance, payable only in event of death from accident, up to an amount not exceeding the amount payable in event of death from other causes, commonly known as 'the double indemnity benefit'. A large proportion of life insurance policies issued in recent years includes this benefit. Seventy-six companies transacted accident insurance in 1936.

**Automobile Insurance.**—This is now one of the most important branches of the miscellaneous class of insurance. Premiums increased from \$80,446 in 1910 to \$573,604 in 1915 and to \$18,260,176 in 1930; for 1936 they were \$13,510,431, showing a very slight increase as compared with 1935 and 26.0 p.c. decrease, compared with 1930. There has been an increase in the number of companies from 7 to 149 during the 26-year period.

**Plate Glass Insurance.**—Policies were first sold in Canada by the Metropolitan Plate Glass Insurance Co., a United States concern, which withdrew from Canada during 1882. The 75 companies operating in Canada in 1936 received premiums of \$465,436 and incurred losses of \$237,257, compared with premiums of \$491,347 and losses of \$240,546 for 1935.

**Burglary Insurance.**—In 1893 only one company issued burglary policies. A second followed in 1905 and in 1910 five companies were operating, while 74 companies sold this type of insurance during 1936. The premium income of these companies amounted in 1936 to \$1,345,343, and the losses incurred amounted to \$540,325.

**Hail Insurance.**—Insurance against hailstorms is a class of business of comparatively recent development in Canada. During the year 1936, 33 companies undertook this class of risk, the premiums written amounting to \$815,228, and the losses incurred to \$273,503. The total premiums for the 27 years during which this business has been carried on in Canada amounted to \$68,816,306 and the total losses paid to \$47,079,572.

**20.—Insurance by Companies Registered by the Dominion Government to Transact Business other than Fire and Life in Canada, by Classes of Insurance, 1936.**

<sup>1</sup> This business was transacted by a company not holding certificates of registry to transact fire insurance.<sup>2</sup> Excluding \$1,234,428, premiums of fraternal benefit societies for accident, sickness, and funeral business.<sup>3</sup> Excluding \$780,034, losses of fraternal benefit societies for accident, sickness, and funeral business.

## Section 4.—Government Annuities.

In the early years of the 20th century, there arose throughout the civilized world a distinct movement in favour of ameliorating the living conditions of the less well-off members of society. One form which this movement took in the United Kingdom was that of old age pensions, granted by the State as a gift to its poorer citizens, whose earnings were very generally insufficient to permit of a margin of saving. In Canada, where wages were higher and a margin of saving was possible, the movement at first took the form of providing, by the establishment of Government annuities, an absolutely safe investment for such savings, which had only too often been lost through the inexperience of their owners, leaving the latter a burden upon the charity of relatives or of the public.\* The cost of administering these annuities is borne by the Dominion Government.

Under the Government Annuities Act (c. 7, R.S.C., 1927, amended by c. 33, 1931), His Majesty the King, represented by the Minister (at present the Minister of Labour), may sell to persons over the age of 5 years, domiciled or resident in Canada, immediate or deferred annuities of not less than \$10 nor more than \$1,200 (1) for the life of the annuitant, (2) for a term of years certain, not exceeding 20 years, or for the life of the annuitant, whichever period shall be the longer, or (3) to any two persons domiciled in Canada during their joint lives, and with or without continuation to the survivor. The property and interest of any annuitant in any contract for an annuity is neither transferable nor attachable. As a rule, the purchaser contracts that, in the event of the death of the annuitant before the date fixed for the annuity to begin, all money paid shall be refunded to the purchaser or his legal representatives with interest at the rate of 4 p.c., compounded yearly.

From Sept. 1, 1908, the date of the inception of the Annuities Branch, up to and inclusive of Mar. 31, 1937, the total number of annuity contracts issued was 36,899. Of these contracts, 3,214 have been cancelled, leaving in force on Mar. 31, 1937, 33,685 contracts. The total amount of purchase money received during the same period was \$101,558,694. Table 22 gives the details of annuities contracted for and purchase money received from 1909 to 1937, by years.

\* A Dominion-provincial non-contributory scheme of old age pensions, providing for the payment, to persons 70 years or over, of pensions not exceeding \$20 per month, contributed by the Dominion and the provinces which become parties to the scheme, was enacted by c. 35 of the Dominion Statutes of 1927. For further particulars, see pp. 779-781.

<sup>1</sup> Seven months.

Statistics of the Annuities Fund and value of contracts issued are given in Tables 25 and 26. On Mar. 31, 1937, 14,418 immediate annuities and 19,267 deferred annuities were in force. The total value of these annuities on that date was \$88,224,794 and the amount of annuity under vested contracts in force on that date was \$6,104,298.

<sup>1</sup> Amount of immediate annuities.

It will be seen from the statements above that Government annuities have grown steadily in favour, especially since 1921, the fund reaching a total of \$87,984,936 on Mar. 31, 1937.

## CHAPTER XXIV.—COMMERCIAL FAILURES.

According to Sec. 91 of the British North America Act, "the exclusive legislative authority of the Parliament of Canada" extends to bankruptcy and insolvency legislation, and an Insolvency Act (32-33 Vict., c. 16) was actually passed by the Dominion Parliament in 1869, applying to the four original provinces. This Act was in force for four years and was renewed by c. 46 of the Statutes of 1874, while in 1875 a new Insolvency Act (38 Vict., c. 16) applicable to the whole Dominion was passed, but was repealed in 1880. After this there was no Dominion legislation on the subject of bankruptcy until 1919. During the interval of nearly 40 years commercial failures were handled under provincial legislation, and the statistics relating to such failures during this period were compiled and published by Dun's and Bradstreet's commercial agencies. In 1919 a general Dominion Bankruptcy Act was passed (9-10 Geo. V, c. 36). Statistics of commercial failures dealt with under this Act since it came into force in 1920 have been compiled and published by the Dominion Bureau of Statistics. (See p. 978.)

Table 1 below gives summary statistics of industrial and commercial failures in Canada, by classes for 1934, 1935, and 1936 and by classes and provinces, for 1937. At p. 969 of the 1936 Year Book a historical table gives failures for Canada and Newfoundland by classes for the years 1915 to 1935. Early in 1936, however, Dun and Bradstreet, Incorporated, adopted a new method of classification. The principal changes consisted of setting up a new group of construction enterprises previously included in manufacturing and a new class for commercial service. Real estate companies, holding, and other financial companies, and agents of various kinds were dropped. These changes have had the effect of confining the failure records more to industrial and commercial lines of activity, and liabilities are reduced more in proportion to the number of failures since the companies eliminated usually ran high in indebtedness. The present figures of Table 1 are not comparable with those given at p. 969 of the 1936 Year Book, to which the reader is referred for earlier historical data, both because of the above reasons and because the earlier statistics cover Canada and Newfoundland whereas these are for Canada only.

**Failures, by Divisions of Industry.**—In every year the great majority of the commercial failures of the country are found among the trading establishments, which are so much more numerous than the manufacturing. Thus, according to the records of Dun and Bradstreet, Incorporated, out of a total of 952 commercial failures in Canada in 1937, 630 were among the retail trading establishments, including 189 in foods and 96 in apparel.

Out of the 190 manufacturers who failed, 55 were in the foods business, 41 in textiles, and 20 among manufacturers of forest products. The figures of commercial failures are analysed in detail for the years 1935, 1936, and 1937, in Table 3.

Assignments under the Bankruptcy and Winding Up Acts.—Under the Bankruptcy and Winding Up Acts (R.S.C., 1927, cc. 11 and 213) certain documents relating to assignments have, since 1920, been forwarded to the Dominion Statistician for statistical analysis. Table 4 gives the resulting figures of failures, by provinces, for 1922 and subsequent years, while Table 5 classifies them by branches of business. Table 6 gives the assets and liabilities of the assignors. At the time of going to press, figures for 1937 were not available. A detailed analysis of the 1936 failures, by provinces and branches of business, was made in Table 7, p. 954 of the 1937 Year Book.

## 4.—Commercial Failures in Canada, by Provinces, calendar years 1922-36.

**Administration of Bankrupt Estates.**—The administration of bankrupt estates is now supervised by the Superintendent of Bankruptcy, appointed in 1932, with the object of conserving as far as possible the assets of bankrupt estates for the benefit of the creditors. Figures from the first report were given at p. 1039 of the 1934-35 Year Book, and those for subsequent years are to be found in later editions. Table 7 shows the details of bankruptcy administration, by provinces, for 1937 together with totals for all years since the first report was published.

**7.—Totals of Assets, Liabilities, Assets Realized, and Costs of Administration in Bankrupt Estates Closed, calendar years, 1933-37 and by Provinces, 1937.**

(From the Annual Report of the Superintendent of Bankruptcy.)

## CHAPTER XXV.—EDUCATION.

### Section 1.—Schools, Colleges and Universities.\*

The British North America Act assigned public education in Canada, except in the case of the native Indian population, to the jurisdiction of the Provincial Governments. A system of public elementary and secondary education, financed mainly by local school authorities but assisted by provincial grants, has developed in each province. There are some private schools in all provinces (*i.e.*, schools that are not conducted by publicly-elected or publicly-appointed boards, and which are not financed out of public money), but their enrolment is not large in comparison with that of the public schools. At the level of higher education six provinces have each a provincially-supported university, and the remaining three have each one or more colleges supported out of provincial funds, but in most of them there are considerable numbers of students in private, endowed or denominational colleges.

Table 1 of this Chapter gives statistics of enrolment in these different categories of educational institutions: (1) Provincially-Controlled Schools; (2) Privately-Controlled Schools; (3) Dominion Indian Schools; (4) Universities and Colleges. This table corresponds to Table 1 of this chapter as it has appeared in previous Year Books, except that part 'C' of such earlier tables is now omitted. It is followed by subsections treating each of the four groups separately, except Indian Schools, for which data are given in Chapter XXVIII, Miscellaneous Administration, along with other information on Indian Affairs.

**Financial Trends.**—Chapter I of the Biennial Survey of Education in the United States, published in 1937 by the Office of Education, shows that expenditure for schools and colleges dropped almost exactly 30 p.c. between 1930 and 1934; the comparable drop in Canada was less than 25 p.c. Since 1934 there has been little change in the amount spent for Canadian education; the annual sum has been approximately equal to that of 1926 when the average daily attendance of pupils was about 17 p.c. less. Expenditures by provinces for 1936, or the latest year available, are given in Table 1.

A comparison in dollars can hardly be taken at face value, but it may be of interest to note that the yearly cost of schools and colleges in the United States, after the drop of depression years, is calculated at \$30.51 for each adult in the population; in Canada the comparable figure is about \$22. School and college debt in Canada is about \$45 per adult in the population. It has been reduced somewhat since 1934, but is still around 25 p.c. higher than in 1926.

**Rural vs. Urban.**—The loss of one-fifth or one-fourth of school revenues would not have been so hard for educational institutions to bear, had it been more evenly distributed among them. A disproportionate share of the loss was generally suffered by rural schools. Complete financial statements are not to be had for rural and

\*Revised by J. E. Robbins, M.A., Ph.D., Chief, Education Statistics Branch, Dominion Bureau of Statistics. This Branch is concerned with compiling and publishing comparable data relating to educational institutions throughout Canada, and to this end co-operates with the Provincial Departments of Education. A list of the publications of this Branch will be found in Chapter XXIX, Section 1, under "Education".

urban schools separately in all provinces, but the following statement of teachers' average salaries illustrates the point.

RURAL AND URBAN TEACHERS' POST-DEPRESSION SALARIES EXPRESSED  
AS PERCENTAGES OF PRE-DEPRESSION SALARIES.

| Province.                 | Rural. | Urban. |
|---------------------------|--------|--------|
|                           | p.c.   | p.c.   |
| Prince Edward Island..... | 91.3   | 99.5   |
| Nova Scotia.....          | 96.4   | 99.1   |
| New Brunswick.....        | 79.5   | 96.8   |
| Quebec (Protestant).....  | 73.6   | 89.3   |
| Ontario.....              | 72.3   | 92.8   |
| Manitoba.....             | 63.2   | 82.7   |
| Saskatchewan.....         | 43.2   | 69.4   |
| Alberta.....              | 71.8   | 91.0   |
| British Columbia.....     | 83.6   | 88.4   |

Rural losses as expressed by such salaries were heavier in every case than urban—in most of the provinces very much heavier. Table 4 shows that the average rural salary in a majority of the provinces is less than half of the urban salary, and only in two provinces, British Columbia and Prince Edward Island, is it considerably more than half.

Farm families are substantially larger than town families. Ten average families in rural Canada have 32 children, as compared with 27 in the same number of urban families. Hence, even if the average income of the farmer were equivalent to the average for the city-dweller, it would be harder for him to keep his children at school as long at the same cost per pupil per year, simply because he has more of them, and without taking account of the greater difficulty of bringing children together over country distances to a school.

The problem of rural school support, naturally harder than urban for these reasons, and accentuated of late years by crop failures on the prairies and low agricultural prices generally, continues to be worse than need be in the opinion of educators by reason of the inefficiency of the small administrative and financial unit. From the Atlantic to the Pacific, teachers and others have for some years been carrying on a campaign designed to demonstrate to a somewhat reluctant public the advantages of a larger unit. Results have begun to show in the past few years, particularly in Alberta and British Columbia. The former in 1937 has eleven units in operation, and eleven more in process of organization.

**Reorganizing the Grades.**—A second educational reform much discussed in recent years, and further on the way to adoption than is the larger unit of adminis-

tration, is replacement of the 8-4 division of the curriculum by the 6-3-3 division. The latest programs of study for Nova Scotia, Ontario, Manitoba, Alberta, and British Columbia present the elementary course as one of six years in place of the former eight. Pupils of the next three years, even in the larger cities, with few exceptions, are by no means all segregated in separate school buildings, but there is the unmistakable tendency to treat these years as a unit for curriculum purposes, and even in certain cities where the provincial curriculum has not been re-made on the new plan some schools that were formerly purely elementary are retaining Grade IX pupils and are taking the name of junior high school.

This group of three (in some cases four) intermediate years, has to serve the double purpose of rounding out and completing the formal schooling of a majority of children, and of preparing the remainder for studies in the senior high, technical, or commercial schools. Psychological reasons for making a break at the sixth rather than the eighth grade have become generally accepted. The attachment of an additional year to the former seventh and eighth has a solid basis in the increased length of the average school career. Comparatively few years ago, schooling for the great majority of children ended before the eighth grade but this is no longer so. The dividing line of eight years, as average length of schooling, was crossed in most of the provinces during the 1920's. It is most reasonable that in later years the change should have been recognized by relating one or two more years of schooling closely to the previous eight; in this way the curriculum is rounded off at the point where most school careers actually end.

A natural consequence of the removal of Grade VIII from the status of a turning point in school careers is a reduced use of the entrance-to-high-school examination. Considering together the eight provinces, other than Quebec, practically all students were obliged before proceeding higher, twenty years ago, to pass a standard Departmental examination at the end of Grade VIII. Ten years ago about two-thirds of students were obliged to write the examination, while one-third (by no means a uniform fraction in all provinces) were promoted by their schools. To-day the proportion is quite reversed, about one-fourth writing the examination and three-fourths being recommended. Some of those who do take the examination are under no obligation, but choose to do so in competition for scholarships or prizes. Since the partial adoption of school promotions in New Brunswick in 1936 all of the eight provinces are included in their use, and some use them exclusively.

The reduced use of Grade VIII examinations cannot, however, be entirely attributed, or perhaps not even mainly, to the reorganization of the curriculum, for it started at an earlier date. Moreover, Departmental examinations in Grades IX and X have even more completely disappeared, and they are being partially replaced even at the level of high school leaving. But it will not be possible here to review their story. This has been done in two recent studies to both of which the interested reader is referred: (1) Report of Committee on Examinations, in the *Proceedings of the 17th Convention of the Canadian Education Association*, October, 1936; (2) Examinations in Canada, a chapter in the *Year Book of Education 1938* (Evans Bros.,

London), among chapters on the same subject from other parts of the British Commonwealth.

**Interprovincial Exchange.**—The new provincial curricula have certain new emphases, such as on health teaching and social studies, in common, partly in line with the latest developments in other countries, but retaining at the same time certain characteristics which are peculiarly Canadian. One of the surprising things to many a new student of provincial school systems in Canada is the similarity they show in spite of their separate origin and independent development. The common features have had less chance of survival since the newer provinces were organized early in the present century, but to offset this there has developed a freer exchange of ideas among provinces and a better acquaintance with one another's problems.

Only two Dominion-wide organizations of educationists antedate the twentieth century, and they only by a few years. The Dominion Education Association, now the Canadian Education Association, was founded in 1892, and the Business Educators' Association of Canada in 1896. Only one other, the National Conference of Canadian Universities in 1911, had its origin before the Great War, but in the years since, more than a dozen have come into existence, each contributing something toward a national outlook on educational problems. Some of the names and dates of formation run as follows: the Canadian Teachers' Federation, and the National Council of Education, 1919; the Canadian School Trustees' Association, 1922; Canadian National Federation of Home and School Associations, 1927; Association of Headmistresses of Canada, 1932; Canadian Physical Education Association; National Federation of Kindergarteners, 1934; Canadian Association for Adult Education, 1935; Headmasters' Association; Workers' Educational Association of Canada; Division of Education and Mental Health in the Canadian National Committee for Mental Hygiene, 1936; Canadian Conference of the New Education Fellowship, 1937. Other national organizations, of which the Junior Red Cross is one of the most conspicuous, have pursued a common program through the schools of all provinces, while yet other groups, *e.g.*, the Federated Women's Institutes, the I.O.D.E., the National Council of Women, have made the schools a subject of leading interest in their national conferences.

The 'education press', with few exceptions, remains essentially provincial rather than national in range, but to some extent the wider picture is interpreted by exchanges, particularly among kindred groups of magazines like those of teachers' federations, trustees' associations, and home and school federations. The Canadian Teachers' Federation has had under consideration for several years the publication of a national magazine, and, while the project has not yet come to fruition, a central news service to all the provincial magazines is conducted.

It is not intended to assess here the extent to which different factors—improved knowledge and acquaintance as between provinces, development from a more or less common root, or geographical and social conditions, for instance—are responsible, but simply to point to the fact that education in the eight mainly English-language provinces tends to continue in these changing times to maintain a common form and content.

<sup>1</sup> The first two items for Quebec are for 1934-35; all others in the table for 1935-36, but Ontario elementary figures in years previous to 1935 have been for the calendar year, not for the school year, hence have included over 40,000 duplications which are now removed.

<sup>2</sup> Schools for the blind, deaf, or mentally defective. These are boarding schools, and many of the pupils are from a province other than the one in which they are at school.

<sup>3</sup> Included with "Universities and Colleges—Preparatory Courses".

<sup>4</sup> Includes also those in the Departmental summer schools for teachers in Ontario and British Columbia, not held at universities or colleges.

<sup>5</sup> Official estimate, see p. 155.

<sup>6</sup> Includes 162 in ordinary day schools and 450 in Dominion Indian schools for Yukon and the Northwest Territories.

<sup>7</sup> Includes 14,000 estimated population for Yukon and the Northwest Territories.

<sup>8</sup> Includes \$56,321 for Yukon and the Northwest Territories, under "expenditure".

## Subsection 1.—Provincially-Controlled Schools.

An outline of the provincial systems of school administration was given on pp. 960-962 of the 1937 Year Book, and is not repeated in this edition.

A table at p. 963 of the 1937 Year Book included the record of annual enrolment by provinces since 1911, together with the record of average daily attendance shown in Table 2 below. Figures of both enrolment and attendance for years earlier than 1911 were published on pp. 839-840 of the 1932 Year Book. The record of average daily attendance is the more comparable one, as between provinces, and probably the more significant for most purposes. Both figures have been practically at a standstill, or declining, in all provinces except Quebec, for several years, due to the annually decreasing number of younger children entering the schools. The decrease would be much more pronounced but for the tendency for older children to remain in school longer. The extent of this latter trend was indicated on pp. 956-957 of the 1937 Year Book.

## 2.—Historical Summary of Average Daily Attendance in Provincially-Controlled Schools, by Provinces, 1911-36.

| Year.   | P.E.I. | N.S.   | N.B.   | Que.    | Ont.                 | Man.                | Sask.   | Alta.   | B.C.    | Total.                 |

<sup>1</sup> Approximate.<sup>2</sup> Revised since the publication of the 1937 Year Book.<sup>3</sup> Not available.

For the year 1936 a record of the age distribution of pupils in the provincially-controlled schools of all provinces has been made available for the first time. This tabulation is presented in Table 3. The ages of boys and girls are not shown separately, and it should be mentioned that there is a definite tendency for boys to leave school at younger ages than girls. A table at p. 964 of the 1937 Year Book showed the comparative numbers of boys and girls in the secondary grades of eight provinces.

## 3.—Age Distribution of Pupils in Provincially-Controlled Schools, by Provinces, 1936.

| Age.                      | P.E.I.        | N.S.           | N.B.          | Que.           | Ont.           | Man.           | Sask.          | Alta.          | B.C.           |
|---------------------------|---------------|----------------|---------------|----------------|----------------|----------------|----------------|----------------|----------------|

**Technical Education.**—Recent editions of the Year Book have mentioned the tendency in post-war years toward diversity of instruction at the secondary level. It will be of interest to note here the extent to which communities of various sizes have made provision for technical and commercial instruction.

Among the 35 cities in Canada with populations of more than 20,000, there are 9 without day technical schools. Three of these—Verdun, Outremont and Westmount—are within reach of the Montreal Technical School. The others in order of size are Winnipeg, Halifax, Sherbrooke, Sydney, Glace Bay, and Moncton, the last four being among the smaller cities of the group. Evening technical classes are held in practically the same number of larger cities, though not the same cities, those without them in this case being all in Ontario and Quebec.

Among the 103 cities with populations between 5,000 and 20,000 about one-fourth have day technical schools and a similar number have evening technical classes. In smaller centres day schools are extremely rare, considering that there are nearly 400 places with populations of between 1,000 and 5,000, and only half a dozen schools among them. A considerable number, however, provide evening instruction of a technical character.

As information is not available concerning the number of centres offering commercial instruction in Quebec, reference can be made only to eight provinces. The chief difference to be noted, in comparison with the coverage of other technical instruction, is that approximately twice as many towns and smaller cities include commercial courses in their high schools. There are privately-owned business schools in quite a number of others, although they too are unusual in places with a population smaller than 5,000.

The number of centres offering evening classes of a technical nature has declined very considerably in the past few years, and attendance at such classes has fallen by one-third. Enrolment in day technical schools has changed little for several years (an interesting situation in view of the fact that the academic high school enrolment has continued to increase at the same time) probably due to the technical schools being filled to capacity with no money available for their extension.

Over a ten-year period technical students have increased proportionately more than academic students. They have approximately doubled while the others have increased by less than one-half. Even so, in the eight provinces only about one high school student in five is following a technical course.

Technical enrolment includes a number of part-time students in training under provincial Apprenticeship Acts, an arrangement that seems to be regarded with favour. Ontario has had an Apprenticeship Act since 1928, under which boys learning the building trades have received their training partly in industry and partly in the technical schools; in 1936 the scope of the Act was extended to include barbering, hairdressing, and the automobile repair trade. A similar plan has been operated in British Columbia in the building trades since 1930, and an Apprenticeship Act was passed by the Nova Scotia Legislature in 1937.

In addition to the arrangements for apprenticeship that are being systematized under provincial statutes, it appears that a growing number of industrial companies are practising plans, of their own arrangement or in conjunction with private correspondence schools, for the technical training of their younger employees. Some of the country's largest railway, mining, and paper companies, as well as other manufacturing establishments, have such plans in operation.

High schools where the only technical course is agricultural are not included in the foregoing references. The total number of schools in Canada that would be called agricultural high schools, in the sense that the term technical high school is used, is less than a dozen, but some of the provinces provide considerable agricultural instruction in the regular courses for school leaving, normal entrance, or matriculation. About one-third of the academic secondary schools in Ontario (collegiate institutes, high and continuation schools) have agricultural classes. The 'ruralization' of teaching in Quebec schools has received emphasis in recent years. Available information, however, does not permit of a tabulation which would convey a reliable impression of the extent of agricultural education in the ordinary schools of the several provinces together.

There are residential agricultural schools (other than agricultural colleges) with one- or two-year courses as follows: two in Alberta, one in Ontario, and two in Quebec. They serve much the same purpose as the diploma course in agricultural colleges which are held at one centre in each province, except in Quebec where there are three, and in the two smallest provinces, New Brunswick and Prince Edward Island, where there is none. These boarding schools for the teaching of agriculture remain rare in Canada as compared with some other agricultural countries. Denmark, with a population about equal to Ontario's, has 21 such schools with an attendance of from 2,500 to 3,000, in addition to 59 folk high schools (also residential institutions) with an attendance of 6,500 drawn mainly from farm young people. The total enrolment in agricultural boarding schools in all Canada, including the diploma course at agricultural colleges as well as the other five schools, is about 800.

For no other occupation, however, with the possible exception of homemaking, do Governments in Canada conduct so many educational services outside of the schools as for agriculture. Short courses by provincial Mines Departments for prospectors have been attended by nearly 5,000 men in a year lately, but short courses for farmers, their wives and children, varying in length from a few days to a few weeks, are attended each year by several times this number. And courses are by no means the only type of educational service sponsored by the Extension Branches of Departments of Agriculture and agricultural colleges. One other vari-

ety alone, the organization of boys' and girls' farm clubs, includes more than 30,000 young people. A review of the various types of service is not possible in short space and will not be attempted here.

**Teaching Staffs.**—The teaching staffs of day schools under provincial control in Canada consisted in 1936 of 73,291 teachers, 18,424 males and 54,867 females. Practically all of the increase of 3,500 in teachers since 1930 has been in the male class. The "Annual Survey of Education in Canada, 1936" deals in detail with the classification of these teachers, the rates of salary paid and the teaching experience. Table 4 summarizes statistics regarding rates of salary for rural and urban teachers in recent years.

4.—Average Annual Salaries Received by Teachers in Rural and Urban Schools, by Provinces, 1926 and 1930-36.

| Item.                            | 1926.              | 1930. | 1931. | 1932. | 1933. | 1934. | 1935. | 1936. |
|----------------------------------|--------------------|-------|-------|-------|-------|-------|-------|-------|
| Prince Edward Island—            |                    |       |       |       |       |       |       |       |

<sup>4</sup> Changed from calendar

**Financial Statistics.**—Tables 5 and 6 present records of the finances of the boards operating the provincial schools, in a comparable way, in so far as this can be done with existing records. Similar tables in the 1937 Year Book presented this information for all years since 1926, and in the 1936 Year Book for all years since 1914.

## 5.—Financial Support of Provincially-Controlled Schools in Canada, by Provinces, 1926, 1931, and latest years.

NOTE.—The receipts shown in the following table do not include any amounts raised by loans, or the sale of bonds or debentures, as all revenues of this nature must be repaid ultimately with money raised by local taxation. With the exception of the Maritime Provinces, for which the information is not available, the total debenture indebtedness of the schools of each province is given annually, thus showing the net increase or decrease per year. Figures for intervening years will be found at pp. 967-968 of the 1937 Year Book.

| Province and Fiscal Year.    | Government Grants.   | Taxation within School Administrative Units. | School Board Revenue from Counties. | Total Current Revenue Recorded. <sup>1</sup> | Debenture Indebtedness. | Administrative Units Operating Schools. |

<sup>1</sup> Includes tuition fees where these are recorded.<sup>2</sup> Includes contributions to teachers' salaries in the Maritime Provinces; and in New Brunswick, grants made to schools by the Vocational Education Board.<sup>3</sup> Record not available. <sup>4</sup> The Ontario figures include the township grant towards the salaries of rural public school teachers. In the rural municipalities of Manitoba about three-fifths of the school support is equalized by a uniform rate levied over the whole municipality.<sup>5</sup> Revised since publication of the 1937 Year Book.

## 6.—Expenditures of School Boards, by Provinces, 1926, 1931 and 1936, or latest year.

NOTE.—All amounts in even thousands are estimates. Figures for intervening years were given at p. 969 of the 1937 Year Book.

<sup>1</sup> Excluding all payments on principal of debentures, etc.

<sup>2</sup> Not available.

<sup>3</sup> Included

under the heading, "Equipment, repairs, etc."

<sup>4</sup> In Manitoba, interest on debentures only.

<sup>5</sup> In

Alberta repairs are included under this heading.

<sup>6</sup> Revised since publication of the 1937 Year Book.

## Subsection 2.—Private Schools.

**Private Elementary and Secondary Schools.**—There are numerous schools in each province doing work similar to that of the ordinary provincially-controlled schools, but which are not publicly financed or administered and hence are not included in Subsection 1 (except in Quebec). Except in Quebec, the private schools have from about 2 to 4 p.c. of elementary and secondary pupils in the different provinces. In Quebec the proportion is about 10 p.c., but most of them are subsidized by the Provincial Government and provincial reports include a record of them similar to, and in some cases (as of average daily attendance) inseparable from, the records of publicly-controlled schools. Thus their statistics are of necessity included in Subsection 1. Table 7, however, shows their enrolment quinquennially since 1921, the year in which the Education Branch of the Dominion Bureau of Statistics commenced the collection of reports from private schools. A directory of the schools is included in the "Annual Survey of Education, 1936".

### 7.—Enrolment in Private Elementary and Secondary Schools in Canada, by Provinces, 1921, 1926, 1931, and 1936.

NOTE.—Figures for intervening years were given at p. 970 of the 1937 Year Book.

| Year.     | P.E.I. | N.S.  | N.B.  | Que.   | Ont.   | Man.  | Sask. | Alta. | B.C.  | Total. |
|-----------|--------|-------|-------|--------|--------|-------|-------|-------|-------|--------|

**Business Colleges.**—There are private schools in fields of education other than elementary and secondary, the most numerous group working in the field of business and commercial education. A record of enrolment from this group also has been collected by the Education Branch of the Dominion Bureau of Statistics since 1921; a summary of this information is presented in Table 8.

### 8.—Enrolment in Private Business and Commercial Schools (Business Colleges) in Canada, by Provinces, 1921, 1926, 1931, and 1936.

NOTE.—Figures for intervening years were given at p. 971 of the 1937 Year Book.

| Year.     | P.E.I. | N.S.  | N.B. | Que.  | Ont.   | Man.  | Sask. | Alta. | B.C.  | Total. |

### Subsection 3.—Higher Education.

Previous editions of the Year Book have included considerable current information on universities and colleges, concerning enrolment, graduates, teaching staffs, and finances. For example, pp. 971 to 978 of the 1937 Year Book presented the enrolment and graduates of individual schools of higher education for the year 1934-35 and, furthermore, referred to previous editions of the Year Book in which statistics regarding the finances, staffs, etc., of these institutions were presented. The necessity to economize space in the Year Book has made it impossible to continue to give detailed statistics of this nature, more especially since they are now adequately treated in the "Annual Survey of Education in Canada", published by the Dominion Bureau of Statistics. The interested reader is referred to the latest edition, that for 1936.

Available space this year is devoted to a retrospective view of the work of these institutions since 1920, the year in which preparation of records of higher education was begun by the Education Branch of the Dominion Bureau of Statistics.

The record of graduates in Table 9 shows that there has been an increase of about 50 p.c. in the annual number of university graduates since 1923 or 1924, when the abnormalities of enrolment resulting from the War mainly disappeared. By studying the figures in relation to the total population of the country at university age, it is found that nearly 3 p.c. of the young people growing up in Canada to-day become university graduates—about 4 p.c. of the young men and 1.5 p.c. of the young women. The proportion receiving degrees in Arts or Science is now nearly

double that of fifteen years ago, but in several of the other faculties the proportion has not increased at all, and in some has definitely fallen. The annual supply of professional workers, as represented by these records of graduation in the several faculties, was studied in relation to the requirements for maintaining the existing ratio of professionals in the total population, in a special bulletin of the Education Branch issued in 1937.

This bulletin, *Supply and Demand in the Professions in Canada*, shows that Canadian universities have been further short of training the number of workers required in engineering and allied professions than in most others. Native-born Canadians constitute few more than half of the mining, mechanical and electrical engineers, designers, draughtsmen and architects in the country, and only about two-thirds of civil engineers, surveyors, chemists, assayers and metallurgists. Much the greatest outside source of supply has been the British Isles, while the United States has supplied larger numbers than the continent of Europe.

It has been shown by health professionals that the population per doctor is greater now than a generation ago, is nearly double in some provinces what it is in others, and is more than double in cities what it is in smaller communities and their surrounding rural areas. The population per dentist is now only about 2,500 where as it was 4,000 thirty years ago, but the rate at which dentists have been graduated in recent years has not been nearly fast enough to maintain the existing ratio. Health of animals engages fewer professionals, *i.e.*, veterinaries, than twenty years ago, although the number of live stock is much greater now.

Clergymen represent another main professional group in which it seems doubtful whether the supply is being maintained. Teachers, on the other hand, are more numerous than required, particularly in view of the fact that a smaller child population each year reduces the demand for their services. The equivalent number of all new teaching positions for several years have been taken by men. University courses in librarianship have as yet attracted few men.

The supply from the universities in law and pharmacy seems to retain a closer relationship to requirements than in the occupations just mentioned, perhaps, in a measure, because part of the training is taken in the employ of a graduate lawyer or druggist, the number of entrants thus depending in some measure on the number practising. In many of the less clearly defined or numerically less important professions it is not possible to trace the adequacy of the rate of supply with existing sources of information.

Table 9 shows that there has been no tendency in post-war years for women to increase their enrolment in such professional lines of study as medicine, dentistry, pharmacy, law, theological, or missionary courses. A few appear in the record of every branch of study into which enrolment can be divided, except forestry, but they have held in the main to Arts, including Science and Commerce, and to Education, Social Service and Public Health. Altogether they constitute about one-fourth of university graduates, but their proportion of the total has not tended to increase noticeably since the abnormal enrolment of returned soldiers came to an end in the early 1920's. Their proportion is highest in Ontario and the western provinces.

In this connection it is of interest to recall that university education for women in Canada began only within the lifetime of the older generation women still living. The centenary of university education for women was celebrated in the United States recently, the original event having been the admission of four young women to the post-matriculation course at Oberlin College, Ohio, in the autumn of 1837, but according to the archives of the Canadian Federation of University Women, it

was not until about 40 years later that women were first admitted to a university course in Canada, and only about 50 years ago that the practice became general.

The story of universities in these 50 years has been one of service broadening in many ways. There has been the addition, one after another, of new branches of study; Table 9 reveals several innovations in the years since 1920. To match the nineteenth century's extension of service to women, the twentieth century has brought about the recognition by universities of an educational responsibility to the general population beyond their walls. The work of university extension departments, however, takes so many forms that it does not lend itself to tabular expression, and cannot be summarized here.

### 9.—Graduates from Canadian Universities and Colleges, 1920-36.

#### GRADUATES IN ARTS, PURE SCIENCE, AND COMMERCE.

<sup>1</sup> Not including diplomas in Education and Social Service, a few other diplomas, post-graduate and honorary degrees.

## Section 2.—Scientific and Industrial Research in Canada.

This section has, in past years, dealt with the history of scientific and industrial research in Canada and has included subsections outlining the organization and work of the National Research Council, and of those provincial councils and private institutions which are primarily interested in research work. During the past year, the operations of these organizations continued to be conducted along the lines described in previous issues of the Year Book, and to conserve space the reader is referred for this information to pp. 866-872 of the 1932 Year Book.

## Section 3.—The Libraries of Canada.

The Dominion Bureau of Statistics collects information from libraries biennially. In the 1937 Year Book, at pp. 978-980, a summary of the data obtained in the latest survey was published. More recent information is not available at the date on which the 1938 Year Book goes to press.

## Section 4.—Art in Canada.

An article entitled "The Development of the Fine Arts in Canada", contributed by Newton MacTavish, M.A., D.Litt., appeared at pp. 995-1009 of the 1931 Year Book and a shorter article, dealing more particularly with the National Art Gallery, at pp. 886-888 of the 1924 Year Book.

## CHAPTER XXVI.—PUBLIC HEALTH AND RELATED INSTITUTIONS.

The subject matter of this chapter is treated under the following sectional headings: Section 1.—Administration of Public Health Activities in Canada by the Dominion and Provincial Governments; Section 2.—Institutional Statistics of Public Health and Benevolence where, besides health and hospitalization records, social statistics also receive some attention—the latter are becoming more and more necessary to the proper drafting of social legislation and the study of social problems; Sections 3 and 4 review concisely the work of the Victorian Order of Nurses and the Canadian Red Cross Society, respectively.

The rapid increase in the numbers committed to various institutions, such as hospitals for the insane, feeble-minded and epileptic; the alleged increase in juvenile crime and the extension of social work in this field; the increasing number of institutions caring for the aged and incurable, as well as for dependent, neglected, and handicapped children, have been marked features of the first part of the twentieth century.

### Section 1.—Administration.

In Canada public health is administered by the Dominion and Provincial Governments through their respective health departments.

The Dominion Government deals only with such public health matters as are exclusively national, or such interprovincial public health matters as cannot be controlled effectively by the provinces. In addition, the Dominion Government makes grants to voluntary organizations which are engaged in public health work, notably: Canadian Welfare Council; Canadian National Institute for the Blind; Canadian Tuberculosis Association; Canadian National Committee for Mental Hygiene; Victorian Order of Nurses; Canadian Branch of St. John Ambulance Association; Canadian Red Cross Society; Canadian Social Hygiene Council; Canadian Mental Hygiene Council.

With the object of obtaining uniform legislation and procedure in the various provinces the Dominion Council of Health was created. This body consists of the Deputy Minister of the Dominion Department of Pensions and National Health as Chairman, the chief executive officer of the provincial department or board of health of each province, together with such other persons, not exceeding five, as may be appointed by the Governor in Council to hold office for three years. Of these appointed members, four represent agriculture, labour, rural women's work and social service, and child welfare, while the fifth member is a scientific adviser on public health matters. The Council meets twice a year at Ottawa, when public health problems are discussed and uniform standards and legislation adopted.

Speaking generally, the administration of local public health activities and the establishment and maintenance of institutions is in the hands of the Provincial Governments, under Sec. 92 of the British North America Act, 1867. Under their control, municipalities, societies, and individuals generally initiate charitable and humane efforts, depending on the Government to some extent for financial aid and for competent uniform inspection of methods and standards. Important, and reflecting most clearly the benefits accruing from such work, are the provisions for medical inspection of school children. These are carried out in some cases by the district or sub-district medical health officers, and in others by public health nurses

whose activities are confined to this work alone. In addition, expert advice and assistance are supplied freely to children, teachers, and parents. In many cases dental inspection is provided for. This work is relatively new and has been carried on upon a considerable scale for only a short period but great benefits have already resulted, notably general improvement in health and sanitary conditions and in the control and prevention of epidemics.

Public hospitals are the most numerous among health institutions. They are usually erected and supported by the municipalities, their actual administration being in the hands of boards of trustees; their revenue, in addition to that provided by the municipality, is derived from grants from the Provincial Governments, donations of individuals and societies, and fees paid by patients. Admission and treatment are free to all deserving persons who apply for them and whose resources are so limited as to prevent their otherwise receiving proper medical attention, while it is generally expected of others that payments for services shall be made in proportion to costs and their ability to defray them. Such public hospitals include isolation and maternity hospitals, tuberculosis sanatoria, etc. The two lazarettos for lepers are under Dominion administration, as are also hospitals for veterans and certain marine and immigrant hospitals.

Private hospitals do not receive public grants. There are also hospitals, more common in the province of Quebec, which are conducted by various religious orders; Red Cross hospitals and outposts; and special hospitals which may be privately administered or maintained by the provinces.

Mental institutions, homes for the feeble-minded and the epileptic are in most cases under provincial administration, although in Nova Scotia the insane of each county are cared for in county institutions.

Among charitable and benevolent institutions, orphanages, refuges, and homes for the aged are usually supported by the larger centres and by county municipalities. Homes or schools for the deaf and dumb and the blind are largely under provincial administration.

In the case of penal and reformatory institutions, penitentiaries are administered by the Dominion Government, while reformatories, industrial schools, prison farms, and similar corrective institutions are administered by the Provincial Governments.

#### **Subsection 1.—Public Health Activities of the Dominion Government.**

The Act of Parliament (18-19 Geo. V, c. 39, An Act respecting the Department of Pensions and National Health) creating the Dominion Department of Pensions and National Health, clearly defined its functions. The Department is divided into two divisions—those of Pensions, and National Health. The chief functions of the National Health Section (which from 1919 to 1929 was the Department of Health) are: to protect the country against the entrance of infectious disease; to exclude immigrants who might become a charge upon the country; to treat sick and injured mariners; to see that men employed on public construction work are provided with proper medical care; to set the standards and control the quality of food and drugs, except export meat and canned goods, which are under the Department of Agriculture; to control proprietary medicines and the importation and exportation of habit-forming drugs such as morphine, cocaine, etc.; to care for lepers and to co-operate with the provinces with a view to preserving and improving the public health. Following are the various Divisions of the Department of Health.

**Division of Quarantine, Leprosy, Immigration Medical, Sick Mariners and Marine Hospitals.**—*Quarantine*—Quarantine has for its object the prevention of the entry into the country by water, land, or air traffic of quarantinable diseases, especially plague, cholera, yellow fever, smallpox, and typhus. Quarantine stations are maintained at Halifax, N.S., Saint John, N.B., Quebec, Que., and William Head, B.C. Supervision is exercised especially over all vessels coming from abroad and any passengers or crews who are found to be suffering from quarantinable disease, together with contacts, are removed to the quarantine station, and the necessary measures taken regarding the infestation of vessels with rats or other vermin; all this in accordance with the principles laid down in the Convention of Paris, 1926. *Leprosy*—The Leprosy Branch of this Division operates two hospitals for the treatment of all cases of leprosy found in Canada, one at Tracadie, N.B., and the other at Bentinck Island, B.C. *Immigration Medical*—Medical advice is given the Immigration Department with regard to the mental and physical suitability of prospective immigrants. With this end in view there has been placed in Great Britain, Ireland, and on the Continent of Europe, a staff of Canadian doctors, whose duty is to examine all intending emigrants to Canada prior to their embarkation. This arrangement obviates the expense, discomfort, disappointment, and hardship occurring hitherto whenever it became necessary to deport, on account of physical or mental disability, immigrants who have made the journey across the ocean to Canada. Medical officers are also stationed at the principal ports of entry in Canada, who make a final inspection of prospective immigrants and supply medical care for those who are ill on arrival. *Sick Mariners and Marine Hospitals*—The sick mariners and marine hospitals provide medical and surgical attendance and such other treatment as may be required to all sick and injured mariners arriving at Canadian ports and belonging to vessels that pay sick mariners' dues, in conformity with Part V of the Canada Shipping Act (see pp. 680-682).

**Division of Sanitary Engineering.**—The activities normally handled under Public Health Engineering include: the administration of the Public Works Health Act, which is concerned with the health of men on construction works, canals, railways, and other forms of public works; by agreement with the U.S. Public Health Service, investigations and reports on sources of water supplies for use aboard common carriers in international and interprovincial traffic between Canada and the United States; special investigations and reports regarding pollution of the International Boundary waters in conjunction with representatives of the U.S. Public Health Service; supervision of water supplies of common carriers on the inland waters of Canada and in international and interprovincial traffic is another function; co-operation with other Dominion Departments *re* sanitation in National Parks and summer camps on Dominion lands and allied matters; with the American Railway Association regarding regulations on sanitation; with the Provincial Health Departments and the U.S. Public Health Service for the certification of water supplies of common carriers in interprovincial and international traffic.

**Proprietary or Patent Medicine Division.**—This Division is organized to give the public a reasonably safe and truthfully labelled proprietary medicine supply. Registration of all secret formula non-pharmacopoeial medicines for human use is required, and control is exercised over the potent drugs used in the manufacture of such medicines and the representations made regarding their use.

**Laboratory of Hygiene.**—The Laboratory of Hygiene is chiefly concerned with the control of biologic products used in treatment of human diseases, particu-

larly with reference to the potency of certain toxins, antitoxins, and other serological preparations. Sera and vaccines are scrutinized for purity, sterility, and potency. Such drugs as digitalis, strophanthus, ergot, pituitrin, and the salvarsans are examined for potency, and standards for them, based upon those of the League of Nations' Health Committee, are prepared by the Laboratory and furnished to all manufacturers desiring to use them in making their products. Disinfectants are investigated as to manufacturers' claims for germicidal qualities. Special and general aid is rendered to other departments of government, and research problems are undertaken.

**Food and Drugs Division.**—In this Division, inspection and laboratory services are maintained primarily for the purposes of the Food and Drugs Act, which is regulatory in character, designed to prevent the importation and sale of adulterated or misbranded food and drugs. Laboratories in Halifax, Montreal, Ottawa, Toronto, Winnipeg, and Vancouver examine samples taken from suspected stocks. Corrective measures are applied whenever adulteration or misbranding is found. Standards of quality have been established for many products, and the supervision of informative, truthful label declarations is a special objective. Laboratory services are provided for other Divisions of the Department, and co-operation with other departments of government is effectively carried on.

**Narcotic Drug Division.**—Since the introduction of opium smoking in Canada forty or more years ago the use of habit-forming drugs, such as morphine, heroin, and cocaine, has increased. One of the first steps taken by the Department of Health was the creation of a Narcotic Branch. Through this Branch, the importation and sale of such drugs are controlled in accordance with the principles laid down by international Conventions agreed to at The Hague and Geneva. Wholesale agents and druggists are obliged to keep records of importation or sale and to forward their records periodically to the Department. The legitimate use of these habit-forming drugs is thus controlled.

**Epidemiology.**—The Epidemiological Division co-operates with the provincial Departments of Health in the control of the communicable diseases and carries out special studies in regard to morbidity and mortality of disease and public health problems that arise from time to time.

**Industrial Hygiene.**—The purpose of the Industrial Hygiene Division is to develop methods for the protection and improvement of the health of industrial workers. This Division conducts special studies regarding illness in industries in co-operation with the provincial Departments of Health.

**Child and Maternal Hygiene.**—The work of this Division consists of measures designed for the reduction of infantile and maternal mortality in Canada. This necessitates collection of information regarding causative factors and the dissemination of knowledge regarding the application of remedial measures.

**Medical Appraisal and Advisory Division.**—This Division is concerned with medical examination of civil servants, supervision of sick leave and superannuation of civil servants throughout Canada on behalf of the Civil Service Commission, and special medical studies.

**Publicity.**—As the name indicates, the efforts of this Division are directed towards the dissemination of information on all phases of public health. The work consists of the compilation and distribution of public health literature, of exhibits, lectures, etc.

**Subsection 2.—Public Health Activities of the Provincial Governments.\***

**Prince Edward Island.**—The supervision of public health matters in Prince Edward Island was placed, on July 1, 1931, under a specially created Department of Public Health, presided over by a Minister and his Deputy. Two part-time physicians, five full-time public health nurses and two sanitary and food inspectors are employed. Under the direction of the Deputy Minister, the province is divided into five public health districts and each nurse is assigned a territory in which she is responsible for the inspection of school children, home visits, home-nursing classes, immunizing and vaccinating clinics, etc. The sanitary and food inspectors make regular surveys of the food-manufacturing plants, school premises, hotels, boarding houses, restaurants, etc., throughout the province. The Government also operates the Faleonwood Hospital for the Insane and the Provincial Infirmary.

In addition the Government subsidizes the Provincial Sanatorium, which has a capacity of sixty beds and has been functioning to capacity since July 1, 1931. In charge of the Provincial Sanatorium is a Medical Superintendent with an assistant and a staff of trained nurses. The Superintendent conducts chest clinics at regular intervals throughout the province as well as a regular weekly clinic in the Sanatorium, where referred cases from physicians are examined.

The Department of Health operates the Provincial Laboratory and a qualified technician is in charge, who examines material forwarded by physicians throughout the province.

Two venereal disease clinics are conducted by the Public Health Department, one in Charlottetown and the other in Summerside. All prisoners in Queens and Prince Counties gaols are examined and treatment given when required. Other patients unable to attend these clinics on account of distance are treated by their own local physicians who are supplied with the necessary medication.

**Nova Scotia.**—In Nova Scotia the Department of the Public Health directs its energies to communicable disease control; prenatal, post-natal, and school hygiene; sewage disposal; safety of milk and water supplies; collection of vital statistics; mental hygiene and health education. All of this has brought into being a comprehensive organization, presided over by a Minister, which acts in an advisory capacity to all local boards of health; makes regulations respecting any matter relevant to the public health; maintains a field force which provides a consulting service in tuberculosis and other health activities; supports a public health nursing service with specially trained nurses, who work both in the schools and in the homes; gives a free public health laboratory service which extends throughout the province; supervises the provincial hospitals, both general and special; provides inspection of public general hospitals and humane institutions; stocks and dispenses sera and vaccines; and distributes literature on all phases of health.

In addition to the foregoing the Department has recently broadened out and has taken under itsegis certain phases of social welfare and dependency, which give it the administration of mothers' allowances, old age pensions, child welfare, and a training school for the mentally deficient.

The latest venture has been the planning of a public health unit for Cape Breton island, which unit is now in process of organization.

**New Brunswick.**—The Department of Health, under the administration of a Minister of Health, was established in 1918. It provides the following services:

\*The material under this heading has been revised by the respective provincial authorities.

general sanitation, including supervision of water supplies and sewage disposal; control of communicable diseases, including tuberculosis and venereal diseases; public health laboratory and the supply of biologicals; medical inspection of schools; collection of vital statistics; public health nursing and child welfare; health education; and general supervision and co-ordination of the work of the sub-district boards of health.

Under the Minister, the Department is directed by the Chief Medical Officer who is also Registrar General of Vital Statistics. The staff consists of a director of laboratories, eleven full-time medical health officers, a director of public health nursing service and in addition a part-time director of venereal disease clinics.

There are ten health districts, each in charge of a district medical health officer who also provides the tuberculosis diagnostic and medical inspection of schools services.

Sixteen sub-health districts, each with its own board of health of which the district medical health officer is the chairman, have been organized. The sub-district boards of health have their own individual staffs of sanitary, food, plumbing, and other inspectors, registrars of vital statistics and public health nurses, all operating under the Provincial Health Act and Regulations.

The Department also maintains twenty-four depots for the distribution of biologicals and eleven venereal disease clinics.

The twentieth annual report of the Chief Medical Officer contains a review of the various services, the vital statistics for the province and the reports of staff members and of the sub-district boards of health.

**Quebec.**—The Department of Health, under the control of the Minister of Health, replaced the former Provincial Bureau of Health at the end of the year 1936.

The province of Quebec inaugurated, in 1926, a new system known as the 'county health units', consisting of a full-time health service for each county, or group of two or three adjoining counties. At present, 36 health units covering 46 counties have been organized with new counties asking for the same privilege. The former district health officers, reduced to 12, are in charge of all the counties not yet organized as county health units.

The services of all these officers and their staffs of nurses, sanitary inspectors, etc., are given in the form of consultations, public lectures, school medical inspections, baby and travelling tuberculosis clinics, and investigations of all kinds, immunization, sanitation, etc.

In addition to an Administrative Division, the Ministry of Health maintains the following Divisions: Laboratories, Sanitary Engineering, Demography, Mental Hygiene, Public Charities, Health Units and Districts, and Epidemiology. The control of venereal disease and tuberculosis is also undertaken and the Grancher system of foster homes has been introduced. The two Divisions created last year, namely, the Division of Industrial Hygiene and the Division of Hygiene of Nutrition, are now in operation. The latter includes maternal and child welfare.

The energies of the Ministry of Health are also directed towards the prevention of epidemics, more particularly tuberculosis and the more important causes of infant mortality. To this end, the Ministry has established 21 anti-tuberculosis dispensaries and 70 baby clinics, including those receiving government grants. During the year 1936-37, in the anti-tuberculosis dispensaries and the travelling

tuberculosis clinics, 23,407 people were examined. The various county health units have provided for the immunization of 22,940 children against diphtheria, which, with those previously immunized, make a total of 242,506.

**Ontario.**—The Department of Health of Ontario is under a Minister of the Government. In the direction of the departmental program, he is assisted by a Deputy Minister. These activities are appropriately divided into the following Divisions: Hospitals; Sanitary Engineering; Laboratories; Preventable Diseases; Maternal and Child Hygiene, and Public Health Nursing; Oral Hygiene; Tuberculosis Prevention; Industrial Hygiene, and Inspection of Training Schools for Nurses.

The local health work is carried on by a Board of Health and a Medical Officer of Health in each of the 900 municipalities. Twelve cities have whole-time health officers.

The Department assumes the responsibility for the free distribution of biological products used in the prevention and cure of preventable diseases. Insulin is distributed to those in need of such treatment on the recommendation of the local authorities; a percentage of the cost is contributed by the local municipalities. The maximum in the way of bacteriological service, including the examination of pathological tissue, is offered through the central laboratory and the seven branch laboratories, which are situated at appropriate centres throughout the province. Consultative service in the field of mental hygiene is made available through clinics which operate throughout the province. A regular schedule is maintained by these clinics and the profession is urged to take advantage of the service offered.

The increased public interest in the prevention of tuberculosis has justified the large measure of emphasis placed, during the past two years, on this phase of the program. The Department has continued its efforts to make both diagnosis and treatment of cancer possible for all. Seven cancer clinics are operating in well-chosen centres in the province; each of these is substantially subsidized by the Department.

The control of venereal diseases is stimulated by the conduct in the large urban centres of clinics operated for the treatment of these diseases. In all municipalities, the Department assumes a percentage of the cost of treatment of those suffering from either syphilis or gonorrhoea, who are not in a position to pay for the necessary treatment.

**Manitoba.**—Manitoba has an organized Department of Health and Public Welfare. The Health and Public Welfare Act states that the Minister shall preside over and have the management and direction of the Department, and the Department shall have administrative jurisdiction over all matters in the province which relate to health and public welfare. The various Divisions of the Department include those of: Disease Prevention (food and dairy inspection, public health nursing, sanitation, venereal disease prevention, communicable diseases, industrial hygiene, and maternal and child hygiene); Provincial Laboratories; Vital Statistics; Hospitalization; Psychiatry (Selkirk and Brandon Hospitals for Mental Diseases—Manitoba School for Mentally Defective Persons, Portage la Prairie—Psychopathic Hospital, Winnipeg); Child Welfare; Estates of Insane Persons and Indigency in Unorganized Territory; Supervision of Aged and Infirm Persons (being supported by public funds); Supervision of Medical Service (supplied by the province).

The previously established Board of Health and the Welfare Supervision Board have assumed an advisory capacity to the Minister of Health and Public Welfare;

and the Child Welfare Board is both advisory and administrative, being responsible for the administration of the Child Welfare Act.

**Saskatchewan.**—The Department of Public Health has been organized since 1923 under a Minister and a Deputy Minister. The Public Health Act of Saskatchewan also provides for a Public Health Council, consisting of the Deputy Minister as Chairman, three medical practitioners, a veterinary surgeon and a civil engineer. This Council acts in an advisory capacity to consider new health regulations and allied problems.

The Department is organized into seven Divisions. The Division of Administration, directly under the Deputy Minister who is also the Registrar General, co-ordinates the activities of the Department as a whole, directs the general policy in public health matters, supervises finances, legislation, hospital grants, municipal boards of health, and medical relief in certain unorganized territories. The Division of Public Health Nursing supervises maternity grants, organizes inspection of school children and home visits, pre-school and preventive clinics in co-operation with local physicians and conducts a public health nursing service throughout the province. The Division of Communicable Disease deals with epidemiology in all its phases and administers the regulations governing cemeteries and care and transportation of the dead. Supervision of trachoma, venereal disease, and tuberculosis (other than the organization of the Anti-Tuberculosis League) also comes under this Division. The Division of Sanitation supervises food, water, milk, and ice supplies, sewerage systems, urban and rural sanitation, and the organization of union hospital districts. The Division of Laboratories includes in its organization bacteriology, serology, pathology, chemical analyses, and medico-legal work. The Office of the Registrar General (formerly the Division of Vital Statistics) administers the Vital Statistics Act and the Marriage Act. The system used in classifying vital statistics has been decided upon in co-operation with other provinces and the Dominion Bureau of Statistics. The Mental Hygiene Act and the mental institutions established under its provisions in North Battleford, Weyburn, and Regina (psychopathic ward), are administered by the Department, and the internal operations of these institutions are supervised by the Commissioner of Mental Services.

**Union Hospitals.**—In Saskatchewan, in addition to the general hospitals, there exists a system known as the Union Hospital Organization, designed to furnish hospital accommodation in rural districts. Under the provisions of this plan, two or more municipalities may co-operate in building, equipping, and maintaining a hospital. Municipalities constituting a hospital district may enter into an agreement with the hospital board to provide free treatment for certain classes of patients at the cost of the municipalities concerned.

**Cancer Commission.**—This Commission, created in 1930, consists of the Deputy Minister of Public Health as Chairman, together with two physicians as members and a physician as secretary. Consultative diagnostic and treatment clinics have been established in Regina and Saskatoon, and radon is manufactured at an emanation plant in Saskatoon. Close contact is maintained with current advances in the prevention, diagnosis, and treatment of cancer.

**Health Services Board.**—This Board consists of the Deputy Minister as Chairman, a representative of the provincial College of Physicians and Surgeons and a representative of the Association of Rural Municipalities. The Board is inquiring into the extent and administration of the various health services existing in the province, collecting and studying data on the general situation regarding incidence

of illness from all causes, considering methods for an equitable distribution of the costs of illness, studying the needs of the people with respect to general health services and the necessity of co-ordination of those now existing. An advisory committee is associated with the Board, and consists of representatives from medical, hospital and allied organizations.

**Alberta.**—The Department of Public Health was established by an Act of the Provincial Legislature in 1919. The Department includes the following Divisions: Communicable Diseases; Sanitary Engineering and Sanitation; Public Health Education; Laboratory; Public Health Nursing; Hospitals, Municipal Hospitals; Hospital Inspection; Social Hygiene; Vital Statistics; Mental Hygiene; Dental Hygiene; Tuberculosis Control and the following institutions: the Central Alberta Sanatorium; the Provincial Mental Hospital, Ponoka; the Provincial Training School, Red Deer; the Provincial Auxiliary Hospital, Claresholm; and the Provincial Mental Institute, Edmonton.

Free clinics for venereal diseases are maintained in the principal cities and in the two provincial gaols. Educational work on social hygiene is carried on by means of lectures, moving pictures, bulletins, and radio talks.

**British Columbia.**—The Provincial Board of Health, responsible to the Provincial Secretary, administers the laws relating to public health in British Columbia. Its Branches comprise the following: Sanitation, Venereal Clinics, Laboratories, Tuberculosis, Infectious Diseases and Public Health Nursing, and Vital Statistics. The Sanitation Branch has directed numerous recent efforts to the prevention of the spread of communicable diseases by touring motorists, and to the control of campers and squatters along the coast. The Laboratories Branch, in addition to the analysis of specimens, distributes various vaccines and antitoxin. The Tuberculosis Branch has been very much enlarged, the province being organized into districts under the direction of a medical officer and specially trained public health nurses. The educational part of the work is accentuated, and home visits are emphasized in order to educate the people to the dangers of infection.

## Section 2.—Institutional Statistics.\*

Under authority granted by the Dominion Government in 1930, the Dominion Bureau of Statistics has since co-operated with the provincial authorities through its newly created branch of the Census of Institutions, and collects, on a Dominion-wide basis, statistics for the following types of institutions: (1) *hospitals*—institutions primarily engaged in the prevention and cure of physical sickness and disease, such as hospitals for the sick, sanatoria, and institutions for incurables; (2) *mental and neurological institutions*—for the treatment and care of mental ailments, such as asylums for the insane, institutions for the feeble-minded, epileptic, etc.; (3) *charitable and benevolent institutions*—caring for the poor of both sexes and of all ages, such as homes for the aged, county refuges, orphanages, etc.; and (4) *penal and corrective institutions*—having for their purpose the reclamation of the criminal and the reformation and training of delinquent boys and girls. Institutional statistics, as summarized in Table 1, may, therefore, be regarded as dealing with the four main types of social pathology, *viz.*, physical, mental, economic, and moral. They provide a body of statistical data which affords to students of social problems a fairly comprehensive view of institutional life in Canada.

**Historical.**—A brief historical sketch of the origin and growth of the several classes of institutions in Canada was given at pp. 1006-1009 of the 1936 Year Book.

\* This section has been revised by J. C. Brady, Officer in Charge of Census of Institutions, Dominion Bureau of Statistics.

## 1.—Numbers of Institutions in Canada, by Provinces, 1936.

NOTE.—Dashes in this table mean that no institutions of the type indicated existed in those provinces so far as was known.

| Type of Institution.                           | P.E.I.    | N.S.       | N.B.      | Que.       | Ont.       | Man.      | Sask.      | Alta.      | B.C.       | Yukon and N.W.T. | Total.       |
|--|-----------|------------|-----------|------------|------------|-----------|------------|------------|------------|------------------|--------------|
| <b>Hospitals (excluding mental)—</b>           |           |            |           |            |            |           |            |            |            |                  |              |
| Public—  |           |            |           |            |            |           |            |            |            |                  |              |
| General.....                                   | 4         | 23         | 16        | 52         | 110        | 33        | 74         | 76         | 68         | 10               | 466          |

## Subsection 1.—Statistics of Hospitals, other than Mental.

The total number of various hospitals in operation in Canada during 1936 is given in the first part of Table 1. It is seen from the table that in addition to 613 public hospitals there were 259 private hospitals and 31 hospitals operated by the Dominion Government made up of: 8 for war veterans, 4 quarantine and immigration, 1 marine and 2 leper hospitals under the direction of the Department of Pensions and National Health; 9 military hospitals under the Department of National Defence; and 7 hospitals for Indians under the Department of Indian Affairs.\*

\* A complete list of all hospitals in Canada, giving name, location, type, bed accommodation, etc., will be found in the Hospital Directory for Canada, 1936, issued by the Dominion Bureau of Statistics.

Summary statistics of reporting hospitals, which included 99.5 p.c. of all hospitals in 1936, are presented for the years 1932 to 1936 in Table 2, and detailed statistics of staff, facilities, and movement of patients are shown by provinces in Table 3.

## 2.—Summary Statistics of Reporting Hospitals in Canada, calendar years 1932-36.

NOTE.—Figures include hospitals and homes for incurables, but do not include mental hospitals.

<sup>1</sup> These institutions are classified in detail in Table 1.

**Out-Patient Departments.**—Out-patient departments, or clinics, are operated independently or in connection with hospitals, medical colleges, universities, or other institutions. The dispensary or clinic in connection with a hospital is generally the out-patient department treating patients who do not occupy beds in the hospital. Sometimes, however, the out-patient department is distinct from the hospital proper and is a separate institution with its own staff, etc. The extension of out-patient services to patients of modest means has far-reaching and beneficial effects. It may replace admission to a hospital, or may serve to secure necessary and beneficial hospitalization. As a general rule, out-patient departments are subsidized from the funds of the general hospital and separate records are not kept. Until a uniform system of accounting is adopted, it will not be possible to give the average cost per patient.

Table 4 gives the hospitals of each class operating public out-patient departments in Canada, by provinces, 1936. The statistics are rendered more complicated than is desirable because of lack of uniformity in the method of reporting patients and treatments. The majority of hospitals report both patients and treatments, but a considerable number report either patients or treatments, but not both.

#### 4.—Public Hospitals Operating Out-Patient Departments, 1936.

NOTE.—Figures of government and municipal clinics held in hospitals are not included.

| Province and Class of Hospital. | Total Out-Patient Departments. | Both Patients and Treatments Reported. |           |                  | Patients only Reported. |           | Treatments only Reported. |                  |

<sup>1</sup> No report.

Subsection 2.—Statistics of Mental Hospitals.

The Census of Mental Institutions of Canada for June 1, 1931, gave the number of patients in all mental institutions as 31,686, of whom 24,188 were insane, 7,006 mentally deficient, and 492 epileptic. The number of patients in mental institutions per 100,000 of the general population was 305.4 on June 1, 1931, 316.5 on Dec. 31, 1932, 324.9 on Dec. 31, 1933, 335.6 on Dec. 31, 1934, and 348.2 on Dec. 31, 1935.

At Dec. 31, 1936, there were 39,833 patients in mental institutions in Canada, and 3,247 on parole, making a total of 43,080, whereas the normal bed capacity was only 37,379, showing a seriously overcrowded situation over a period when the patient population on Jan. 1, 1936, and the admissions and separations during the year are considered. This overcrowded condition is specially marked in British Columbia, Manitoba, Saskatchewan, Ontario, and Quebec. Of the 39,833 resident patients in 1936, 31,268 were insane, 7,711 were mentally deficient, 603 were epileptic, and 251 mental cases were otherwise classified. The patients per 100,000 of population at the end of the year were 359.5. Table 5 gives general statistics of mental institutions for 1936.

5.—Statistics of Capacity, Staff, Movement of Population, and Finances of Mental Institutions in Canada, by Provinces, calendar year 1936.

<sup>1</sup> Includes other personnel.  
are not included.

<sup>2</sup> Receipts and expenditures for the Ontario Hospital, Fort William, None reported.

### Subsection 3.—Charitable and Benevolent Institutions.

Statistics of institutions which care for the indigent, the aged and infirm, orphans, dependent and neglected children, the deaf and dumb and the blind, are shown by provinces in Table 6. Such statistics are now collected quinquennially and figures for 1931 will be found at page 1018 of the 1936 edition of the Year Book.

### 6.—Summary Statistics of Charitable and Benevolent Institutions in Canada, by Provinces, June 1, 1936.

<sup>1</sup> These institutions are classified in Table 1.

<sup>2</sup> Five institutions did not report and are not included.

**Subsection 4.—Corrective and Reformative Institutions.**

Summary statistics under this heading collected at the Census of 1931 were given at page 1019 of the 1936 edition of the Year Book. These statistics are now being collected quinquennially and figures for 1936 are given in Table 7. The reader will find detailed statistics of crime and delinquency (which are presented on an annual basis), as distinct from these institutional statistics, in Chapter XXVII immediately following this chapter.

**7.—Summary Statistics of Corrective and Reformative Institutions, by Provinces,  
June 1, 1936.**

Note.—The figures in this table differ from those shown at p. 998 of the 1937 Year Book in that the statistics for corrective and reformative institutions are now final, while those for penitentiaries have been eliminated, as statistics for these latter may be found in the following chapter.

### Section 3.—The Victorian Order of Nurses.

The Victorian Order of Nurses was created in 1897 for the definite purpose of establishing trained nurses in localities such as villages and townships remote from hospital centres. With the growth of the Order, the field of activity was broadened to meet the demands of health and social agencies in the large centres of population, but the main work of the Order is still carried out in the villages and rural areas of population.

The primary function of the Victorian Order is bedside nursing and teaching of health in the homes visited. Three types of care are given by the nurses, *viz.*, maternal and infant welfare, general nursing, and health education. During 1936, the Order had 343 trained nurses in the field and 78 Branches distributed as follows: Nova Scotia, 14; New Brunswick, 5; Quebec, 5; Ontario, 43; Manitoba, 1; Saskatchewan, 2; Alberta, 2; and British Columbia, 6. During 1936, 727,400 visits were made to 82,021 patients, which was a slight decrease in the work as a whole. The average number of visits per case was 8.9. Of the total visits paid, 433,668 or 59.6 p.c. were free while fully-paid visits constituted 24.7 p.c. (of which 17 p.c. were insurance) and part-paid visits 15.7 p.c. Maternal and welfare cases constituted 56.4 p.c. of the total visits paid.

The maternal death rate per 1,000 living births attended by Victorian Order nurses for the past five years was 2.2.

### Section 4.—The Canadian Red Cross Society.\*

Closely allied with the Dominion and Provincial Governments in activities to promote the health of the people is the Canadian Red Cross Society. Founded in 1896, its purposes are (1) to furnish volunteer aid to the sick and wounded of armies in time of war, and (2) in time of peace to carry on and assist in work for the improvement of health, the prevention of disease and the mitigation of suffering.

The more important phases of the peace-time work carried on by the Society are: (a) the continuing care of sick and disabled ex-service men; (b) the operation of Red Cross outpost hospitals; (c) the promotion of Junior Red Cross and the treatment of crippled or otherwise disabled children; (d) the maintenance of a disaster relief organization fully prepared for immediate action in any emergency; (e) the organization of classes for the study of home nursing and nutrition; (f) the care of immigrant women and children at the Port of Halifax; (g) the training and supplying of visiting housekeepers for families when the homemaker is ill; (h) co-operation with government departments and other voluntary organizations in combating disease, the promotion of child welfare, and the care of the physically defective; (i) in general, provision for the needs of the distressed and destitute.

Since the inception of the peace-time program in 1920, the Red Cross Society has established outpost hospital service in 70 centres in Canada's northland. Twenty-four of these have been handed over to their communities, four have been found no longer necessary, and in 1937 there were 42 outpost hospitals operating under the emblem of the Red Cross. In 1937, Red Cross outposts cared for 36,803 patients, of which number 7,296 were in-patients with a total of 78,369 hospital days' treatment. Without the aid of these outposts, thousands of our fellow-citizens who gain their livelihood on the fringes of the settled parts of Canada would have lacked any kind of skilled assistance when sickness or injury overtook them.

Junior Red Cross, a movement for the children of elementary and sometimes secondary schools, is devoted to the promotion of the principles of health, good citizenship, and international friendliness. Guided only by the teacher-mentor, the children work out their own program of personal and school hygiene, community service, and interchange of handicrafts and information with the Juniors of other lands. Though primarily an educational movement, it is significant that since its inception, the Canadian Junior Red Cross has helped over 14,000 crippled or otherwise disabled children. Junior Red Cross now embraces a membership of over 17,000,000 children in 52 nations of the world. In Canada for the school year 1936-37, 11,927 branches were enrolled with a total membership of 364,335.

The consolidated financial statement of the Society for 1937 showed total receipts of \$1,273,782, of which \$956,618 consisted of voluntary contributions. Gross expenditures were \$1,279,175, of which the major items were \$463,484 on disaster relief, \$299,679 for outpost hospitals, \$118,215 on assistance to soldiers and their dependants, \$44,796 for the treatment of crippled children, \$104,276 on general relief, \$45,792 on the organization of the Junior Red Cross, and \$24,037 for home nursing, visiting housekeeper, and nutrition services.

## CHAPTER XXVII.—JUDICIAL AND PENITENTIARY STATISTICS.\*

**Canadian Criminal Law and Procedure.**—An account of the development of the Criminal Code in Canada was given at pp. 1085-1087 of the 1934-35 edition of the Year Book. In this article a résumé of procedure and of the extent and jurisdiction of the various classes of judges and magistrates was given.

The statistics presented in the tables that follow, which are summarized from the Annual Report of Statistics of Criminal and Other Offences, are collected directly from the criminal courts in the different judicial districts throughout the Dominion. There are 155 judicial districts, including 2 sub-districts, divided as to provinces as follows: Prince Edward Island 3, Nova Scotia 18, New Brunswick 15, Quebec 24, Ontario 47, Manitoba 6, Saskatchewan 21, Alberta 12, British Columbia 8, and Yukon 1. The figures for the Northwest Territories are obtained from the reports of the Royal Canadian Mounted Police.

### Section 1.—General Tables.

The collection and publication of criminal statistics now made by the Dominion Bureau of Statistics was initiated in 1876 (39 Vict., c. 13). All records of crime in that period are now available in publications of the Judicial Statistics Branch of the Bureau. The statistics relate to years ended Sept. 30, the latest report being for 1936. Beginning with the report for 1922, an enlargement of the classification of offences has been adopted, by which offences of juvenile offenders are compiled separately from those of adults.

Crime is divided into two definite classes, 'criminal' or 'indictable offences', which include all serious crime covered by the Criminal Code (see Section 2, p. 1022), and 'summary' or 'non-indictable offences', which comprise breaches of municipal by-laws, traffic laws, and other less serious crimes (see Section 3, p. 1027). Broadly speaking, indictable offences are triable by jury, although in certain cases the accused is accorded the right of election as to whether he be tried by jury or before a judge without the intervention of a jury, and in other cases the jurisdiction of the magistrate as to trial is absolute and does not depend upon the consent of the accused. Non-indictable offences are usually dealt with summarily by police magistrates under the Summary Convictions Act, and comprise breaches of municipal regulations and other minor offences. The term indictable applies to offences of adults only, similar offences committed by juveniles being termed 'major' offences; similarly, non-indictable offences of adults are termed 'minor' offences when attributed to juveniles. Returns of criminal court proceedings for the year ended Sept. 30, 1936, showed that 420,247 trials were held as compared with 402,148 during the previous year. The figures showed 42,541 indictable and 377,706 non-indictable cases, as compared with 39,506 indictable and 362,642 non-indictable cases during the previous year. Of the indictable offences, 36,059 were convictions as compared with 33,531 during 1935. The 36,059 convictions during 1936 were comprised of 32,689 males and 3,370 females. In 1935, 30,195 males and 3,336 females were convicted.

Previous to 1922, however, the classification into criminal and minor offences was followed in classifying statistics; the historical Table 1 and the more detailed

\* Revised by H. M. Boyd, Chief, Judicial Statistics Branch, Dominion Bureau of Statistics. The sixty-first Annual Report of Statistics of Criminal and Other Offences, for the year ended Sept. 30, 1936, is obtainable on application from the Dominion Bureau of Statistics.

short-term statistics of Table 2 continue the classification on a comparable basis, giving the totals for all offences, *i.e.*, different classes of criminal offences and minor offences, including those of juvenile delinquents. In connection with Table 1, it should be remembered that, while the Criminal Code undergoes little change over periods of time, the figures of summary convictions are influenced very much by the changing customs of the people, and are apt to increase with the increasing urbanization of the population. The most significant column of this table is the figure of criminal offences per 100,000 of population. Attention may be drawn to the increase in the proportion of both criminal offences and minor offences to population in recent years, convictions for criminal offences having risen from 284 per 100,000 population in 1921 to 425 in 1931 and 412 in 1936, and convictions for minor offences from 1,731 per 100,000 in 1921 to 3,113 in 1931 and 3,405 in 1936.

It should be understood that the classification of offences in these general tables is irrespective of the mode of procedure. That is to say, the headings "criminal" include many indictable offences disposed of summarily under the Summary Trials Act. Hence any addition of indictable and major and minor offences, as shown in other tables, will not agree with the figures given in Tables 1 and 2. The object here is to show a broad historical record of criminal and minor offences, respectively.

**1.—Convictions for Criminal Offences, by Classes, Convictions for Minor Offences, and Total Convictions, with Proportions to Population, years ended Sept. 30, 1911–36.**

NOTE.—For figures for the years 1876–1910, see p. 993 of the 1930 Year Book.

| Year.   | Criminal Offences. |                         |                            |                                   |  |                       |                  | Minor Offences, Total and Ratios. |                       |                  | Total Criminal and Minor Offences. |

**Pardons.**—The total number of cases in which the prerogative of mercy was exercised during 1936 was 1,495; of these 53 were not imprisoned, and were granted remittance or reduction of fines, etc. In 716 cases release on ticket of leave was granted, and 635 were released unconditionally, 46 were deported, 57 fines were remitted or reduced; 3 death sentences were commuted and 85 cases disposed of in various other manners. These figures relate to the judicial year ended Sept. 30, and are not therefore comparable with those given in Section 6, Penitentiary Statistics.

**2.—Convictions for Criminal and Minor Offences, by Class of Offence, Compared as to Numbers and Ratios, years ended Sept. 30, 1932-36 (Including Juveniles).**

The recent trend of total convictions, including those of juveniles, and of sentences imposed, is shown by provinces for the years 1930 to 1936 in Table 3. Death sentences for all provinces except British Columbia show a downward trend during the period covered in Table 3. In the latter province, they were abnormally high in 1936 and in fact exceeded those of either Ontario or Quebec—provinces with four or five times the population of British Columbia. Increases in the numbers of convictions are shown in every province except Quebec and in the Territories.

## Section 2.—Indictable Offences of Adults.

The progress of a community, from a moral point of view, is often judged by the number of convictions for indictable offences, as these are less affected than non-indictable offences by extraneous circumstances and the varying methods of law enforcement in different areas and in different years. However, in the study of such statistics it is important to have comparable figures over a period of years, and these are set out by provinces for each year since 1911 in Table 4. Again, in Table 5 are shown the numbers of charges and convictions and the percentages of acquittals for the three years ended Sept. 30, 1934-36.

It may be stated that during the thirty-six year period from 1900 to 1936 crimes increased from 4,853 to 36,059 or 643 p.c. The increase in the population during the same period was but 108.4 p.c., revealing that the increase in the crime rate was six times that of the population.

#### 4.—Convictions of Persons 16 Years of Age or Over for Indictable Offences, by Provinces, years ended Sept. 30, 1911-36.

NOTE.—For figures for 1900-10, see p. 1016 of the 1933 Year Book.

<sup>1</sup> Included with Manitoba since that part of the N.W.T. from which earlier returns were received was included in Manitoba by the Extension of Boundaries Act, 1913. Later figures are for the present area of the N.W.T.

In Table 5, which shows charges, convictions, and acquittals, by provinces, convictions for indictable offences show increases in 1936 compared to 1935 in every province with the exception of British Columbia.

#### 5.—Charges, Convictions, and Percentages of Acquittals for Indictable Offences, by Provinces, years ended Sept. 30, 1934-36.

NOTE.—The figures of this table do not include charges or convictions of juvenile delinquents.

Classes of Indictable Offences and Analysis of Convictions.—Each of the six classes into which indictable offences are divided showed an increase in the number of total convictions, the 1936 figure being 36,059 as compared with 33,531 in 1935, an increase of 2,528, or 7.54 p.c.

*Offences Against the Person.*—The increase in this class was 472 or 12 p.c. There were 7 more convictions for murder than in 1935. Of the 15 specific offences under this class, only 6 show a decrease in convictions, *viz.*, abortion and concealing birth, procuration, bigamy, shooting, stabbing and wounding, assault on females, and aggravated assault.

*Offences Against Property with Violence.*—An increase of 694 convictions, or nearly 17 p.c., is recorded in this class, although robbery and demanding with menaces showed a decrease.

*Offences Against Property without Violence.*—The percentage increase in this class was smaller than in the two preceding classes, amounting to slightly over 5 p.c. Improvement was shown in fewer convictions being recorded for bringing stolen goods into Canada, embezzlement, and fraud.

*Malignant Offences Against Property.*—Convictions in this class increased by 53, or 12 p.c. Those for arson increased from 55 to 82, or nearly half as many again as in 1935.

*Forgery and Other Offences against the Currency.*—An increase of 184 convictions, or over 20 p.c., was recorded in this class. While offences against the currency decreased, forging and uttering showed a marked increase.

*Various Offences.*—A slight increase of 264 convictions, or 3 p.c., was recorded in this class. Decreases were recorded in breaches of the Trade Marks Act, criminal negligence, perjury, prison breach, riot, and various offences. Noteworthy among the increases were the convictions for intimidation, which increased from 45 to 122.

Details by offences are given in Table 6 and the details of the disposition of the charges in Table 7, which shows, with other information, that convictions of females numbered 3,370 in 1936 as against 3,336 in 1935 and 3,145 in 1934; as recently as 1924 the figure was only 1,826. Details as to occupation, conjugal condition, educational status, age, use of liquors, birthplace, religion, and residence of those convicted of indictable offences are given in Table 8.

#### 6.—Indictable Offences, by Classes, years ended Sept. 30, 1934-36.

NOTE.—The figures of this table do not include charges or convictions of juvenile delinquents.

<sup>1</sup> Notwithstanding the fact that the United Church of Canada was completely organized in 1926, these persons still reported themselves as Methodists.

### Section 3.—Summary Convictions of Adults.

The following statistics relate to "non-indictable" offences committed by adults (persons 16 years of age or over) and disposed of by police magistrates or other justices of the peace, under authority of the Summary Convictions Act. Such convictions numbered 377,706 during the year ended Sept. 30, 1936, an increase of 15,064, or 4.2 p.c., as compared with 1935. With the exceptions of Quebec and the Northwest Territories, increases in the total convictions for non-indictable offences were shown everywhere.

#### 9.—Summary Convictions, by Provinces, years ended Sept. 30, 1911-36.

NOTE.—For figures for 1900-10, see p. 1020 of the 1933 Year Book.

| 1936.... | 956    | 5,593 | 4,601 | 111,254 | 204,744 | 17,476 | 5,760  | 8,810  | 18,349 | 58     | 25     | 377,706 |

<sup>1</sup> See footnote 1 to Table 4, p. 1023.

While the marked increase during the past eight or nine years has been due almost entirely to breaches of traffic regulations, which have risen from 78,027 in 1926 to 237,183 in 1936, this group shows a decrease of 8,940 or 3.63 p.c. in 1936 as compared with 1935. This is the first decrease shown in 15 years for breaches of traffic regulations. The bulk of the 1936 total increase over 1935 is accounted for by an extraordinary increase (14,781 convictions, or 57.09 p.c.) in convictions for gambling. Convictions for drunkenness, breaches of liquor Acts, municipal by-laws, and loose, idle, and disorderly conduct show substantial increases, with breaches of traffic regulations and offences against the railways showing the greatest decreases. By sex, the summary convictions were: in 1926, males 159,528, females 10,385; in 1930, males 292,557, females 16,202; in 1931, males 312,111, females 15,667; in 1932, males 281,318, females 16,591; in 1933, males 275,229, females 17,444; in 1934, males 311,542, females 17,202; in 1935, 339,494 males and 23,148 females; and in 1936, 355,772 males and 21,934 females.

**Convictions for Drunkenness.**—The number of summary convictions for drunkenness in Canada in 1936 was 28,433, as compared with 38,826 as recently as 1929. Maximum figures were attained in the years 1913 and 1914; during the War there was an appreciable reduction and since the War, while figures have fluctuated, they have not approximated former high levels. Table 11 shows the numbers of convictions by provinces and years from 1911 to 1936. On both a numerical and a percentage basis, increases in convictions for drunkenness were greater in Ontario during 1936 than in any other province.

## 11.—Convictions for Drunkenness, by Provinces, years ended Sept. 30, 1911-36.

NOTE.—For figures for 1900-10, see p. 1021 of the 1933 Year Book.

<sup>1</sup> See footnote 1 to Table 4, p. 1023.

**Offences against the Liquor Acts.**—Until the Great War, alcoholic liquors were generally sold under specified conditions by licensed hotels or licensed shops. Offences against the liquor Acts usually represented a breach of the conditions of sale. During the War, prohibition was generally established but in more recent years the tendency has been for the Provincial Governments to take over the sale of liquor through commissions and derive a revenue therefrom (see pp. 632-635). Eight of the nine provinces now have their liquor commissions, Prince Edward Island being the only province in which prohibition prevails. In these circumstances, the convictions for offences against the liquor Acts in 1929 reached the highest figure on record, *viz.*, 19,327, but have since fallen off to 10,073 in 1936. The numbers of such convictions in each year since 1911 are given by provinces in Table 12.

**12.—Convictions for Offences against the Liquor Acts, by Provinces, years ended Sept. 30, 1911-36.**

*Notes.*—For figures for 1900-10, see p. 1022 of the 1933 Year Book.

<sup>1</sup> See footnote 1 to Table 4, p. 1023.

**Breaches of Traffic Regulations.**—Convictions for breaches of traffic regulations (Table 13), which at the beginning of the century numbered only 185 in all Canada, have, as a result of the growing density and increasing use of motor vehicles, become the largest element in the non-indictable offences. Such convictions reached a record total of 237,183 in 1936, when they represented 63 p.c. of the total of 377,706 (see Table 9) summary convictions. Convictions for breaches of traffic regulations in 1936 showed increases in all provinces with the exceptions of Prince Edward Island and Quebec.

### 13.—Convictions for Breaches of Traffic Regulations, by Provinces, years ended Sept. 30, 1911-36.

NOTE.—For figures for 1900-10, see p. 1023 of the 1933 Year Book.

<sup>1</sup> No convictions were reported for the Northwest Territories.

For the year 1936, Ontario, which had 48 p.c. of the registrations of motor vehicles in Canada (see p. 672), had 69 p.c. of the total convictions; Quebec in the same year had 15 p.c. of the motor vehicles and 20 p.c. of the convictions; and Manitoba 6.1 p.c. of the motor vehicles and 5.5 p.c. of the convictions. In interpreting the figures in this way, however, it should be pointed out that traffic regulations are by no means uniform throughout Canada and no account is taken of the differences in the degrees of urbanization in the provinces. Thus, the above three provinces contain large centres of population, while in the Maritime Provinces, Saskatchewan, and Alberta, with a lower degree of urbanization, convictions were low in proportion to the number of motor vehicles registered.

### Section 4.—Juvenile Delinquency.

Juveniles under 16 years of age to the number of 7,210 were found guilty of various offences in the year ended Sept. 30, 1936, as compared with 7,679 in 1935, and 7,831 in 1926. Of the 1936 total, 4,970 were convicted of major offences and 2,240 of minor offences, terms which correspond very nearly to indictable and non-indictable offences as applied to adults. The offences proven against juveniles in 1935 and 1936 are shown, by province and sex, in Table 14.

<sup>1</sup> No convictions were reported for the Territories.

**Major Offences.**—In Table 15 are shown the various major offences for which juvenile delinquents were convicted from 1930 to 1936. It will be observed that theft, house- and shop-breaking with theft, and other wilful damage to property account for the great bulk of the offences; in 1936, 94 p.c. of the major offences were of this character.

**Minor Offences.**—Of the 2,240 juvenile delinquents found guilty of minor offences in 1936, 333 were convicted of breaches of municipal by-laws, 476 of disorderly conduct and disturbing the peace, 530 of disobedience or incorrigibility, 251 of trespass, 277 of truancy, 161 of vagrancy and indecent language and 212 of other minor offences.

### Section 5.—Municipal Police Statistics.

Police statistics were collected in 1936 from 161 cities and towns of 4,000 population or over in 1931, aggregating a total of 4,432,750 persons. The total number of police was 5,435, which is an average of one policeman to each 816 persons in the population of those cities and towns.

The returns showed a total of 402,643 crimes known to have been committed; 123,140 arrests were made and 216,617 summonses issued. The prosecutions numbered 340,617 with 287,610 convictions.

Automobiles reported stolen numbered 8,212 during 1936, of which 8,148 or 99.2 p.c. were recovered; 11,976 bicycles were stolen with 6,970 or 58.2 p.c. recovered. The value of other goods reported stolen was \$2,977,212 with \$1,260,558 or 42.3 p.c. recovered. There were 47,237 automobile accidents reported to the police, and 292 deaths and 13,854 injuries resulted from such accidents. Other accidents reported resulted in the death of 629 persons and injuries to 6,552.

#### 16.—Police Statistics of Canadian Cities and Towns, by Provinces, calendar years 1935 and 1936.

| Year and Province.       | Cities and Towns. | Population.      | Police.      | Arrests.       | Summonses.     | Population per Policeman. | Arrests per Policeman. |

The Royal Canadian Mounted Police are dealt with in Chapter XXVIII—Miscellaneous Administration—at pp. 1063-1064.

### Section 6.—Penitentiary Statistics.

The Penitentiaries Branch of the Department of Justice is charged with the administration of the various penitentiaries of Canada. Seven institutions are included in the system, the two largest of which are at Portsmouth, Ont., and St.-Vincent de Paul, Que., while the other five are at Dorchester, N.B.; Prince Albert, Sask.; Stony Mountain, Man.; New Westminster, B.C.; and Collins Bay, Ont. During the fiscal year ended Mar. 31, 1937, the average daily population of these

institutions was 3,103 and the total net cash outlay for the year was \$2,307,716 or \$2.04 per convict per diem, compared with 3,148 average daily population and \$2,307,739 total net cash outlay or \$2.01 per convict per diem for the year 1936.

The special penitentiary for Doukhobors on Piers island, which was administered under the warden of the penitentiary at New Westminster, was in operation from 1932 to Mar. 28, 1935, when the 39 remaining inmates were transferred to New Westminster. The statistics of this special penal colony are included with those of the regular penitentiaries in the following tables, and the reader is referred to p. 1035 of the 1936 Year Book for details of the Piers Island colony, given by sex, age, race, and conjugal condition.

Female convicts are kept in the penitentiary at Portsmouth, Ont., a suburb of Kingston, where special quarters and staff are maintained for their detention and supervision. Female convicts in custody there on Mar. 31, 1937, numbered 32 compared with 30 in 1936, and 40 in 1935.

**Movement of Population of Penal Institutions.**—Penal institutions may be classified under four heads: (1) penitentiaries, with slow turnover, since prisoners have long sentences; (2) reformatories for boys and (3) reformatories for girls, also with rather slow turnovers, but more rapid in the case of boys than in that of girls; and (4) common gaols, where the turnover is extremely rapid. If the average population for the year be taken as the average of the inmates at the beginning and at the end of the year, and the number discharged be the turnover, the turnover in 1936 was: in penitentiaries, 61 p.c.; in reformatories for boys, 221 p.c.; in reformatories for girls, 84 p.c.; in gaols, no less than 1,984 p.c. Thus, the average time spent in gaol was about 2.5 weeks. In dealing with these figures it must be borne in mind that the common gaol population changes from day to day, and is partly made up of accused persons awaiting trial who may be liberated to-day or sent to a penitentiary or reformatory to-morrow.

### 17.—Population of Penal Institutions, 1934-36.

NOTE.—Penitentiary statistics until 1919 were supplied directly by each penitentiary and were for the calendar year. For 1920 and subsequent years they have been supplied by the Superintendent of Penitentiaries and are for the fiscal years ended Mar. 31. For other institutions, the figures are for the years ended Sept. 30.

Tables 18-20 give the more important penitentiary statistics as reported by the Superintendent. The number of convicts in penitentiaries was 1,865 in 1910, rose to 2,118 in 1916 and declined to 1,468 in 1918. After demobilization and the depression of 1921, the number of convicts rose to 2,640 in 1922, declined to 2,225 in 1924 and then increased to 4,164 in 1932. The increase was particularly rapid after 1929, amounting to 1,395 or 44 p.c. in three years. The number of convicts in 1936, at 3,098, was lower than in any year since 1929, but, in 1937 there was an increase of 5.4 p.c. The number of paroles, as shown in Table 18, numbered 351 in 1937, as compared with 431 in 1936, 554 in 1935, and 731 in 1934.

Table 19 shows the ages of convicts by groups. In 1937, of the total of 3,264, 9.7 p.c. were under 21 years of age and 46.4 p.c. between 21 and 30 years of age; thus 56.1 p.c. were under 30. In 1914 there were 2,003 convicts of whom 9.3 p.c. were under 20 and 44.4 p.c. between 20 and 30, a total of 53.7 p.c. under 30. In 1923 there were 2,486 convicts and 11.3 p.c. were under 20, 46.6 p.c. between 20 and 30, or 57.9 p.c. under 30 years of age. The average age of convicts appears to be slightly younger since the War, but no definite trend is shown in the past decade, although there is a good deal of variation from year to year. Detailed statistics of the race, nationality by place of birth, conjugal state, sex, and religion of convicts are presented in Table 20.

#### 18.—Movement of Convicts, fiscal years ended Mar. 31, 1930-37.

<sup>1</sup> The unusually high figures for many items and the totals in 1933 and 1934 are due to the confinement of Doukhorobors in the special penitentiary on Piers Island, B.C. See p. 1034.<sup>2</sup> These persons returned themselves as Methodists in spite of the union with Presbyterians and Congregationalists to form the United Church of Canada in 1925.<sup>3</sup> All 'coloured'.

# CHAPTER XXVIII.—MISCELLANEOUS ADMINISTRATION.

## Section 1.—Public Lands.

Table 1, summarizes the land area of Canada by tenure. Items 3, 4, and 5 are obtained from Dominion Government sources and Items 1, 2, and 7 from Provincial Government sources. In the majority of cases the area of provincial lands (Item 6), as calculated by balancing the figures, agrees with the area as estimated by the provincial Departments concerned. Thus, any differences reported from year to year in the area of lands alienated or in process of alienation are compensated for by the adjustment of lands still remaining under the Crown in the right of the provinces concerned. The total land areas shown are the equivalents in thousands of acres of those given by provinces in square miles on p. 7 and pp. 60-61.

### 1.—Summary of Classification of Lands in Canada, by Tenure (circa) 1937.

NOTE.—The land area of Canada is shown classified by surface resources on p. 60.

| Tenure.  | P.E.I.       | N.S.          | N.B.          | Que.           | Ont.           |

<sup>1</sup> This item includes lands in process of alienation where such are not reported under Item 2. <sup>2</sup> Estimated by the Hydrographic and Map Service, Department of Mines and Resources.

<sup>3</sup> For the provinces indicated only. <sup>4</sup> In Yukon and N.W.T. areas aggregating 380,542,080 acres have been set apart by Order in Council as game preserves and sanctuaries in which only native Indians and Eskimos may hunt, but have not been permanently dedicated to this purpose by Parliament and are not, therefore, regarded as parks. <sup>5</sup> Including the Wood-Buffer Park (which, though reserved by the Dominion, is not administered as a National Park) and the Tar Sands Reserve. <sup>6</sup> That portion of the Wood-Buffer Park in the Northwest Territories.

**Subsection 1.—Dominion Public Lands.\***

As stated on p. 1019 of the 1931 Year Book, the lands and other natural resources lying within the boundaries of the provinces of Manitoba, Saskatchewan, Alberta, and British Columbia, which had formerly been administered by the Dominion Government, were transferred in 1930 to the administration of the provinces concerned.

The public lands remaining under the administration of the Dominion Government now comprise lands in the Northwest Territories, including the Arctic archipelago and the islands in Hudson strait and bay; lands in Yukon Territory; National Parks (see pp. 61-64) and historic sites; Indian reserves (see p. 1050); Ordnance and Admiralty lands; and, in general, all lands held by the several departments of the Dominion Government for various purposes connected with Dominion administration.

The great bulk of the land areas under Dominion administration are those of the Yukon and Northwest Territories, amounting to about 936,680,000 acres or 42 p.c. of the land surface of Canada. In general the southern border of both the Yukon and Northwest Territories is 60° N. latitude. In Europe, Oslo, Stockholm, and Leningrad are near this line, and about three-fourths of Norway, two-thirds of Sweden, all of Finland and a large proportion of Russia are north of it. This northern part of the national domain is under the administration of the Lands, Parks, and Forests Branch of the Department of Mines and Resources. The Royal Canadian Mounted Police maintain law and order throughout the Yukon and Northwest Territories. More detailed particulars of the administration of each territory follow:—

**The Northwest Territories.**—The government of the Northwest Territories is vested in a Commissioner, a Deputy Commissioner, and a Council of five members appointed by the Governor General in Council, with Ottawa as the seat of government. The Territories are subdivided for administrative purposes into the provisional districts of Mackenzie, Keewatin, and Franklin. The District of Mackenzie is the most widely known and developed, trading posts and settlements being located all along the great stretch of inland waterways known as the Mackenzie system.

The administrative headquarters for the Mackenzie District is located at Fort Smith on the Slave river, immediately north of the Alberta provincial boundary. From this point there is uninterrupted navigation to the Arctic ocean, a distance of 1,300 miles, and along the Arctic coast as far east as King William island. When navigation conditions are favourable it is possible to effect inter-communication between the Western and Eastern Arctic through Bellot strait which separates Boothia peninsula, the most northerly tip of the Canadian mainland, from Somerset island.

The Administration provides for a medical and nursing service, assists the Anglican and Roman Catholic missions in providing educational and hospital facilities, and cares for the general welfare of the population of the Territories. The population of the Territories at the time of the 1931 Census was 9,723.

Areas totalling approximately 584,000 square miles comprising many of the finest hunting grounds of the natives have been set aside as preserves wherein only resident Indians, Eskimos, and half-breeds may hunt and trap game. With a view

\* Prepared under the direction of R. A. Gibson, Director, Lands, Parks, and Forests Branch, Department of Mines and Resources, Ottawa.

to conserving the game in the districts not included in the game preserves, licences to hunt and trap game may, under the regulations, be issued only to:—

1. Residents of the Northwest Territories as defined by these regulations who at the present time hold hunting and trapping licences and who continue to reside in the Northwest Territories.

2. The children of those who have had their domicile in the Northwest Territories for the past four years, provided such children continue to reside in the Northwest Territories.

The Wood-Buffalo Park in the vicinity of Fort Smith, which covers an area of 17,300 square miles (a portion of which is in Alberta), has been reserved specially for the protection of buffalo. The Thelon Game Sanctuary to the east of Great Slave lake, which was set aside primarily to aid in the conservation of musk-oxen, provides sanctuary for all species of game. Under the Northwest Game Act, musk-oxen may not be killed anywhere in the Northwest Territories.

In order to augment the supply of wild life available as a source of food and clothing for the natives, the Dominion Government, in 1935, established a herd of Alaskan reindeer on a reserve of approximately 6,600 square miles, immediately east of the Mackenzie delta. The herd has increased in numbers and is contributing to the well-being of the native population, certain of whom are being trained in the handling of the deer.

In view of the great increase in the use of aircraft for mail and general transportation, the Administration is undertaking the development of landing facilities throughout the Mackenzie District. A winter landing field has been provided at Fort Smith and others are in course of completion at Resolution, Providence, Simpson, and Norman. Floating docks, etc., have been constructed at several points for the use of seaplanes.

An excellent air-mail service is provided by the Post Office Department, while the Department of National Defence operates a system of radio stations linking up the chief settlements and mining centres of the Northwest Territories and the Yukon Territory with Edmonton, Alberta. Radio stations are in operation at Fort Smith, Resolution, Simpson, Norman, Aklavik, Tuktoyaktuk (seasonal), Herschel Island (seasonal), Port Radium, Rae, Yellowknife, Dawson, Mayo, Whitehorse, and Burwash Landing. Direction-finding and meteorological stations are operated by the Department of Transport at Chesterfield, Nottingham Island, Resolution Island, and Coppermine.

Exploratory work has been carried on throughout the Territories and much aerial surveying has been done particularly in the mineralized areas of Mackenzie District. Mineral prospectors are exploring new areas, the aeroplane being used as the chief means of transportation. The Precambrian Shield, which has proved so rich in valuable minerals in southerly Canada, is continued into the Territories—that portion lying between Great Slave and Great Bear lakes and Hudson bay—and valuable discoveries have been made in this area. The rich native silver and high-grade pitchblende ores discovered, during the past few years, near Great Bear lake are now under development. The oil wells near Norman on Mackenzie river have been in active operation since 1932, the bulk of the oil produced being used by mining interests operating at the eastern end of Great Bear lake. In recent years much prospecting has been carried out in the Great Slave Lake area where

discoveries of gold have been reported. Active development is now in progress at many points. The agricultural land of the Territories lies almost entirely in the extension of the central plain along the Mackenzie valley.

It is known that there are many possible water-power sites throughout the Territories and certain of them may be developed as a consequence of mining enterprises. Much of the Mackenzie valley carries a forest cover, which furnishes timber and fuel for local needs. Fishing, agriculture, and lumbering are engaged in to some extent, but the principal industry of the Territories is still the taking and exportation of furs, with mining rapidly increasing in importance. Many trading posts operate throughout the regions tributary to the Arctic coast, Hudson bay, and the great inland systems of waterways.

**Yukon.**—Yukon was created a separate Territory in June, 1898. Provision is made for a local Government composed of a chief executive classified as Controller, also an Elective Legislative Council with jurisdiction over local matters and composed of three members with a three-year tenure of office. The Controller administers the Government under instructions from the Governor General in Council or the Minister of Mines and Resources. The seat of government is at Dawson. The Territory has hospitals, schools, and other amenities of modern life, including wireless and telegraphic facilities. The population in 1931 was 4,230.

The usual route followed by travellers to Yukon Territory is by steamer from ports on the Pacific coast to Skagway, Alaska, from that point to Whitehorse by the White Pass and Yukon railway, and thence by river boat to Dawson.

The use of aircraft for transportation purposes is increasing and landing fields have been conditioned at Dawson, Mayo, Whitehorse, and Carcross. A temporary licence has been issued for the field at Whitehorse which is becoming important through its being on the main route for international traffic. Some work has been done on emergency fields at Selkirk, Carmacks, and McQuesten.

Yukon has produced over \$200,000,000 worth of gold since the Klondike rush, but the old placer claims, operated with cradle, pick, and shovel, have given place to consolidated holdings worked with hydraulic dredges and other modern machinery. The development of the silver-lead ores of the Mayo district has been one of the major factors in the growth of lode-mining enterprises. Copper, tungsten, and coal are also found in the Yukon Territory. There is a hydro-electric installation of 13,200 h.p. in Yukon, which is used to supply electric energy for placer-mining operations and for the city of Dawson.

Although fishing, agriculture (including fur-farming), and some lumbering are carried on as auxiliary industries, the future of Yukon is inevitably bound up with mining development and the fur trade.

#### Subsection 2.—Provincial Public Lands.

In the Maritime Provinces, in Quebec, Ontario, and British Columbia (except the Railway Belt and the Peace River Block) the public lands have been administered by the Provincial Governments since Confederation. Owing to the transfer of the natural resources to the Prairie Provinces and British Columbia, as outlined

in Chapter XXVII, p. 1019 of the 1931 Year Book, public lands in all provinces are now under provincial administration. In Prince Edward Island, all the land is alienated and there are no provincial public lands.

Those interested in securing information regarding provincial public lands are referred to the following officials of the respective provinces: Minister of Lands and Forests, Halifax, N.S.; Deputy Minister of Lands and Mines, Fredericton, N.B.; Deputy Minister of Lands and Forests, Quebec, Que.; Deputy Minister of Lands and Forests, Toronto, Ont.; Director of Lands, Department of Mines and Natural Resources, Winnipeg, Man.; Director of Lands, Department of Natural Resources, Regina, Sask.; Director of Lands, Department of Lands and Mines, Edmonton, Alta.; Deputy Minister of Lands, Victoria, B.C.

## Section 2.—National Defence.

Before the outbreak of the Great War, the Canadian Militia consisted of a Permanent Force, which on Mar. 31, 1914, numbered 3,000 officers, non-commissioned officers, and men, and an Active Militia, which at the same date numbered 5,615 officers and 68,991 non-commissioned officers and men. After the outbreak of war on Aug. 4, 1914, successive contingents of troops of all arms were recruited, equipped, trained, and dispatched by the Dominion Government to England for active service. When hostilities ceased on Nov. 11, 1918, there had been sent overseas, for active service in the Canadian Expeditionary Force, about 418,000 officers, non-commissioned officers, and men.\* In addition to these, several thousand Canadians served with the Royal Air Force.

**Organization.**—Prior to 1922, three departments of the Canadian Government were concerned with the defence of Canada, *viz.*, the Department of Militia and Defence, the Department of the Naval Service, and the Air Board.

During the session of 1922, the National Defence Act was passed, consolidating the Department of Militia and Defence, the Department of the Naval Service, and the Air Board into the Department of National Defence. This Act became effective by proclamation on Jan. 1, 1923. Under it, there is a Minister of National Defence and a Deputy Minister of National Defence. To advise the Minister, a Defence Council has been constituted by Order in Council, consisting of a President (the Minister), a Vice-President (the Deputy Minister), and the following members: the Chief of the General Staff, the Chief of the Naval Staff, and the Senior Air Officer, Royal Canadian Air Force. The Adjutant-General, the Quartermaster-General, the Master-General of the Ordnance, and the Judge Advocate-General, are associate members. There is also a Secretary of the Council.

### Subsection 1.—The Naval Service.

The Naval Service of Canada was established by the Naval Service Act, 1910 (9-10 Edw. VII, c. 43), the main provisions of which were described in the 1910 Year Book, pp. xxvi-xxix.

\* For the detailed expenditures of the Dominion Government on account of war appropriations in the fiscal years 1915-21, see the Canada Year Book, 1921, p. 798.

The Royal Canadian Navy and its Reserve Forces are under the direction of the Chief of the Naval Staff, who is a member of the Defence Council. The Service consists of:—

1. Royal Canadian Navy (permanent).
2. Royal Canadian Naval Reserve (non-permanent).
3. Royal Canadian Naval Volunteer Reserve (non-permanent).

Administrative and operational staff for all three Forces is provided from the Royal Canadian Navy.

**The Royal Canadian Navy.**—The Royal Canadian Navy has an authorized complement of 137 officers and 1,582 ratings. A large majority of the men of the R.C.N. are serving under 7-year engagements. A small proportion consists of specialist gunnery, torpedo, and engine-room ratings, lent from the Royal Navy. (On Dec. 31, 1937, there were 3 Royal Navy officers and 8 Royal Navy ratings on loan to the Royal Canadian Navy.)

A proportion of the officers of the Royal Canadian Navy serve periodically in ships of the Royal Navy, to acquire experience in capital ships, cruisers, etc., and training courses are arranged for selected officers at the instructional schools of the Royal Navy to qualify in war staff, gunnery, torpedo, wireless, and other duties. Courses for selected men in the gunnery, torpedo, wireless telegraphy, and mechanical training schools of the Royal Navy are similarly arranged.

The ships of the Royal Canadian Navy are:—

- H.M.C.S. *Saguenay* (destroyer—in commission).
- H.M.C.S. *Skeena* (destroyer—in commission).
- H.M.C.S. *St. Laurent* (destroyer—in commission).
- H.M.C.S. *Fraser* (destroyer—in commission).
- H.M.C.S. *Armentières* (minesweeper—in commission).
- H.M.C.S. *Venture* (training schooner—in commission).

Four new minesweepers are under construction. These ships will be completed and commissioned under the names of H.M.C. Ships *Gaspé*, *Fundy*, *Nootka*, and *Comox*.

Naval training establishments comprising: naval barracks; gunnery drill sheds, with all modern appliances for teaching gun-laying, sight-setting, etc.; torpedo and electrical schools; parade grounds, and other equipment are maintained at Halifax and Esquimalt. Naval dockyards, with workshops, etc., for refitting and supplying necessary stores to H.M.C. ships, are also maintained at Halifax and Esquimalt.

**Royal Canadian Naval Reserve.**—The establishment of the Royal Canadian Naval Reserve is 70 officers and 430 men recruited from among sea-faring personnel. Officers have been appointed to act as registrars at Halifax, Charlottetown, Quebec, Montreal, and Vancouver.

Officers and men of the Royal Canadian Naval Reserve attend naval training at Halifax and Esquimalt for 42 days for the first year of enrolment and for 14 days annually or biennially thereafter. They are permitted to volunteer for service afloat up to a maximum of six months during each period of enrolment. The period of enrolment in the Royal Canadian Naval Reserve is five years.

**Royal Canadian Naval Volunteer Reserve.**—The establishment of the Royal Canadian Naval Volunteer Reserve is 87 List "A" officers, 20 List "B" officers, 19 instructors, and 1,096 ratings, distributed as follows: Halifax, Saint John, Charlottetown, Quebec, Montreal, Ottawa, Toronto, Hamilton, Port Arthur, Winnipeg, Saskatoon, Regina, Edmonton, Calgary, Vancouver, Prince Rupert. An additional Division is in process of establishment.

Each Division is under the immediate command of an officer of the R.C.N.V.R., appointed as commanding officer. The commanding officer is assisted by other commissioned officers of the Force.

A petty officer instructor (a highly qualified ex-petty officer of the Royal Navy or of the Royal Canadian Navy) is employed at each Division to give instruction to men of the Division in gunnery, torpedo practice, seamanship, and other naval subjects.

Each List "A" officer and man of the R.C.N.V.R. performs annually a minimum of 30 drills, of a duration of not less than one hour each, at Division headquarters. In actual practice 40 to 50 drills have been performed annually by each member of the R.C.N.V.R. Officers and men also attend from two to three weeks naval training annually at the naval bases at Halifax or Esquimalt, or at sea in H.M.C. or H.M. ships.

Officers and men who can obtain the necessary leave of absence are permitted to perform a maximum of four months voluntary service during each period of enrolment, and a large number have availed themselves of this opportunity of gaining extended naval experience under sea-going conditions. The period of enrolment and of re-enrolment in the R.C.N.V.R. is three years.

### Subsection 2.—Military Forces.

The Militia of Canada is constituted by the Militia Act. The Active Militia is divided into the Permanent and the Non-Permanent Militia.

**Permanent Active Militia.**—The Permanent Force consists of the following units:—

**CAVALRY.**—The Royal Canadian Dragoons; Lord Strathcona's Horse (Royal Canadians).  
**ARTILLERY.**—The Royal Canadian Horse Artillery Brigade ("A", "B" and "C" Batteries); Royal Canadian Artillery (Nos. 1, 2 and 5 Heavy Batteries, No. 3 Medium Battery and No. 4 Anti-Aircraft Battery).  
**ENGINEERS.**—Royal Canadian Engineers (13 detachments and 1 field company).  
**SIGNALS.**—The Royal Canadian Corps of Signals.  
**INFANTRY.**—The Royal Canadian Regiment; Princess Patricia's Canadian Light Infantry; The Royal 22<sup>d</sup> Regiment (a French-Canadian regiment).  
**ARMY SERVICE CORPS.**—The Royal Canadian Army Service Corps (12 detachments and 1 depot).  
**MEDICAL CORPS.**—The Royal Canadian Army Medical Corps (12 detachments).  
**VETERINARY CORPS.**—The Royal Canadian Army Veterinary Corps (5 detachments).  
**ORDNANCE CORPS.**—The Royal Canadian Ordnance Corps (12 detachments).  
**PAY CORPS.**—The Royal Canadian Army Pay Corps (13 detachments).  
**MILITARY CLERKS.**—The Corps of Military Staff Clerks (12 detachments).

The strength of the Permanent Active Militia is limited by the Amending Act of 1919 to 10,000, but at present the limited establishment is less than 4,300.

**Schools of Instruction.**—The Canadian Small Arms School is the only school which is an independent unit of the Permanent Force, but at all stations of the Permanent Force in Canada Royal Schools of Instruction are conducted.

**Non-Permanent Active Militia.**—The Non-Permanent Active Militia consists of:—

**CAVALRY.**—

- 20 Regiments of Cavalry,  
Cavalry (Armoured Car), and  
Cavalry (Mechanized).

**ARTILLERY.**—

- 108 Field Batteries.  
21 Medium Batteries.  
9 Heavy Batteries.  
4 Anti-Aircraft Batteries.  
1 Light Anti-Aircraft Battery.  
1 Survey Company.

**ENGINEERS.**—

- 1 Field Squadron.  
17 Field Companies.  
6 Field Park Companies.  
9 Army Troops Companies.  
1 Electrical and Mechanical Company.  
1 Workshop and Park Company.  
2 Anti-Aircraft Companies.  
2 Corps Field Survey Companies.  
2 Fortress Companies.

**SIGNALS.**—

- 7 Cavalry Signal Troops.  
2 Armoured Car Regiment Signal Troops.  
4 Divisional Signals.  
7 District Signals.  
2 Corps Signals.  
10 Cables, Wireless, etc., Sections.  
2 Fortress Signal Companies.

**CANADIAN OFFICERS' TRAINING CORPS.**—

- 22 Contingents.

**INFANTRY.**—

- 50 Battalions (rifle).  
26 Battalions (machine-gun).  
6 Battalions (tank).

**ARMY SERVICE CORPS.**—

- 1 Cavalry Divisional R.C.A.S.C.  
6 Divisional R.C.A.S.C.  
2 Corps Troops R.C.A.S.C.  
2 Corps Ammunition Parks.  
2 Pontoon Bridge Parks.  
1 Reserve Mechanical Transport Company.  
1 Advance Horse Transport Depot.  
2 Railhead Supply Detachments.  
1 Mechanical Transport Vehicle Reception Depot.  
2 Composite Companies.

**MEDICAL CORPS.**—

- 2 Cavalry Field Ambulances.  
22 Field Ambulances.  
1 Cavalry Field Hygiene Section.  
11 Field Hygiene Sections.  
6 Casualty Clearing Stations.

**DENTAL CORPS.**—

- General List.

**VETERINARY CORPS.**—

- 1 Veterinary Hospital.  
2 Cavalry Mobile Veterinary Sections.  
7 Mobile Veterinary Sections.  
1 Veterinary Evacuating Station.

**ORDNANCE CORPS.**—

- 6 Army Field Workshops.  
1 Ordnance Workshop Company.  
1 Ordnance Store Company.  
1 Anti-Aircraft Group Workshop.  
1 Ordnance Ammunition Company.  
1 Cavalry Divisional Ordnance Workshop.  
11 District Store Sections.

**POSTAL CORPS.**—

- 1 Base Post Office.  
11 Postal Units.

The total establishment of the Non-Permanent Militia is 7,006 officers and 79,551 other ranks, a total of 86,557, distributed as shown in the following table.

**2.—Permanent and Non-Permanent Active Militia in Canada, 1937.**

| Arm of Service.                                     | Permanent Active Militia. |            | Non-Permanent Active Militia. |              |
|---|---------------------------|------------|-------------------------------|--------------|

| Non-Combatants.....                                 | 974                       | Nil        | 6,074                         | 50           |
| <b>Totals.....</b>                                  | <b>4,234</b>              | <b>379</b> | <b>86,557</b>                 | <b>6,036</b> |

**Reserve Militia.**—In addition to the Active Militia, there is also the Reserve Militia—a framework designed to serve as a basis for contingent military organization. Drill and training are voluntary and entail no expense to the public.

The reserves of the Active Militia, as distinguished from the Reserve Militia mentioned above, comprise:—

- (a) The Reserve of Officers (general list).
- (b) Reserve Regimental Depots.
- (c) Corps Reserves and Corps Reserve Lists of the Non-Permanent Active Militia consisting of qualified officers who are permitted to withdraw from the training establishment of Corps of the Non-Permanent Active Militia.
- (d) Certain Reserve units of the R.C.A.M.C. (N.P.)—"General Hospitals" and "Motor Ambulance Convoys".

**Military Districts.**—For the command, training, and administration of the Canadian Militia, Canada is divided into 11 military districts, each under a District Officer Commanding, assisted by a district staff.

**Militia Appropriations.**—The Militia appropriations for the six fiscal years ended Mar. 31, 1934-39, are shown in Table 3.

### 3.—Money Voted by Parliament for the Militia, fiscal years ended Mar. 31, 1934-39.

### Subsection 3.—Air Force.

The Royal Canadian Air Force is comprised of the Permanent Active Air Force, the Non-Permanent Active Air Force, and a Reserve of Officers. The Royal Canadian Air Force administers and controls all military air operations and certain air operations for civil government departments. The duties of the Royal Canadian Air Force are as follows:—

- (a) To organize, train, and maintain an air force for the defence of Canada.
- (b) The conduct of limited flying operations (chiefly photography) for civil government departments.

Permanent Active Air Force Stations and units are located as follows:—

| Location.  | Duty.   |
|--|---|
| R.C.A.F. Headquarters, Ottawa, Ont.                      |   |
| No. 1 Aircraft Depot, R.C.A.F., Ottawa, Ont.             | Stores and repair.  |
| No. 2 Equipment Depot, R.C.A.F., Winnipeg, Man.          | Stores.   |
| R.C.A.F. Station Headquarters, Ottawa, Ont.              | } Test and experimental work and civil government air operations. |
| R.C.A.F. Photographic Establishment                      |   |
| No. 2 (Army Co-operation) Squadron                       |   |
| No. 3 (Bomber) Squadron                                  |   |
| No. 7 (General Purpose) Squadron                         |   |
| No. 8 (General Purpose) Squadron                         |   |
| R.C.A.F. Training Group:                                 |   |
| R.C.A.F. Station Headquarters, Camp Borden, Ont.         | }   |
| No. 2 Technical Training School                          |   |

| No. 5 (General Reconnaissance) Squadron, Dartmouth, N.S. |   |
| Western Air Command Headquarters, Vancouver, B.C.        | }   |
| R.C.A.F. Station Headquarters, Vancouver, B.C.           |   |
| No. 4 (General Reconnaissance) Squadron                  |   |
| No. 3 Repair Depot, R.C.A.F.                             |   |
| No. 111 P. F. Detachment, Vancouver, B.C.                |   |
| No. 118 P. F. Detachment, Calgary, Alta.                 | Service duties according to type of unit.                         |
| No. 11 (Technical) Detachment, Montreal, Que.            |   |
| No. 12 (Technical) Detachment, Hamilton, Ont.            |   |
| No. 110 P. F. Detachment, Toronto, Ont.                  |   |
| No. 112 P. F. Detachment, Winnipeg, Man.                 |   |
| No. 115 P. F. Detachment, Montreal, Que.                 |   |
| No. 118 P. F. Detachment, Montreal, Que.                 |   |
| No. 119 P. F. Detachment, Hamilton, Ont.                 |   |
| No. 120 P. F. Detachment, Regina, Sask.                  |   |
| No. 121 P. F. Detachment, Quebec, Que.                   |   |

Non-Permanent Active Air Force units are located as follows:—

- No. 110 (City of Toronto) (Army Co-operation) Squadron, Toronto, Ont.
- No. 111 (Coast Artillery Co-operation) Squadron, Vancouver, B. C. (Under Western Air Command Headquarters).
- No. 112 (Army Co-operation) Squadron, Winnipeg, Man.
- No. 113 (Fighter) Squadron, Calgary, Alta. (now in process of organization—Under Western Air Command Headquarters).
- No. 115 (Fighter) Squadron, Montreal, Que.
- No. 118 (Bomber) Squadron, Montreal, Que.
- No. 119 (Bomber) Squadron, Hamilton, Ont.
- No. 120 (Bomber) Squadron, Regina, Sask.
- No. 121 (Fighter) Squadron, Quebec, Que. (now in process of organization).

The strength of the Royal Canadian Air Force on Mar. 31, 1938, was:—

|                                | Officers. | Airmen. |
|--------------------------------|-----------|---------|
| Permanent Active Air Force     | 183       | 1,523   |
| Non-Permanent Active Air Force | 80        | 729     |
| Reserve of Officers            | 151       | -       |

#### Subsection 4.—The Royal Military College.

The Royal Military College of Canada was founded in 1876 by the Honourable Alexander Mackenzie, then Prime Minister of Canada. Since its foundation, 2,616 gentlemen cadets have been enrolled, and of this number 200 are now in attendance.

The maximum number of cadets who may be in residence at any one time is restricted by Order in Council to 200.

The Royal Military College has a very distinguished record in connection with the War. Of the 914 graduates and ex-cadets who served, 353 were granted commissions direct from the College, and 43 enlisted with a view to obtaining commissions; 156 ex-cadets were reported as killed in action, died of wounds, or missing. Ex-cadets of the College won the following honours and decorations: 1 Victoria Cross, 106 Distinguished Service Orders, 109 Military Crosses, 2 Distinguished Flying Crosses, 62 other British decorations, 42 foreign decorations. Three Canadian and one Australian Divisions were commanded by graduates of the College.

The establishment of the College, as stated in the Act of 1874 (37 Vict., c. 36) was "for the purpose of imparting a complete education in all branches of military tactics, fortifications, engineering, and general scientific knowledge in the subjects connected with and necessary to a thorough knowledge of the military profession, and for qualifying officers for command and staff appointments". In addition to the foregoing, the course of instruction is such as to afford a thorough practical and scientific training in civil engineering, surveying, physics, chemistry, English, and French. The strict discipline maintained at the College is a valuable feature, and the constant practice of gymnastics, riding, drills, and outdoor exercises of all kinds promotes the health and good physical condition of the cadets.

The College is situated one mile from Kingston on the St. Lawrence river where it emerges from lake Ontario. The buildings of the College proper occupy a beautiful peninsula of 60 acres, lying between the mouth of the Cataraqui river and Navy bay. Additional adjacent grounds, on which stands the historic Fort Henry, make up a total of about 500 acres which are at the disposal of the College for use as a training area. On the point of the peninsula is situated Fort Frederick, built in 1837 just before Kingston became the capital of the "Province of Canada", the fort forming part of the defences of Kingston at that time. The College is under the supervision of the Department of National Defence, and is inspected annually by an advisory board composed of leading Canadian citizens, both civil and military, which makes its reports and recommendations to the Minister of National Defence. The College is commanded by a commandant, who is assisted by a staff adjutant and a competent staff of civil and military professors and instructors.

A four-year course leads to a 'diploma with honours', a 'diploma' or a 'certificate of military qualification'. A number of commissions in the Canadian Permanent Force and the Royal Canadian Air Force, as well as commissions in the British Regular Forces, the Indian Army, and the Royal Air Force, are offered annually to graduates; and for cadets who desire to obtain commissions in the Royal Canadian Navy a limited number of naval cadetships are available each year to cadets who successfully complete the first two years of study, and who are not over 20 years of age on the first of September of the year in which they desire to enter the Navy. To those graduates joining the British Army, the privilege of one and one-half years seniority is granted. This has been arranged in order to equalize

the seniority of graduates of the Royal Military College of Canada with those of the Royal Military Academy, Woolwich, or the Royal Military College, Sandhurst, since the courses at the latter institutions are shorter than the Canadian.

The principal Canadian universities admit recommended graduates to the fourth year of their civil engineering courses and to the third year of other engineering courses; and some of the universities admit graduates to the third years of arts and science courses. Cadets in their graduating year may now take special courses in mechanical, electrical, and mining engineering which, subject to recommendation, may permit them to enter fourth year in these subjects at Universities.

The R.M.C. diploma is accepted by the Law Societies and Bar Associations of Nova Scotia, Ontario, Manitoba, Saskatchewan, Alberta, and British Columbia as the equivalent of a B.A. degree for admission to the study of law. The Dominion Association of Chartered Accountants likewise accepts R.M.C. graduates as registered students under the same conditions as university graduates.

Entrance to the College is on a competitive basis. Candidates are required to pass a rigid medical examination, and to have obtained junior matriculation or an acceptable equivalent. Applications for admission to the College should reach The Secretary, Department of National Defence, Ottawa, before May 31 of each year

### Section 3.—Department of Public Works.\*

Since Confederation and before, the constructing department of the Dominion Government has been known as the Department of Public Works. In 1879 the railways and canals were placed under the control of a new department, the building and maintenance of penitentiaries were transferred to the Department of Justice, the maintenance and construction of lighthouses to the Marine and Fisheries Department, and the smaller drill halls and armouries to the Department of National Defence. The work of the Department of Public Works is now divided into three principal branches, *viz.*, the Engineering Branch, the Architect's Branch, and the Telegraph Branch.

**Engineering.**—The Engineering Branch conducts the construction and repair of wharves, piers, breakwaters, dams, weirs, bank and beach protection works; the improvement of harbours and rivers by dredging; the construction, operation, and maintenance of dredging plant and the construction, operation, and maintenance of graving or dry docks. The construction and maintenance of interprovincial bridges and approaches thereto, also the construction, operation, and maintenance of bridges with movable spans on certain highways; hydrographical and topographical surveys which are required for the preparation of plans, reports, and estimates; test borings for the purpose of ascertaining the nature of foundations; the testing of cements and materials of construction; the licensing of international and interprovincial ferries, and the control of works constructed in or over navigable waters by authority of the Navigable Waters Protection Act (R.S.C., 1927, c. 140).

**Architecture.**—The Architect's Branch constructs and maintains Government buildings, post offices, customs houses, examining warehouses, quarantine stations, immigration and experimental farm buildings, military hospitals, and telegraph offices. It also constructs armouries and drill halls and leases office accommodation as required for the various Departments.

\* Revised by J. M. Somerville, Secretary, Department of Public Works.

**Telegraphs.**—The Telegraph Branch has control of the construction, operation, and maintenance of all Government-owned telegraph lines and cables. These lines are located in the provinces of Nova Scotia, New Brunswick, Quebec, Ontario, Saskatchewan, Alberta, British Columbia, and Yukon (see also p. 722).

**Graving Docks.**—The Department constructed five dry docks and is responsible for subsidies under the Dry Dock Subsidies Act, 1910 (9-10 Edw. VII, c. 17). A description of these docks is given in the Transportation Chapter, pp. 687-688.

**Expenditure and Revenue.**—Table 4 shows the expenditures and revenues of the Public Works Department of the Dominion Government, for the fiscal years 1932-37.

**4.—Expenditures and Revenues of the Public Works Department, fiscal years ended Mar. 31, 1932-37.**

## Section 4.—The Indians and Eskimos of Canada.

### Subsection 1.—The Indians of Canada.\*

The Indians of Canada whose affairs are administered by the Department of Mines and Resources, Indian Affairs Branch, number about 112,510 (according to a departmental census taken in 1934), their numbers varying slightly from year to year. A small yearly increase is evident, and the popular notion that the race is disappearing is not in accordance with facts. Before they were subjected to the degenerating effects of European civilization and the devastating results of the many colonial

\* Revised by T. R. L. MacInnes, Secretary, Indian Affairs Branch, Department of Mines and Resources.

wars, the numbers of the Indians were undoubtedly larger, but any reliable information as to the aboriginal population during either the French or the early British régime is non-existent, and there is no adequate basis for a comparison between the past and present aboriginal populations. An interesting sketch of the progress of the Indians of Canada since Confederation will be found in the Report of the Department of Indian Affairs, 1927.

**Administration.\***—Reserves have been set aside for the various bands of Indians throughout the Dominion, and the Indians located thereon are under the supervision of the local agents of the Department. The activities of the Department as guardian of the Indians, include the control of Indian education and health, the development of agriculture and other pursuits among them, the administration of their lands, community funds, estates, and the general supervision of their welfare.

The local administration of the Indian bands on the reserves scattered throughout the Dominion is conducted through the Department's agencies, of which there are in all 116. The number of bands included in an agency varies from one to more than 30. The staff of an agency usually includes various officers in addition to the agent, such as medical officer, clerk, farm instructor, field matron, constable, stockman, etc., according to the special requirements of the agency in question. The work of the agencies is supervised by the Department's inspectors, each inspector having charge of a certain number of agencies. Expenditures upon destitute Indians are made by the Dominion Government, either from public funds or from tribal funds of the Indians themselves.

The Indian Act provides for the enfranchisement of Indians. When an Indian is enfranchised he ceases to be an Indian under the law and acquires the full status of citizenship. In the older provinces, where the Indians have been longer in contact with civilization, many are becoming enfranchised. Great discretion, however, is exercised by the Government in dealing with this problem, as Indians who become enfranchised lose the special protection attached to their wardship, so that it is necessary to guard against premature enfranchisement.

**Treaties.**—In the older eastern provinces, the history of the Indians has been one of slow development with that of the community. In western Ontario, the Prairie Provinces, and the Territories the situation has been different. There, the rapid spread of civilization made it necessary to take prompt and effective measures to protect the moral claims of the Indians, which are recognized by the Government. Accordingly, treaties were entered into with the Indians, whereby the latter ceded to the Crown their aboriginal title and interest in the country. In consideration of such cession the Crown agreed to set aside adequate reserves, make cash grants, provide per capita annuities, give assistance in agriculture, stock-raising, hunting, trapping, etc., as particular circumstances might require, provide education for the Indian children, and otherwise safeguard the Indians' interests. These treaties have been made from time to time as occasion arose and as new territories were opened up. No treaty has been made with the Indians of British Columbia, except in the Peace River Block, but their welfare has received no less attention from the Government on that account.

**Government Expenditure.**—On Mar. 31, 1937, the capital of the Indian Trust Fund, which a year earlier had amounted to \$13,877,863, had increased to \$13,997,644. The amounts expended from the Consolidated Revenue Fund were

\* For an outline of the early administration, see p. 937 of the 1932 Year Book.

as follows: voted by Parliament for the purposes of the Department, \$4,642,296; annuities by statute, \$245,063; and special supplementary, \$167,126.

**Statistics.**—Statistical tables of population, school attendance, income, and agricultural activities of the Indians in Canada follow. In Table 5 the populations for 1871-1931 are compiled from reports of the various censuses since Confederation, while the statistics and other information in the remaining tables are taken from the last Annual Report of the late Department of Indian Affairs. The Department takes a quinquennial census of Indians under its control, whereas census figures include all persons of Indian origin. The quinquennial census taken by the Department in 1934 showed a total of 112,510 as compared with 108,012 in 1929 and 104,894 in 1924, an increase of 7.3 p.c. in ten years. The details of the Census of 1934 are given in the Annual Report of the Department for that year. The figures of the decennial census include some thousands of persons of Indian race who are living off the reserves as ordinary citizens of Canada.

<sup>1</sup> Census figures in the organized provinces and estimates for the rest of Canada. <sup>2</sup> Racial origin not taken in 1891; the figures have been taken from the report of the Department of Indian Affairs of that year.

<sup>3</sup> The smaller Indian population of the Northwest Territories in 1921 is to be ascribed to the extension of the boundaries of Quebec, Ontario, and Manitoba in 1912. This also accounts for the increase in the 1921 Indian population of these provinces.

<sup>4</sup> Includes 34,481 'half-breeds'.

**Indian Education.**—The educational work of the Department is now very extensive. In the fiscal year ended Mar. 31, 1937, a total of 365 Indian schools were in operation, including 80 residential schools for Indians with an enrolment of 9,040, and 275 day schools for Indians with an enrolment of 9,027 Indian pupils, also 10 combined public and Indian schools, with 230 Indian pupils enrolled. The total enrolment in the Indian schools has increased from 12,799 in 1915-16 to 18,297 in 1936-37 and the average attendance from 8,080 to 13,966 or from 63.1 p.c. to 76.3 p.c. of the enrolment. Continuation and high school work is now being taught in several of the day and residential schools. The amount spent on Indian education in the fiscal year ended Mar. 31, 1937, was \$1,820,977.

**6.—Enrolment and Average Attendance of Pupils at Indian Schools, fiscal years ended Mar. 31, 1916-37.**

<sup>1</sup> Includes income received from timber and mining dues and from annuities earned as interest on Indian trust funds, but does not include money received from land rentals for which figures are not available by provinces. <sup>2</sup> No income was reported for Indians of Prince Edward Island in 1936. <sup>3</sup> See footnote 2.

## Subsection 2.—The Eskimos of Canada.\*

The Eskimos of Canada are found principally on the northern and Hudson Bay coasts of the mainland and on islands in the Arctic archipelago and in Hudson bay, although in the Baker Lake-Chesterfield Inlet area on the west side of Hudson bay there are bands of Eskimos who are essentially an inland people, and who subsist chiefly on caribou. The diet of the coast Eskimos is largely marine mammals and fish, varied at times by caribou obtained from the interior during the seasonal migrations of these animals. The skins of the caribou are used for winter clothing.

The wandering life of the Eskimos and the vast area over which they are scattered present great difficulties in ascertaining their exact numbers. The total for the entire Dominion, according to the latest returns, is about 6,000, located mainly in the Northwest Territories, with approximately 1,590 in Quebec, 85 in Yukon Territory, 62 in Manitoba, and 3 in Alberta.

The administrative care of Eskimos outside of the organized provinces devolves upon the Department of Mines and Resources which, by regulative measures (including the setting aside of game preserves where only natives may hunt and the establishment of a reindeer herd), conserves the natural resources necessary to their subsistence. Contact with the Eskimos is maintained through permanent stations in the Eastern, Central, and Western Arctic, (at a number of which medical officers are located), by patrols of the Royal Canadian Mounted Police, and by means of the annual Canadian Eastern Arctic Patrol by steamship.

\* Prepared under the direction of R. A. Gibson, Director, Lands, Parks, and Forests Branch, Department of Mines and Resources, Ottawa.

## Section 5.—Pensions and other Provision for War Veterans.\*

**Pensions Section.**—This Section is responsible for the administration of returned soldiers' affairs under the Department of Pensions and National Health Act, the War Veterans' Allowance Act, and the Veterans' Assistance Commission Act. It is also responsible, by direction of the Canadian Pension Commission, for certain administrative duties under the Pension Act and the Returned Soldiers' Insurance Act. The Representative of the Treasury is responsible for all payments under these Acts.

The Annual Report for the fiscal year ended Mar. 31, 1937, shows a decrease from the previous year in the number of ex-members of the Forces who received in-patient hospital treatment, the number being 11,742 as against 12,835 in 1935-36, 12,560 in 1934-35, 11,718 in 1933-34, and 13,342 in 1932-33. The Department maintains eight hospitals, situated in the following centres: Halifax, Saint John, Ste. Anne de Bellevue, Toronto, London, Winnipeg, Calgary, and Vancouver. A sheltered employment workshop is operated at Montreal and one shop by the Red Cross Society at Victoria.

One of the features of the activities of the Department is provision in a departmental institution for pensioners who through age or infirmity are unable to care for themselves. The number of such cases showed an increase during the year, the total on Mar. 31, 1937, being 299 as against 286 a year previously, 235 on Mar. 31, 1935, 250 on Mar. 31, 1934, 213 on Mar. 31, 1933, and 198 on Mar. 31, 1932. The issue of orthopaedic and surgical appliances has been maintained with a slight decrease. The number of pensioners who have been granted relief was 12,322 in 1936-37 as compared with 12,083 in 1935-36, 11,541 in 1934-35, 12,735 in 1933-34, 14,368 in 1932-33, 12,303 in 1931-32, and 8,811 in 1930-31. The expenditure on relief in 1936-37 was \$2,435,285; in 1935-36, \$2,365,579; in 1934-35, \$2,042,355; in 1933-34, \$1,912,563; in 1932-33, \$1,978,284; 1931-32, \$2,082,052; and 1930-31, \$907,010.

The provision under which the Department assumes responsibility in respect of accidents sustained by pensioners of 25 p.c. and upwards when engaged in industry has been continued. During the fiscal year under review, the number of claims was 260; in 1935-36, 279; in 1934-35, 222; in 1933-34, 180; in 1932-33, 179; and in 1931-32, 200. The expenditure was as follows; 1936-37, \$18,590; 1935-36, \$27,138; 1934-35, \$23,103; 1933-34, \$36,420; 1932-33, \$17,641; 1931-32, \$49,878. The expenditure is largely governed by the number of fatal and serious accidents.

The following is a summary statement of the manner in which the funds appropriated by Parliament have been dealt with, and also sets forth the costs of administration and the adjudication of pensions.

### NET PAYMENTS BY DEPARTMENT OF PENSIONS AND NATIONAL HEALTH FOR THE FISCAL YEAR ENDED MAR. 31, 1937.

| Returned soldiers' insurance.....  | 852,549              |
| Pensions under administration.....   | 652,885              |
| Capital expenditures.....  | 27,934               |
| Recoverable expenditures.....  | 68,554               |
| Veterans' Assistance Commission.....   | 99,572               |
|  | <u>\$ 3,416,575</u>  |
| Total Expenditure apart from Cost of Administration.....   | \$ 54,468,183        |
| <i>Cost of Administration—</i>   |                      |
| <i>Departmental—</i>   |                      |
| Salaries.....  | \$ 910,206           |
| General.....   | 150,166              |
|  | <u>\$ 1,060,372</u>  |
| Canadian Pension Commission.....   | 517,012              |
| Veterans' Bureau.....  | 190,481              |
| Pension Appeal Court.....  | 66,233               |
| Comptroller of the Treasury.....   | 413,418              |
|  | <u>\$ 2,248,421</u>  |
| Total Expenditure.....   | <u>\$ 56,710,604</u> |

To arrive at the actual cost of administration, not only expenditure, but income and turnover of trust funds must be included. In addition, therefore, to the foregoing, the administration cost should be spread over the following:—

|  |                     |
|--|---------------------|
| Revenue and refunds.....   | \$ 877,836          |
| Casual revenue.....  | 144,374             |
| Deposits to War Service Gratuity Fund.....                                 | 451                 |
| Returned Soldiers' Insurance premiums and interest.....                    | 1,941,204           |
| Funds deposited to trust accounts, pensions under administration, etc..... | 961,538             |
|  | <u>\$ 3,925,403</u> |

**The Canadian Pension Commission.**—By c. 45 of the Statutes of 1933, the Board of Pension Commissioners for Canada and the Pension Tribunal ceased to exist; their duties were taken over by the Canadian Pension Commission, which was formed by the Act referred to, and the personnel of the Commission was increased from three to not less than eight nor more than twelve. Twelve members have been appointed.

The Commission is responsible for the adjudication and awarding of pensions in respect of disabilities connected with military service and the awarding of pensions to the dependants of those who die. It operates under the authority of the Pension Act. The following table shows the number of pensions in force at the end of the fiscal years 1918 to 1937, together with the annual liability. The large increase in disability pensioners from 1930 to 1933, inclusive, was primarily due to the reinstatement on pension of those who had commuted their pensions from 1920 onwards. This restoration was under the authority of an amendment to the Pension Act in 1930.

## 11.—Pensions in Force as at Mar. 31, 1918-37.

**Veterans' Bureau.**—Pursuant to legislation passed in 1930, a Veterans' Bureau was organized as a branch of the Department and came into active operation on Oct. 1, 1930. The duties of the Bureau are set forth on p. 945 of the Canada Year Book, 1932. Briefly stated, the Bureau was created and is operated to assist applicants for pension in the preparation and presentation of their cases. There is a Chief Pensions Advocate with his staff at Ottawa, and Pensions Advocates have their offices in all the principal cities of Canada.

**War Veterans' Allowances.**—A synopsis of the War Veterans' Allowance Act, which came into force on Sept. 1, 1930, appears on p. 946 of the Canada Year Book, 1932. The following statistics show the activities of the War Veterans' Allowance Board for the fiscal years ended Mar. 31, 1936 and 1937.

**NUMBERS OF RECIPIENTS AND ANNUAL LIABILITY.**

**Returned Soldiers' Insurance.\***—The Returned Soldiers' Insurance Act is under the jurisdiction of the Canadian Pension Commission as agent for the Minister of Finance. Collections are made through the Department and payments by the Representative of the Treasury. After several extensions, the date to which applications could be received expired on Aug. 31, 1933. The following statement shows the operations under this Act during the fiscal years ended Mar. 31, 1935-38.

## Section 6.—Soldier Settlement of Canada.†

At the end of the calendar year 1937 the Soldier Settlement of Canada had 19,871 farm properties under administration, representing a net investment of \$49,690,377. Under the Soldier Settlement Act of 1919, 25,014 soldier settlers were established on the land with loans. On Dec. 31, 1937, there were 9,683 soldier settlers, 5,811 civilian settlers, and 1,778 settlers under the British Family Scheme. There were 2,599 farms on hand of which 1,882 were leased; 3,559 settlers had repaid their loans in full in cash; 1,977 properties had been transferred to municipalities and provinces under Sec. 21A of the Soldier Settlement Act.

Under the 3,000 British Family Scheme 3,346 families came forward for settlement. Of these 1,740 had withdrawn as at Dec. 31, 1937, 21 had repaid their loans, leaving 1,585 families still operating their farms. Under the New Brunswick Family Settlement Agreement, 359 families came forward; of these 166 had withdrawn, and 193 remained on the land.

\* Revised by D. S. Drew, Chief, Insurance Division, Department of Pensions and National Health.

† Revised by F. C. Blair, Director, Soldier Settlement of Canada.

The following numbers of settlers had applied for the benefits of the Farmers' Creditors Arrangement Act; 950 soldier settlers, 562 civilian settlers, 527 British Family settlers. Of this number 534 cases of soldier settlers had been disposed of, involving indebtedness of \$1,911,508 and a reduction of \$562,765; civilians, 370 cases disposed of, debt \$1,309,763, reduction \$391,620; British Family settlers, 285 cases disposed of, indebtedness \$1,195,159, reduction \$443,214.

The supervision staff of the Department have made land appraisals and reported on the application of settlers (other than those under the Soldier Settlement of Canada) under the Farmers' Creditors Arrangement Act. To Dec. 31, 1937, 7,573 land appraisals and reports had been made in British Columbia, Alberta, Saskatchewan, Manitoba, Ontario, and the Maritime Provinces.

Other investigational services in the calendar year 1937 were: 844 investigations for the Department of Mines and Resources; 4,014 investigations in rural districts with respect to applications under the War Veterans' Allowance Act of 1930; 3,057 investigations for the Department of Pensions and National Health and the Canadian Pension Commission with respect to applications for relief allowances and special investigations of pension cases in rural districts.

### Section 7.—Department of the Secretary of State.\*

The Department of the Secretary of State was constituted in its present form in 1873, through the merging of the previously-existing offices of the Secretaries of State for Canada and for the provinces. The Secretary of State is the official mouthpiece of the Government as well as the medium of communication between the Dominion and Provincial Governments, all correspondence between the Governments being conducted by him with the Lieutenant-Governors. He is also the custodian of the Great Seal of Canada and the Privy Seal as well as the channel by which the general public may approach the Crown.

The Secretary of State is also the Registrar General, registering all proclamations, commissions, licences, warrants, writs, and other instruments issued under the Great Seal and the Privy Seal. He is further charged with the administration of the Boards of Trade Act, the Companies Act, the Canada Temperance Act, the Copyright Act, the Naturalization Act, the Patent Act, the Trade Unions Act, the Ticket of Leave Act, the Unfair Competition Act, and with the collection and tabling of parliamentary returns. Statistics regarding patents and copyrights appear under Chapter XVII at pp. 611-613. The following information on other subjects has been secured in the course of administration.

**Charters of Incorporation.**—The number of companies incorporated under the Companies Act and amending Acts during the fiscal year ended Mar. 31, 1937, was 410 with a total capitalization of \$130,767,280. Supplementary letters patent were granted during the year to 341 companies, 72 of which increased their capital stock by the aggregate amount of \$143,597,766; 105 decreased their capital stock by \$123,837,999; the remaining 84 were granted supplementary letters patent for various purposes, such as changing names, extending powers, etc. The total capitalization of new companies plus the increase of capital of existing companies amounted to \$274,365,046, partly offset by the above-mentioned decreases in capitalization totalling \$123,837,999.

\* Revised by E. H. Coleman, K.C., LL.D., Under-Secretary of State, Department of the Secretary of State.

In Table 12 will be found the number and capitalization of companies incorporated during the years 1900-37.

<sup>1</sup> Includes consideration of the amounts of capital received on the issue of shares without nominal or par value.

<sup>2</sup> Not reported prior to 1910.

**Naturalizations.**—The naturalizations effected under the Naturalization Act (R.S.C., 1906, c. 77) for the calendar years 1908-17, inclusive, were given on p. 594 of the Year Book for 1919. Since Jan. 1, 1918, the only method of obtaining naturalization has been under what is known as the 'Imperial' Naturalization Act, which came into force on Jan. 1, 1915. This Act was known under the title of the Naturalization Act, 1914, until July 7, 1919, when it was repealed and the Naturalization Act, 1919, came into force. On July 1, 1920, the Naturalization Act, 1919, was repealed, and the Naturalization Act, 1914, was revived and amended under the title of the Naturalization Acts, 1914 and 1920. By an amendment passed by Parliament in 1923, the restriction by which persons of alien enemy birth were

ineligible to receive certificates of naturalization for a period of 10 years after the termination of the War was removed, and at the present time any alien may apply for naturalization, regardless of his nationality. All these Acts have been consolidated in R.S.C., 1927, c. 138. Since Jan. 15, 1932, women British subjects, marrying aliens, retain their British nationality, unless they, by marriage, acquire their husbands' nationalities, and the wives of aliens no longer become British subjects through their husbands' naturalization. They must apply to the Secretary of State.

Table 13 shows the number of naturalization certificates issued to single persons or heads of families under these Acts during the calendar years from 1927 to 1936. The total numbers of persons naturalized during the fiscal years ended Mar. 31, 1936 and 1937, were 30,678 and 31,744, respectively, including (except as stated above) the wives and minor children of those to whom naturalization certificates were issued.

**13.—Naturalizations in Canada, by Principal Nationalities, under the Naturalization Act, calendar years 1927-36.**

**Canada Temperance Act.**—Under Parts I and II of this Act, provision is made for the prohibition of the sale of intoxicating liquors in counties and cities. The last vote taken under these parts was in the County of Compton, Quebec, on Apr. 28, 1930, in response to a petition for the repeal of the Act in that county. The vote resulted in favour of the repeal, which became effective on June 14, 1930. Part III of the Act relates to penalties and prosecutions, Part IV to the prohibition of the importation and exportation of intoxicating liquors into and from the provinces, while Part V enacts provisions in aid of provincial legislation for the control of the liquor traffic.

### Section 8.—Royal Canadian Mounted Police.\*

The Royal Canadian Mounted Police is a constabulary maintained by the Dominion Government. It was organized in 1873, and was known as the North West Mounted Police, whose duties were confined to what was then known as the Northwest Territories. In 1904 its name was changed to Royal North West Mounted Police.

In 1905, when Alberta and Saskatchewan were constituted provinces, an arrangement was made whereby the Force continued to discharge its duties as formerly, each province making a contribution towards defraying the cost. This was continued until 1917. Soon after the close of the Great War an extension of Governmental activities made it obvious that the enforcement of Dominion Statutes was assuming increasing proportions, and that it would soon be necessary to have a police force responsible therefor. In 1918, to the Royal North West Mounted Police was assigned the duty of the enforcement of Dominion legislation for the whole of Western Canada, west of Port Arthur and Fort William, and in 1920 for the whole of Canada.

In 1920, the name of the Force was changed to the Royal Canadian Mounted Police, and the former Dominion Police with headquarters at Ottawa, whose duties were largely connected with guarding public buildings in that city and the Canadian Government dockyards at Halifax, N.S., and Esquimalt, B.C., were absorbed by the Royal Canadian Mounted Police.

At the present time, the R.C.M. Police is responsible throughout Canada for the enforcement of the laws against smuggling by land, sea, and air. It enforces the provisions of the Excise Act, is responsible for the suppression of the traffic in narcotic drugs, enforcement of the Migratory Birds Convention Act, and assists the Mines and Resources, Fisheries, and numerous other Dominion Departments, in executing the provisions of their respective Acts, and in some cases in administrative duties. It is responsible for the protection of government buildings and dockyards. It is the sole police force operating in the Yukon Territory and the Northwest Territories, and performs a variety of services in all provinces and both Territories for the Dominion Government.

Under the R.C.M. Police Act, any province may enter into an agreement with the Dominion Government for the services of the Royal Canadian Mounted Police, to enforce provincial laws and the Criminal Code, upon payment for its services, and at the present time such agreements are in force with the provinces of Prince Edward Island, Nova Scotia, New Brunswick, Manitoba, Saskatchewan, and Alberta.

The Force is controlled and administered by a Minister of the Crown (at present the Minister of Justice) and it may be employed anywhere in Canada. From a force of 300 in 1873, it had a strength on Dec. 31, 1937, of 2,620. Its means of trans-

\* Revised by Col. S. T. Wood, Commissioner, Royal Canadian Mounted Police.

port at that time consisted of 206 horses, 526 motor vehicles and 444 sleigh dogs. The Force is organized into 14 divisions of varying strength, distributed over the entire country. The term of engagement is five years for recruits, with re-enlistment for a period not exceeding five years. The Officers are commissioned by the Crown. Recruits are trained at Regina, Sask. The course of training is six months, and consists of drill, both mounted and dismounted, physical training including instruction in wrestling, boxing, and jiu-jitsu. Special attention is paid to police duties, both Dominion and provincial, and detailed lectures are given in these, including court procedure. Instructional courses for promotion are held, and, where practicable, an annual refresher course of training is given.

In 1937, a 'Reserve' strength of 300 men was authorized by Parliament, and during the months of July and August, 1937, 300 'Reservists' were given training at Fredericton, N.B., Ottawa, Ont., Regina, Sask., and Vancouver, B.C., and in future these 'Reservists' will be the principal source from which recruits for the Force will be drawn.

## Section 9.—The Civil Service of Canada.

**Organization.\***—Prior to 1882, appointments to the Civil Service were made directly by the Government. In that year, a Board of Civil Service Examiners was appointed to examine candidates and issue certificates of qualification to those successful at examinations. Appointments, however, were still made by the Government of the day.

The Royal Commission of 1907, appointed to inquire into the Civil Service Act and its operation, reported in favour of the creation of a Civil Service Commission. In 1908 this body was established; it consisted of two members appointed by the Governor in Council and holding office during good behaviour, but removable by the Governor General on address of the Senate and House of Commons. The Civil Service was classified into three divisions under the Deputy Heads of Departments, each division consisting of two subdivisions, each of these having its scale of salaries. The Commission was charged with the organization of and appointments to the Inside Service (at Ottawa), certain appointments to be made after open competition and others after qualifying tests, also with holding qualifying examinations for the Outside Service (the Service apart from Ottawa) to obtain lists from which selections could be made by the various Departments. All British subjects between 18 and 35 years of age who had resided in Canada for three years were eligible to try these examinations.

In 1918 a third member of the Civil Service Commission was appointed, and by the Civil Service Act of that year the principle of appointment after open competition was applied to the Outside as well as the Inside Service. The Act also provided for the organization by the Commission of the various Government Departments, for a classification of all positions in the Service on a duties basis, for the establishment of new rates of compensation, and for the principle of promotion by merit wherever consistent with the best interests of the Service. Provision was also made for preference, in the matter of appointment to the Service, to be given to qualified applicants who had served in the Great War.

**Civil Service Statistics.†**—From April, 1924, a monthly return of personnel and salaries has been made by each Department to the Dominion Bureau of Statistics, according to a plan that ensures comparability between Departments and continuity in point of time. The institution of this system was preceded by an investigation back to 1912, the summary results of which are presented in Table 15.

During the war years, as will be seen from Table 15, the number of employees increased very rapidly, as a result of the enlargement of the functions of government and the imposition of new taxes, necessitating additional officials as collectors. Such new services as the Department of Pensions and National Health and the Soldier Settlement Board were also created. The maximum was reached in January, 1920, when 47,133 persons were employed; this number has since decreased to 43,224 in January, 1937. It may be added that, out of 42,780 in March, 1937 (see Table 16), 1,214 in the Income Tax Branch and 2,354 in the Department of Pensions and National Health, or 3,568 in all, were engaged in services of outstanding importance which had no existence before the War. Further, an additional 11,649 persons were, in March, 1937, employed in the Post Office Department, performing services of an industrial rather than of a governmental type, and receiving their salaries out of payments made by the public for services immediately rendered, rather than out of taxation.

\* Revised by Wm. Foran, Secretary, Civil Service Commission, Ottawa.

† Revised by Col. J. R. Munro, Chief of the Finance Branch of the Dominion Bureau of Statistics, Ottawa.

The statistics of numbers of employees and of salaries, now being secured monthly, are more comprehensive than those previously published, as a result of the inclusion of various classes of employees, largely part-time, seasonal and 'fees of office' employees, who were not included in the report published in 1925. These employees are largely in the Departments of Transport, Fisheries, and Public Works. There remain, however, many persons in the "non-enumerated classes" whose numbers cannot be supplied monthly by the departmental officials but whose compensation is included in the monthly figures of expenditure on personnel, as shown in Table 16.

<sup>1</sup> Figures for January, 1925-37, are not comparable with those for preceding Januaries, because monthly records now being published include various classes of employees not included in the historical record for the 13 years 1912-24.

Table 16, which gives statistics by Departments, with a further classification by principal branches where such are recorded, is included to give comparable figures for the latest months. In the month of March, 1937, the total number of employees in the enumerated classes was 42,836 as compared with 41,132 in March, 1936. The total expenditure on wages and salaries for all classes of employees except "non-enumerated classes" for March, 1937, was \$9,076,651 as compared with \$8,745,072 for March, 1936.

16.—Total Numbers of Civil Service Employees, by Departments and Principal Branches ("Non-Enumerated Classes" Excluded), and Total Expenditures on Salaries and Wages of all Employees ("Non-Enumerated Classes" Included), March, 1936, and March, 1937.

<sup>1</sup> The Canadian Radio Broadcasting Commission became the Canadian Broadcasting Corporation on Nov. 2, 1936, and its employees are no longer accounted Civil Servants.

<sup>2</sup> Salaries of A.D.C.'s are included, but not their number.

<sup>3</sup> Salaries of A.D.C.'s are included, but not their number.

<sup>4</sup> Included with Department of Mines and Resources after 1936.

<sup>5</sup> Included with Department of Transport after 1936.

<sup>6</sup> Includes extra staff under the Public Works Construction Act, 1935; the Department of Mines and Resources.

## Section 10.—Supervision of Race Track Betting.

By an amendment to Sec. 235 of the Criminal Code, passed in 1920, the supervision of race track betting, under the pari-mutuel system, was placed in the hands of the Minister of Agriculture. The actual supervision is carried out by officers of the Royal Canadian Mounted Police and operated for the first time during the racing season of 1921. Statistics are available from the year 1924 and are shown in Table 17 for the Dominion as a whole, while Table 18 shows the operations by provinces for the year 1936.

### 17.—Race Track Betting in Canada, fiscal years 1924-36.

| Fiscal Year. | Number of Associations. | Number of Days Racing. | Amounts Wagered. | Pari-Mutuel Receipts Retained. | Prize Money. |

## Section 11.—The Tariff Board.\*

The Tariff Board was constituted by Act of Parliament in 1931 (c. 55, 21-22 Geo. V). It consists of three members, a Chairman, a Vice-Chairman and a member, and a Secretary, all appointed by the Governor in Council.

The constitution and duties of the Board are defined in two parts of the Act of 1931.

Under Part I, the Board makes inquiry into and reports upon any matter on which the Minister of Finance desires information, in relation to any goods which, if brought into Canada or produced in Canada, are subject to or exempt from duties of customs or excise. The investigation into any such matter may include inquiry as to the effect which an increase or decrease of the existing rate of duty upon a given commodity might have upon industry or trade, and the extent to which the consumer is protected from exploitation.

It is also the duty of the Board to inquire into any other matter or thing in relation to the trade or commerce of Canada which the Governor in Council sees fit to refer to the Board for inquiry and report.

The Act provides that reports shall be made to the Minister of Finance, and tabled in the House of Commons. The principal commodities reported on are: wool textiles; boots and shoes; jute yarns and twines; fruits and vegetables; hookless fasteners (zippers); wooden doors; silver-bearing articles (toiletware); dextrines; rabbit skins; brass, copper and nickel-silver commodities; boiler tubes; skelp; coco-mats and mattings; hats and hoods; biscuits; cork boards, slabs and planks; crude petroleum and its derivatives; automotive industry; artificial silk yarns, cotton yarns and fabrics. In the year 1937 reports were made on plastics of all kinds; furniture; steel wool; the automotive industry; certain sporting goods, etc.

Part II of the Act empowers the Board to hear and decide appeals from rulings made by the Department of National Revenue with respect to fair market value of goods for duty purposes, erroneous appraisals, and the rate of duty applicable to any class of goods. Under Order in Council the Board has authority and power, (1) to declare or find with respect to any importation whether any goods are "of a class or kind made or produced in Canada"; (2) to review the value for duty applied by the Customs to new or unused goods under provisions of Sec. 36 of the Customs Act and make its findings with regard thereto; (3) to determine and declare whether any and, if so, what drawback of Customs duty is payable under the provisions of Schedule B of the Customs Tariff. Findings of the Board on Appeals are published in the *Canada Gazette*.

\* Revised by James R. MacGregor, Secretary, Tariff Board.

### Section 12.—Dominion Trade and Industry Commission.\*

The Dominion Trade and Industry Commission was constituted by Act of Parliament in 1935 (c. 59, 25-26 Geo. V). It consists of three Commissioners, one of whom is the Chief Commissioner and another the Assistant Chief Commissioner. The Act provides that for the time being the members of the Tariff Board (see Section 11) shall be the Commissioners, and the Chairman and Vice-Chairman of the Tariff Board shall be the Chief Commissioner and Assistant Chief Commissioner, respectively.

Duties of the Commission consist of investigating and recommending the prosecution of offences against Acts of Parliament relating to commodity standards; preparation of draft specifications for commodity standards; application of the national trademark "Canada Standard" to commodities which conform to specifications established under any Act of Parliament; investigation of complaints respecting unfair trade practices, and recommending the prosecution of offences against any Dominion law prohibiting unfair trade practices; the convening of conferences for the purpose of considering commercial practices prevailing in industry, and determining what practices are unfair or undesirable in the interest of the industry or the public.

### Section 13.—The National Employment Commission.

An account of the establishment of the National Employment Commission is given at p. 1052 of the 1937 Year Book. The Commission presented its final report on Jan. 26, 1938 and was dissolved on Feb. 1, 1938. An account of the work carried out by the Commission will be found at p. 778-779 of this volume.

### Section 14.—Other Miscellaneous Administration.

In previous editions of the Year Book this chapter has been brought to a close with outlines of Dominion Government administration as follows: the International Joint Commission; the Geodetic Survey of Canada; the Topographical Survey; the Dominion Observatories.

The three latter services were, up to the end of 1936, administered by the Department of the Interior but, as will be seen from the outline of Dominion legislation (under the heading "Civil Service") p. 1065, the newly-organized Department of Mines and Resources, which came into effect on Dec. 1, 1936, absorbed the old Departments of Mines, Interior, Indian Affairs, and Immigration. The Geodetic Survey and the Dominion Observatories administrations are continued as Divisions of the Surveys and Engineering Branch of the new Department, but topographical survey work has been re-organized, the mapping work having been combined with the Hydrographic Service as a Division of the Surveys and Engineering Branch, and the topographical survey work taken over by the Bureau of Geology and Topography of the Mines and Geology Branch.

The purpose of establishing the above-mentioned new Departments was to correlate the efforts of the staffs of such older Departments as had, in the course of time, acquired overlapping features, or which could be more economically administered under one head without impairing the usefulness of necessary services.

\* Revised by James R. MacGregor, Secretary, Dominion Trade and Industry Commission.

## CHAPTER XXIX.—SOURCES OF OFFICIAL STATISTICAL AND OTHER INFORMATION RELATIVE TO CANADA.

The chief source of information on the current state of the country is the Dominion Bureau of Statistics, organized as the central statistical bureau for Canada, and described in the first part of this chapter.

The second section of the chapter contains a list of the Acts of Parliament administered by the several Departments of the Dominion Government, and the third section a bibliography of the publications of these Departments. This is followed, in Section 4, by a bibliography of the publications of Provincial Governments.

### Section 1.—The Dominion Bureau of Statistics.\*

The Dominion Bureau of Statistics was set up by statute in 1918 as a central statistical department for Canada (8-9 Geo. V, c. 43).† The Act was a consolidation of all previous statistical legislation and was based on the report of a Commission on Statistics, appointed in 1912, which recommended (a) a series of specific reforms and enlargements in Canadian statistics, and (b) a policy of statistical co-ordination for the Dominion, under central direction. In 1915, following the recommendations in this report, the office of Dominion Statistician was created.

As first established‡ the Bureau included, by transfer or absorption, the following divisions: (1) the Census and Statistics Office (covering the census, and also agriculture, general manufactures, and judicial statistics), (2) Fisheries Statistics, (3) Mining Statistics, (4) Forestry Statistics, (5) Dairying and Fruit Statistics, (6) Water- and Electric-Power Statistics, (7) the Railways and Canals Statistical Branch of the Department of Railways and Canals, (8) the Trade Statistical Branch (Exports and Imports), (9) Grain Trade Statistics, (10) Live-Stock Statistics, (11) Prices Statistics, and (12) Employment Statistics. In addition four new branches were created, dealing respectively with Public Finance, Internal Trade, Vital Statistics, and Education.

Since its organization in 1918, the Bureau has created out of these many heterogeneous units a unified, nation-wide, statistical system in which the correlation of the several subjects and their interpretation from a comprehensive national viewpoint has been the primary objective. By means of Dominion-Provincial statistical conferences held from time to time, a useful degree of co-operation and uniformity of statistical classification and method has been achieved and progress along these lines continues. These main advantages of statistical centralization have not only been substantially attained, but the treatment of statistics, not merely as aggregations of figures, but as primary data from which complex social and economic phenomena may be interpreted, has been emphasized. This view of a true national statistic as revealing the controlling economic forces which operate and their inter-

\* A more complete account of the formation and activities of the Bureau of Statistics will be found on pp. 961-964 of the 1922-23 Year Book.

† Consolidated as the Statistics Act (c. 190, R.S.C., 1927).

‡ See the first Annual Report of the Dominion Statistician, for the fiscal year ended Mar. 31, 1919.

play, and the value of such a statistic in administrative planning along national lines, involves, of course, an added function of the Bureau, *viz.*, its usefulness as a national laboratory for economic and social research. This is a development which, as yet, is in its infancy but the foundation of such a service, comparable with the increasing importance of Canada in the economic and political world, has already been laid.

While primarily serving the Government, the Bureau realizes that in a democratic community every citizen is a part of the Government and should be well informed regarding the social and economic conditions of his country as a whole, as well as respecting the part of it that comes under his own eyes. Accordingly, the Bureau furnishes to all applicants answers to all manner of questions on all sorts of topics, either directly or through the columns of the press. In particular, it supplies to business men of all classes information regarding business conditions, such as the production, imports, exports, prices, stocks, etc., of all kinds of commodities, in order to enable them to direct their operations more effectively to their own greater advantage and to the greater advantage of Canada. Arrangements have been completed whereby special tabulations may be made, or other investigations carried out at a fee based only on the extra clerical costs to the Bureau.

As now organized, the Branches of the Dominion Bureau of Statistics are: I. Administration; II. Demography—Census and Vital Statistics; III. Agricultural Statistics; IV. Fisheries, Furs, Animal and Dairy Products; V. Mining, Metallurgical and Chemical; VI. Forestry and Allied Industries; VII. General Manufactures. VIII. External Trade (Imports and Exports); IX. Internal Trade; X. Transportation and Public Utilities; XI. Financial Statistics; XII. Judicial Statistics; XIII. Education Statistics; XIV. Census of Institutions; XV. General Statistics. An organization chart showing the relationship of the Branches and the divisions of their work was published at pp. 1144-1145 of the 1934-35 Year Book.

**Publications.**—Items in the vote of the Bureau, passed by Parliament each year, provide limited funds for the printing and processing of reports and bulletins. Reports printed from type are set up by the King's Printer, but the Bureau itself operates three contact printing presses and all processed reports and bulletins are completely printed as well as published by the Bureau of Statistics.

The present policy with regard to the distribution of publications is based on sales to the public at actual cost of paper and presswork only; compilation, editing, and other overhead costs are not included. The object is to extend the service to the public as widely as possible and so spread the compilation and overhead which are the big items in total costs. A special subscription rate of \$20 per year is made to firms and individuals listed to receive the 'all publications' service. The charge entitles the payer to receive a copy of each publication as issued, with the exception of news bulletins. Other special rates are set for series of publications in related groups; these are referred to in the respective sections of the list following.

Applications for reports should be sent to the Bureau of Statistics; they should indicate the individual publication or series of reports in which the applicant is interested and include the necessary remittance in the form of a cheque or money order made payable to the Receiver-General of Canada, Ottawa.

## ADMINISTRATION—

Annual Report of the Dominion Statistician. (Included in the Annual Report of the Department of Trade and Commerce, *Price 25 cents.*)

## POPULATION—

## I. CENSUS—

## (A) Report of the Seventh Census of Canada, 1931:—

- Vol. I. General—Administrative Report of the Seventh Census followed by a summary of the leading facts of the Censuses of Population and Agriculture, Institutions, Merchandising and Service Establishments, etc., and cross-analyses relating thereto. The Appendix gives a complete bibliography of census materials and reproduces the more salient figures for specified years, chronologically arranged, back to 1605. The volume also contains a series of life tables for the Dominion and each province. *Price, Cloth \$1.50, Paper \$1.*
- Vol. II. Population by Local Subdivisions—Conjugal condition, racial origin, religion, birthplace, year of immigration, language, literacy, school attendance, etc. *Price, Cloth \$1.50, Paper \$1.*
- Vol. III. Ages of the People—Classified by sex, conjugal condition, racial origin, religion, birthplace, language, literacy, year of immigration, naturalization, etc. *Price, Cloth \$1, Paper 75 cents.*
- Vol. IV. Birthplace, Racial Origin and Year of Immigration of the People—Classified and cross-classified by conjugal condition, naturalization and citizenship, religion, language, literacy, school attendance. *Price, Cloth \$1, Paper 75 cents.*
- Vol. V. Earnings of Wage-Earners, Dwellings, Households, Families, Blind and Deaf-Mutes—Cross-classified by birthplace, conjugal condition, year of immigration, naturalization and citizenship, racial origin, religion, language, literacy, school attendance. *Price, Cloth \$1, Paper 75 cents.*
- Vol. VI. Unemployment—Classified by industry, occupation, cause, age, sex, conjugal condition, period of idleness, birthplace, racial origin, year of immigration. *Price, Cloth \$1, Paper 75 cents.*
- Vol. VII. Occupations and Industries—Cross-classified by birthplace, race, age, sex, etc. *Price, Cloth \$1, Paper 75 cents.*
- Vol. VIII. Agriculture—Agricultural population, farm holdings and land area, tenure, value of farm property and farm products, acreage and yields of crops, live stock, mortgage indebtedness and farm expenses, farm machinery, facilities and roads, co-operative marketing, etc. *Price, Cloth \$1, Paper 75 cents.*
- Vol. IX. Institutions—Hospitals for the Sick—Type, bed capacity, facilities, movement of patient population, personnel, capital investment, maintenance, receipts and expenditures, etc.; Mental Hospitals—Movement of patient population and their psychoses, age, nativity, racial origin, economic condition, conjugal condition, environment, literacy, religion, administration and personnel, etc.; Charitable and Benevolent Institutions—Type, movement of population, finances, inmates, age, sex, administration and personnel, etc.; Penitentiaries and Corrective and Reformatory Institutions—Inmates, offences, sentences, age, birthplace, citizenship, racial origin, previous employment, environment, educational status, conjugal condition, social habits, overseas service, administrative staff, receipts and expenditures. *Price, Cloth \$1, Paper 75 cents.*
- Vols. X and XI. Merchandising and Service Establishments—Retail merchandise trade cross-classified by kind of business, type of operation, size of business, employees, salaries and wages, capital investment, rent and other operating expenses, credit, etc.; Wholesale trade cross-classified by type of establishment, kind of business, operating expenses, etc.; with special reports on retail trade in urban and rural areas, chain stores, food retailing, drug stores, hotels, moving picture theatres, co-operative marketing and purchasing, etc. *Price, Cloth \$1, Paper 75 cents each Volume.*
- Vols. XII and XIII. Census Monographs—Consisting of a series of studies of such outstanding Canadian problems as: Growth of Population in Canada; Age Distribution of the Canadian People; Fertility of the Population; Origin, Language, Birthplace and Nationality of the Canadian People; Illiteracy and Educational Status; The Racial and Urban Composition of the Canadian Population since Confederation; The Canadian Family—Its Composition, Size and Condition from the Earliest Times; Housing and Rentals; Dependency; The Evolution and Present-Day Significance of the Canadian Occupational Structure; Unemployment; The Population Basis of Agriculture; Official Life Tables; Graduated Tables; Probabilities Referring to Occupations, Earnings, etc. (*In course of preparation.*) *Price, Cloth \$1, Paper 75 cents.*

## POPULATION—continued.

## I. CENSUS—continued.

(A) *Report of the Seventh Census of Canada, 1931—concluded.*

## AGRICULTURE.—

- Prince Edward Island—Farm population, areas, tenure, values, facilities and live stock; value of field crops, vegetables, fruits and forest products, *Price 25 cents.*  
 Nova Scotia—Farm population, areas, tenure, values, facilities and live stock; value of field crops, vegetables, fruits and forest products, *Price 25 cents.*  
 New Brunswick—Farm population, areas, tenure, values, facilities and live stock; value of field crops, vegetables, fruits and forest products, *Price 25 cents.*  
 Quebec—Farm population, areas, tenure, values, facilities and live stock; value of field crops, vegetables, fruits and forest products, *Price 25 cents.*  
 Ontario—Farm population, areas, tenure, values, facilities and live stock; value of field crops, vegetables, fruits and forest products, *Price 25 cents.*  
 Manitoba—Farm population, areas, tenure, values, facilities and live stock; value of field crops, vegetables, fruits and forest products, *Price 25 cents.*  
 Saskatchewan—Farm population, areas, tenure, values, facilities and live stock; value of field crops, vegetables, fruits and forest products, *Price 25 cents.*  
 Alberta—Farm population, areas, tenure, values, facilities and live stock; value of field crops, vegetables, fruits and forest products, *Price 25 cents.*  
 British Columbia—Farm population, areas, tenure, values, facilities and live stock; value of field crops, vegetables, fruits and forest products, *Price 25 cents.*

(XXIV) Forest Products of Farms, by Counties or Census Divisions, 1930. (XXV) Condition of Farm Land, by Counties or Census Divisions, 1931. (XXVI) Area of Field Crops, by Counties or Census Divisions, 1931.

## POPULATION—concluded.

## I. CENSUS—concluded.

(C) *Bulletins of the Quinquennial Census of the Prairie Provinces, 1936:—*

*Preliminary Bulletins.*—(I) Population of Certain Cities, Towns and Villages. (II) Population of Certain Cities, Towns and Villages. (III) Population of Certain Cities, Towns and Villages and Electoral Districts. (IV) Population of Certain Electoral Districts, Towns and Villages. (V) Number of Occupied and of "Vacant" or "Abandoned" Farms in Certain Electoral Districts. (VI) Population of Certain Electoral Districts and Cities, Towns and Villages. (VII) Area under Field Crops in 1936 in Certain Electoral Districts. (VIII) Population of Certain Electoral Districts and Cities, Towns and Villages. (IX) Population of Rural Municipalities in the Provinces of Manitoba, Saskatchewan, and Alberta. (X) Population of Certain Electoral Districts and Cities, Towns and Villages. (XI) Number of Occupied and of "Abandoned" or "Vacant" Farms in Certain Electoral Districts. (XII) Population of Certain Electoral Districts, Rural Municipalities, Cities, Towns and Villages. (XIII) Population of Electoral Districts in the Provinces of Manitoba, Saskatchewan, and Alberta. (XIV) Preliminary Announcement of Unemployment and Employment among Wage-Earners, in Cities and Towns of 5,000 Population and Over. (XV) Area under Field Crops in the Prairie Provinces, 1936 and 1931. (XVI) Number of Live Stock on Farms on June 1, 1936, in the Prairie Provinces. (XVII) Preliminary Announcement of Unemployment and Employment among Wage-Earners in Urban Centres of 1,000 to 5,000 Population. (XVIII) Preliminary Announcement of Unemployment and Employment among Wage-Earners in the provinces of Manitoba, Saskatchewan, and Alberta. (XIX) Number of Farms in the Prairie Provinces by Census Divisions. *Final Bulletins.*—(XX) Population by Townships, Rural and Urban, by Census Divisions, Age, Sex, Conjugal Condition, Birthplace, Racial Origin, Official Language, Immigration, School Attendance, Literacy, for cities of 10,000 population and over, *Price 25 cents.* (XXI) Occupations and Industries of Gainfully Occupied for Cities of 10,000 Population and Over, *Price 25 cents.* (XXII) Preliminary Report on Agriculture for the Provinces of Manitoba, *Price 15 cents.* (XXV) Preliminary Report on Agriculture for the Province of Saskatchewan, *Price 15 cents.* (XXVIII) Preliminary Report on Agriculture for the Province of Alberta, *Price 15 cents.* *Final Bulletins.*—(XXIII) Population Classifications by Provinces, *Price 25 cents.* (XXIV) Unemployment Among Wage-Earners for Cities of 10,000 Population and Over, *Price 25 cents.* (XXVI) Earnings and Employment among Wage-Earners for Cities of 10,000 Population and Over, *Price 25 cents.* (XXVII) Occupations and Industries of Gainfully Occupied for the Provinces of Manitoba, Saskatchewan and Alberta, *Price 25 cents.* (XXIX) Unemployment among Wage-Earners for the Provinces of Manitoba, Saskatchewan and Alberta, *Price 25 cents.* (XXX) Unemployment and Earnings among Wage-Earners on Relief and Not on Relief for Cities of 30,000 Population and Over, *Price 25 cents.* (XXXI) Earnings and Employment among Wage-Earners for the Provinces of Manitoba, Saskatchewan and Alberta, *Price 25 cents.* (XXXII) Earnings of Wage-Earner Heads by Tenure and Size of Family for Cities of 10,000 Population and Over, *Price 25 cents.*

(D) *Reports of the Census of Institutions:—*

- (1) Annual Report on Mental Institutions, 1935, *Price 25 cents.*
- (2) Directory of Hospitals, 1935, *Price 50 cents.*
- (3) Report on Penitentiaries and Reformatories, 1936, *Price 25 cents.*
- (4) Report on Charitable Institutions, 1936, *Price 25 cents.*
- (5) Report on Tuberculosis Institutions, 1936, *Price 25 cents.*

## II. INTERCENSAL ESTIMATES OF POPULATION.

## III. VITAL STATISTICS.

Annual Report on Vital Statistics of Canada by Provinces and Municipalities, *Price \$1*; Preliminary Annual Report on Vital Statistics of Canada, *Price 25 cents*; Preliminary Quarterly Report on Vital Statistics of Canada; Monthly Report of Births, Deaths, and Marriages registered in Cities; Special Report on Contributory Causes of Death, 1926; Order of Birth in the Registration Area of Canada, 1925; Manual of the International List of Causes of Death, Revision of 1929 (limited edition); Special Report on Mortality in Canada from Cerebral Hemorrhage and Certain Diseases of the Heart, Arteries and Kidneys, 1921-32; Special Report on Mortality in Canada According to Place of Residence, 1930-32; Special Report on Mortality from Tuberculosis in Canada According to Place of Residence, 1930-32; Special Report on Births in Canada According to Place of Residence of Mother, 1930-32; Special Report on Mortality in Canada, 1921-32; Handbook on Death Registration and Certification, containing International List of Causes of Death (special distribution); Special Report on Mortality in Canada, 1921-35, *Price 25 cents*; Special Report on Occupational Mortality in Canada, 1931-32, *Price 25 cents*; Special Report on Deaths in Canada, Classified According to Residence of Decedents, 1935 (Parts I and II), *Price, each part, 25 cents.*

## PRODUCTION—

## I. ANNUAL SURVEY OF PRODUCTION.

Including and differentiating gross and net—(1) Primary Production (agriculture, forestry, fisheries, trapping, mining, and electric power), (2) Secondary Production, or General Manufactures, Custom and Repair, and Construction, and (3) Provincial and Per Capita Analyses, Explanation of Method, *Price 25 cents*.

## II. AGRICULTURE.

- (1) *Agricultural Production*—Monthly Bulletin of Agricultural Statistics with Index, *Price \$1 per year*. (The official record of current statistical data relating to agriculture. Contains reports on crop conditions, prices, weather, etc.—estimates of areas, yields, quality, and value of field crops—value of farm lands—wages of farm help—number and values of farm live stock and poultry—dairying—eggs—tobacco—apiculture—maple products—clover and grass seed—miscellaneous crops—stocks of grain—annual summary of value of agricultural production—index numbers of agricultural prices, production, and values—international agricultural statistics.) Table of Contents and Index of Monthly Bulletin of Agricultural Statistics. Reprinted from the Monthly Bulletin of Agricultural Statistics: (a) Canadian Trade in Farm Products, 1926-27; (b) The Fertilizer Trade in Canada; (c) Farm Expenditures in Alberta and Saskatchewan, 1934; (d) Fruit Statistics of Canada, 1926-35. Advance Summaries of Agricultural Statistics. Telegraphic Crop Reports (between June 1 and Sept. 1, weekly for the Prairie Provinces and every two weeks for the rest of Canada). Agricultural Statistics by Counties and Crop Districts. Advance Summaries on Fruit Conditions, Yields, etc., *Price \$3 per year*. Annual Statistics of Fruit, Nursery Stock and Floriculture. Handbook of Instructions to Crop Correspondents, and Summary of Annual Agricultural Statistics. *Mimeographed Reports, Annual*.—Field Crop Acreages and Live Stock Numbers at June 1. Crop Reports—released on dates listed in the Crop-Reporting Program covering: (a) Intentions to Plant Field Crops; (b) Winter-killing and Spring Condition of Fall Wheat, Fall Rye, and Hay and Clover Meadows; (c) Progress of Spring Seeding; (d) Acreage, Condition, Yield, Stocks on Hand, and Value of Field Crops, *Price \$2 per year*. Fruit and Vegetables—condition reports, estimates of production and value, *Price \$1 per year*. (See also Census of Agriculture under "Population".)
- (2) *Grain and Grain Products*—(a) Annual Report on the Grain Trade of Canada, *Price 50 cents*; (b) Preliminary Report on the Grain Trade of Canada, *Price 25 cents*; (c) Monthly Review of the Wheat Situation, *Price \$1 per year*; (d) Canadian Grain Statistics (weekly report on grain supplies and movements), *Price \$2 per year*; (e) Canadian Milling Statistics (monthly), *Price 50 cents per year*; (f) List of Mills with Capacity, *Price 50 cents*; (g) The Grain Situation in Argentina (monthly), *Price \$1 per year*; (h) The Production and Distribution of Canadian Grains and Seeds—(1) Barley, (2) Oats, (3) Rye, (4) Flaxseed; (i) World Trade in Barley; (j) World Shipments of Wheat and Wheat Flour, 1926-27 to 1931-32; (k) World Trade in Wheat, *Price 25 cents*; (l) The Routing of Canadian Grain for Export; (m) Salient Features in the Grain Situation in Canada; (n) Trends in World Wheat Acreage, with graphic appendix.
- (3) *Live-Stock and Animal Products*—(a) Annual Report on Live-stock and Animal Products Statistics, *Price 25 cents*; (b) Monthly Reports on Cold Storage Holdings in Canada (1) Meat and Fish, *Price \$1 per year*, (2) Dairy and Poultry Products, *Price \$1 per year*, (3) Apples, Pears, Small Fruits, and Vegetables, *Price 50 cents per year*; (c) Monthly Reports on Stocks of Butter, Cheese, and Eggs in the Principal Cities of Canada, *Price 50 cents per year*; (d) Monthly Review of Dairy Production, *Price \$1 per year*; (e) Annual Estimates of the Consumption of Meats, Poultry, Butter, Cheese, and Eggs; (f) Annual Report on Dairying Statistics of Canada, *Price 25 cents*; (g) Annual Survey of Live Stock and Poultry at Dec. 1, *Price 25 cents*; (h) Annual Summary of Cold Storage Holdings, *Price 25 cents*; (i) The Dairy Situation in Canada (quarterly), *Price \$1 per year*.
- (4) *Other*—Monthly Report on Raw and Refined Sugar (visible supply, meltings, shipments, exports and imports), *Price \$1 per year*. Annual Summary of Sugar Reports. Annual Report on the Agricultural Situation and Outlook (published in co-operation with the Department of Agriculture) with supplements as follows: (a) The Potato Situation in Eastern Canada, 1935; (b) Production Trends and Policies in Agriculture, 1936; and (c) Charts, 1937. Report of the Conference on Agricultural Statistics, Ottawa, Mar. 30-Apr. 2, 1936.

NOTE.—Subscription price for all publications of the Agricultural Branch, \$10 per year.

## PRODUCTION—continued.

## III. FURS.

Annual Report on Fur Farms, *Price 35 cents*. List of Companies, Firms and Individuals, Engaged in Fur Farming in Canada, *Price 35*. Advance Bulletin of Statistics of the Production of Raw Furs, *Price 10 cents*. Annual Bulletin of the Production of Raw Furs (comprising the pelts taken by trappers and those sold from fur farms), *Price 25 cents*.

## IV. FISHERIES.

Annual Report of Fisheries Statistics, *Price 35 cents*. Advance Bulletins of Fish Caught and Marketed, by Provinces: Prince Edward Island, *Price 10 cents*; Nova Scotia, *Price 15 cents*; New Brunswick, *Price 15 cents*; Quebec, *Price 15 cents*; Ontario, The Prairie Provinces, and Yukon, *Price 15 cents*; British Columbia, *Price 15 cents*; Canada, *Price 25 cents*.

## V. FORESTRY.

Annual Summary of the Value, etc., of Forest Production (includes operations in the woods for sawmills, shingle mills, pulp and paper mills, etc., production of mining timber, production of poles and cross ties, and farm production of firewood, posts, etc.), *Price 15 cents*.

[See also Reports on Manufactures of Forest Products listed under "Manufactures", Section VII, Subsection (5).]

## VI. MINERAL PRODUCTION (MINING AND METALLURGY).

(1) General—(a) Annual Report on the Mineral Production of Canada, *Price 50 cents*; (b) Preliminary Reports (semi-annual) on the Mineral Production of Canada, *Price 25 cents*; (c) Monthly Reports on Leading Minerals—reports on gold, silver, lead, zinc, cobalt, nickel, copper, petroleum, gypsum, coal, cement, lime, clay, salt, asbestos, feldspar, etc., *Yearly subscription 50 cents per report*; (d) Preliminary Estimate of Canada's Mineral Production, *Price 10 cents*.

(2) Coal—(a) Annual Report on Coal Statistics for Canada, *Price 25 cents*; (b) Monthly Summary Report on Coal and Coke Statistics for Canada, *Price 50 cents per year*; (c) Quarterly Report on Coal and Coke Statistics for Canada, *Price 50 cents per year*.

(3) Annual Bulletins on Mining—Metals—The Gold-Mining Industry in Canada (including alluvial gold mining, auriferous quartz mining, copper-gold-silver mining, and tables showing Canadian and world production of gold), *Price 25 cents*. The Silver-Mining Industry in Canada (including silver-cobalt-arsenic mining, silver-lead-zinc mining, and tables showing Canadian and world production of arsenic, cobalt, lead, silver, and zinc), *Price 25 cents*. The Nickel-Copper Mining, Smelting and Refining Industry (including Canadian and world production of nickel), *Price 25 cents*. The Copper-Mining Industry (including Canadian and world production of copper), *Price 10 cents*. Metals of the Platinum Group, *Price 10 cents*. The Production of Miscellaneous Metals (including aluminium, antimony, barium, beryl, bismuth, cadmium, calcium, chromite, lithium, magnesium, manganese, mercury, molybdenite, radium, selenium, tin, titanium, tungsten), *Price 15 cents*. The Non-Ferrous Smelting and Refining Industry, *Price 15 cents*. The complete Mining Series of Reports (with the exception of Coal), *Price \$4*.

Non-Metals—Abrasives, *Price 15 cents*; Asbestos, *Price 10 cents*; Feldspar and Quartz, *Price 10 cents*; Gypsum, *Price 10 cents*; Iron Oxides, *Price 10 cents*; Mica, *Price 10 cents*; Natural Gas, *Price 10 cents*; Petroleum, *Price 15 cents*; Salt, *Price 10 cents*; Talc and Soapstone, *Price 10 cents*; Miscellaneous Non-Metallic Minerals (including actinolite, barytes, bituminous sands, fluor spar, graphite, magnesitic-dolomite, magnesium sulphate, bog manganese, mineral waters, peat, phosphate, silica brick, sodium carbonate, sodium sulphate, sulphur-pyrites), *Price 15 cents*.

Structural Materials—The Cement Industry, *Price 15 cents*; Clay and Clay Products, *Price 15 cents*; Lime, *Price 10 cents*; Sand and Gravel, *Price 10 cents*; Stone, *Price 25 cents*.

[See also Reports on Iron and Steel and Their Products, Manufactures of Non-Ferrous Metals and Chemicals and Allied Products listed under "Manufactures", Section VII, Subsections (6), (7), (8) and (9).]

NOTE.—Subscription price for all Mining, Metallurgical and Chemical reports (including reports under groups (6), (7), (8), and (9), p. 1080), \$10 per year.

## PRODUCTION—continued.

## VII. MANUFACTURES.

- (1) *General*—General Report on the Manufacturing Industries of Canada, *Price 50 cents*. Geographical Distribution of the Manufacturing Industries of Canada, *Price 25 cents*; also Reports for the Provinces and Leading Cities: Quebec, *Price 20 cents*; Ontario, *Price 20 cents*; British Columbia, *Price 15 cents*; Prairie Provinces, *Price 25 cents*; Maritime Provinces, *Price 25 cents*. Alphabetical List of Products (annual report); Quantity of Manufacturing Production in Canada, 1923-29; Consumption of Luxuries (annual report).
- (2) *Manufactures of Vegetable Products*—General Report on Manufactures of Vegetable Products, *Price 50 cents*. Annual bulletins as follows: (a) Coffee, Tea, Spices and Miscellaneous Foods, *Price 25 cents*; (b) Fruit and Vegetable Preparation, including Canning, Evaporating and Preserving, and Pickles, Sauces, Vinegar and Cider, *Price 25 cents*; (c) Flour and Grist Mill Products, *Price 25 cents*; (d) Bread and Other Bakery Products, *Price 25 cents*; (e) Biscuits and Confectionery, including Cocoa and Chocolate, *Price 25 cents*; (f) Macaroni and Vermicelli, *Price 15 cents*; (g) Distilled Liquors, *Price 25 cents*; (h) Breweries, *Price 25 cents*; (i) Wine, *Price 25 cents*; (j) Rubber Industry, *Price 25 cents*; (k) Prepared Breakfast Foods, *Price 15 cents*; (l) Sugar Refineries, *Price 25 cents*; (m) Tobacco Products, *Price 25 cents*; (n) Linseed Oil and Soya Bean Oil, *Price 15 cents*; (o) The Canned Foods Industry, *Price 15 cents*; (p) Ice Cream, *Price 15 cents*; (q) Pack of Fruits and Vegetables, (preliminary), *Price 25 cents*; (r) Stocks of Unmanufactured Tobacco on Hand, (quarterly report), *Price 50 cents*; (s) Stocks of Canned Fruits and Vegetables, (quarterly report), *Price 50 cents*; (t) Aerated and Mineral Waters, *Price 15 cents*.
- (3) *Animal Products and Their Manufactures*—Annual Report as follows: The Dairy Factory Industry, *Price 25 cents*. Annual bulletins: (a) Slaughtering and Meat Packing and Sausage and Sausage Casings, *Price 25 cents*; (b) Leather Tanneries, *Price 25 cents*; (c) Miscellaneous Leather Goods, Leather Belting, Boot and Shoe Findings, Leather, *Price 25 cents*; (d) Leather Boots and Shoes, *Price 25 cents*; (e) Leather Gloves and Mitts, *Price 20 cents*; (f) Fur Goods, Fur Dressing and Dyeing, *Price 25 cents*. Monthly bulletin on Boot and Shoe Production, *Price 50 cents per year*. Monthly bulletin on Concentrated Milk Products, *Price 50 cents per year*.
- [See also Reports on Live Stock, etc., listed under "Agriculture".]
- (4) *Textile and Allied Industries*—General Report on the Textile Industries of Canada, *Price 50 cents*. Annual Bulletins as follows: (a) Cotton Textiles (cloth, yarn, thread and waste), *Price 35 cents*; (b) Woollen Textiles (cloth, yarn, waste, carpets and woollen goods, n.e.s.), *Price 35 cents*; (c) The Silk Industry, *Price 25 cents*; (d) Men's Factory Clothing, *Price 25 cents*; (e) Women's Factory Clothing, *Price 25 cents*; (f) Hats and Caps, *Price 25 cents*; (g) Hosiery and Knitted Goods, *Price 25 cents*; (h) Men's Furnishings, n.e.s., *Price 25 cents*; (i) Oiled Clothing and Waterproofs, *Price 15 cents*; (j) Cordage, Rope and Twine, *Price 15 cents*; (k) Corsets, *Price 15 cents*; (l) Cotton and Jute Bags, *Price 15 cents*; (m) Dyeing and Finishing of Textiles, *Price 15 cents*; (n) Awnings, Tents and Sails, *Price 15 cents*.
- (5) *Manufactures of Forest Products*—Annual Reports, *Price 25 cents each*: (a) The Lumber Industry; (b) The Pulp and Paper Industry; (c) Wood-Using Industries (biennial); (d) Paper-Using Industries (biennial). Annual bulletins: (a) The Lumber Industry, *Price 25 cents*; (b) Lumber Distribution in Canada and the United States (biennial), *Price 25 cents*; (c) The Pulp and Paper Industry, *Price 20 cents*. Annual Preliminary Reports on Wood-Using Industries: (a) Planing Mills, Sash and Door Factories, *Price 20 cents*; (b) Hardwood Flooring, *Price 15 cents*; (c) Furniture, *Price 15 cents*; (d) Boxes, Baskets and Crates, *Price 15 cents*; (e) Carriages, Sleighs and Vehicle Supplies, *Price 15 cents*; (f) Cooperage, *Price 10 cents*; (g) Coffins and Caskets, *Price 10 cents*; (h) Sporting Goods, *Price 10 cents*; (i) Boat Building, *Price 10 cents*; (j) Laths, Trees and Shoe Findings, *Price 10 cents*; (k) Handles, Spools and Wood-turning, *Price 10 cents*; (l) Wooden-ware, *Price 10 cents*; (m) Excelsior, *Price 10 cents*; (n) Charcoal Manufacture, *Price 10 cents*; (o) Beekeepers' and Poultrymen's Supplies, *Price 10 cents*; (p) Miscellaneous Wood-Using Industries, *Price 10 cents*. Annual Preliminary Reports on Paper-Using Industries: (a) The Printing Trades (comprising the following industries: Printing and Publishing; Printing and Bookbinding; Lithographing; Engraving, Stereotyping and Electrotyping; Trade Composition; and Blue Printing), *Price 25 cents*; (b) Paper Boxes and Bags, *Price 15 cents*; (c) Roofing Paper, *Price 10 cents*; (d) Miscellaneous Paper Goods, *Price 10 cents*. Monthly bulletins: (a) Asphalt Roofing Production, *Price 50 cents per year*; (b) Asphalt Roofing Sales, *Price 50 cents per year*; (c) Rigid Insulating Board, *Price 50 cents per year*. Lumber Industry Series, *Price 50 cents*; Wood-Using Industries Series, *Price \$1.50*; Paper Using Industries Series, *Price \$1.75*.

## PRODUCTION—concluded.

## VII. MANUFACTURES—concluded.

- (6) *Iron and Steel and Their Products*—Biennial Report, *Price 50 cents*. Annual bulletins as follows: Preliminary Summary on the Iron and Steel Industry—(a) Primary Iron and Steel, *Price 15 cents*; (b) Castings and Forgings, *Price 15 cents*; (c) Boilers, Tanks and Engines, *Price 10 cents*; (d) Farm Implements and Machinery, *Price 15 cents*; (e) Automobile Parts and Accessories, *Price 15 cents*; (f) Automobile Statistics for Canada, *Price 25 cents*; (g) Railway Rolling-Stock, *Price 10 cents*; (h) Wire and Wire Goods, *Price 15 cents*; (i) Sheet Metal Products, *Price 10 cents*; (j) Hardware, Tools and Cutlery, *Price 10 cents*; (k) Bridge Building and Structural Steel, *Price 10 cents*; (l) Miscellaneous Iron and Steel Products, *Price 10 cents*; (m) Machinery, *Price 15 cents*; (n) Bicycles, *Price 10 cents*; (o) Iron and Steel and Their Products (final summary), *Price 10 cents*. Commodity bulletins on the production of pig iron, steel, washing machines, cream separators, warm air furnaces, galvanized sheets, wire nails, wire rope and cable, steel wire, wire fencing, stoves, etc. Monthly Reports: (a) Pig Iron, Steel, and Ferro-Alloys, *Price \$1 per year*; (b) Automobile Statistics for Canada, *Price \$1 per year*.
- (7) *Manufactures of Non-Ferrous Metals*—Biennial Report, *Price 25 cents*. Annual bulletins as follows: (a) Aluminium Products, *Price 10 cents*; (b) Brass and Copper Products, *Price 15 cents*; (c) White Metal Alloys, *Price 15 cents*; (d) Jewellery and Silverware, *Price 15 cents*; (e) Electrical Apparatus and Supplies, *Price 25 cents*; (f) Miscellaneous Non-Ferrous Metal Products, *Price 10 cents*; (g) Non-Ferrous Smelting and Refining, *Price 15 cents*; (h) Manufactures of the Non-Ferrous Metals (final summary), *Price 10 cents*. Quarterly reports on production and sales of radio sets, *Price 50 cents per year*. Quarterly reports on sales of storage batteries, *Price 50 cents per year*. Commodity bulletins on the production of batteries, silverware, vacuum cleaners, electric motors and generators, electric transformers, incandescent lamps, etc.
- (8) *Manufactures of the Non-Metallic Minerals*—Biennial Report, *Price 25 cents*. Annual bulletins as follows: Preliminary Summary on Manufactures of Non-Metallic Minerals—(a) The Asbestos Mining Industry and the Asbestos Products Industry, *Price 15 cents*; (b) The Cement Industry, *Price 15 cents*; (c) Coke and Gas, *Price 15 cents*; (d) Glass (blown, cut, and ornamental, etc.), *Price 10 cents*; (e) Lime, *Price 10 cents*; (f) Petroleum Products, *Price 25 cents*; (g) Clay and Clay Products, *Price 15 cents*; (h) Salt, *Price 10 cents*; (i) Sand-Lime Brick, *Price 10 cents*; (j) Stone (primary, monumental, and ornamental), *Price 25 cents*; (k) Abrasives, *Price 15 cents*; (l) Miscellaneous Non-Metallic Mineral Products (including carbon electrodes—gypsum products—mica products—non-metallic minerals, n.e.s.), *Price 10 cents*. Non-Metallic Mineral Products (final summary), *Price 10 cents*. Special Report on the Consumption of Coke in Canada, *Price 10 cents*. Monthly Report on Coke Statistics, *Price 50 cents per year*.
- (9) *Chemicals and Allied Products*—Biennial Report, *Price 25 cents*. Annual bulletins as follows: Preliminary Summary on Chemicals and Allied Products—(a) Coal Tar Distillation, *Price 10 cents*; (b) Acids, Alkalies and Salts, *Price 10 cents*; (c) Compressed Gases, *Price 10 cents*; (d) Explosives, Ammunition and Fireworks, *Price 10 cents*; (e) Fertilizers, *Price 10 cents*; (f) Medicinal and Pharmaceutical Preparations, *Price 15 cents*; (g) Paints, Pigments and Varnishes, *Price 15 cents*; (h) Soaps, Cleaning Preparations and Washing Compounds, *Price 15 cents*; (i) Toilet Preparations, *Price 15 cents*; (j) Inks, *Price 10 cents*; (k) Adhesives, *Price 10 cents*; (l) Polishes and Dressings, *Price 10 cents*; (m) Hardwood Distillation, *Price 10 cents*; (n) Miscellaneous Chemical Products (including boiler compounds—cellulose products—pesticides—sweeping compounds—disinfectants—matches—dyes and colours—chemical products, n.e.s.), *Price 10 cents*. Special Report on the Fertilizer Trade in Canada, *Price 10 cents*. Commodity bulletins on Sulphuric Acid, Ammonium Sulphate, etc. Special Report—Directory of Chemical Industries in Canada, as of July 1, 1932, *Price 50 cents*. Special Report on the Consumption of Chemicals in Municipal Waterworks in Canada, 1934 and 1935, *Price 25 cents*.
- (10) *Miscellaneous Manufactures*—General Report, *Price 25 cents*. Annual Bulletins as follows: (a) Brooms, Brushes and Mops, *Price 15 cents*; (b) Musical Instruments (including pianos, organs and phonographs) and Musical Instrument Materials and Parts, *Price 15 cents*; (c) Buttons, *Price 15 cents*; (d) Bed Springs and Mattresses, *Price 15 cents*.

NOTE.—For statistics of water power and central electric stations, see under heading "Public Utilities", p. 1083.

## VIII. CONSTRUCTION.

Building Permits—Monthly and Annual Record, *Price \$1 per year*. Annual Report, The Construction Industry in Canada, *Price 25 cents*.

## EXTERNAL TRADE (IMPORTS AND EXPORTS)—

- (1) Annual Report of the Trade of Canada, for the fiscal year ended Mar. 31 (showing summary historical tables, analyses of current trends, detailed tables by items, group analyses according to component material, origin and degree of manufacture, and purpose, and comparisons of the volume of trade), *Price 85*.
- (2) Condensed Preliminary Report of the Trade of Canada, for the fiscal year ended Mar. 31, *Price 25 cents*.
- (3) Annual Report of the Trade of Canada for the calendar year, *Price 50 cents*. (*Free to subscribers to Quarterly Trade Report.*)
- (4) Review of Canada's Foreign Trade during the calendar year, *Price 25 cents*.
- (5) Quarterly Report of the Trade of Canada (showing statistics of imports and exports by months and cumulative quarters), *Price \$2 per year*.
- (6) Monthly Summary of the Trade of Canada (for latest month and latest 12 months), *Price \$1 per year*.
- (7) Monthly bulletins on Trade Statistics as follows: (a) Abstract of Imports, Exports, and Duty Collected (by latest month, accrued period, and latest 12 months), *Price 75 cents per year*; (b) Summary of Canada's Imports (for latest month), *Price 75 cents per year*; (c) Summary of Canada's Exports (for latest month), *Price 75 cents per year*; (d) Canada's Imports from Principal Countries (for latest month and accrued period), *Price 75 cents per year*; (e) Canada's Domestic Exports to Principal Countries (for latest month and accrued period), *Price 75 cents per year*; (f) Canada's Monthly Trade Trends with Empire Countries (by months and accrued period), *Price 75 cents per year*. The complete series in this section (7) may be obtained for \$3 per year.
- (8) Monthly Commodity Bulletins: (a) Imports and Exports of Asbestos; (b) Imports and Exports of Coffee and Tea; (c) Imports of Farm Implements and Machinery; (d) Exports of Farm Implements and Machinery; (e) Imports and Exports of Fertilizers; (f) Imports and Exports of Footwear (except rubber); (g) Exports of Grain and Flour; (h) Imports and Exports of Hides and Skins; (i) Imports of Lumber; (j) Exports of Lumber; (k) Imports of Meats, Lard and Sausage Casings; (l) Exports of Meats, Lard and Sausage Casings; (m) Imports of Milk, Milk Products and Eggs; (n) Exports of Milk, Milk Products and Eggs; (o) Imports of Non-Ferrous Metals and Smelter Products; (p) Exports of Non-Ferrous Metals and Smelter Products; (q) Imports of Paints and Varnishes; (r) Exports of Paints and Varnishes; (s) Imports of Petroleum and Products; (t) Exports of Petroleum and Products; (u) Imports and Exports of Pipes, Tubes and Fittings; (v) Imports of Pulpwood, Pulp and Paper; (w) Exports of Pulpwood, Pulp and Paper; (z) Imports of Rubber and Products; (y) Exports of Rubber and Products; (z) Imports of Sheet Metal Products; (aa) Imports and Exports of Vegetable Oils; (bb) Imports of Vehicles (of iron); (cc) Imports and Exports of Wire; (dd) Imports and Exports of Soap; (ee) Imports and Exports of Fresh Fruits; (ff) Imports and Exports of Fresh Vegetables; (gg) Imports and Exports of Pickles and Canned Vegetables; (hh) Imports and Exports of Canned and Preserved Fruits; (ii) Imports of Animals, Living; (jj) Exports of Animals, Living; (kk) Imports and Exports of Toilet Preparations. *Price \$1 per year for imports and exports of one commodity.*
- (9) Special Trade Reports: (a) Trade of Canada with Pacific Countries (1932); (b) Canada-Belgium Trade, 1933; (c) Canada's Imports of Commodities not produced in Canada, 1929-1933; (d) Canada-Austria Trade, 1934; (e) Canada-Germany Trade, 1934.

NOTE.—Subscription price for all External Trade Branch publications \$15 per year.

## INTERNAL TRADE—

1. RETAIL AND WHOLESALE TRADE (See Vols. X and XI under *Report of the Seventh Census*, p. 1074):—

(a) Census of Merchandising and Service Establishments, 1931:—

*Final Reports (printed)*—Retail trade for the Dominion and the provinces, showing number of establishments, kinds of business, types of operation, full-time and part-time employees and wages, operating expenses, size of business, credit sales, forms of organization, capital invested, and sales by commodities; details for cities with populations of 30,000 and over by kinds of business, and types of operation, and by kinds of business for counties or census divisions and incorporated places with populations of 1,000 and over. Retail Trade, Canada,

## INTERNAL TRADE—continued.

## 1. RETAIL AND WHOLESALE TRADE—concluded.

(a) Census of Merchandising and Service Establishments, 1931—concluded.

*Final Reports (printed)*—concluded.

*Price 50 cents; Ontario, Price 50 cents; Quebec, Price 50 cents; similar reports for each of the other provinces, Price 35 cents.* Reports on wholesale trade similar in form and scope to the retail series. Wholesale Trade in Canada, *Price 25 cents*; similar reports for each of the five economic divisions of the country, *Price 25 cents.* Census of Canada, 1931, Vol. X—comprises the merchandising statistics contained in the retail series together with an analysis of results and special tables showing commodity sales; Vol. XI—comprises (1) statistics on retail services contained in the retail trade series, (2) all statistics on wholesale trade, (3) special sections dealing with retail chains, hotels, and distribution of sales of manufacturing plants, (4) analysis of results. *Price—Cloth \$1, Paper 75 cents for each volume.*

(b) *Annual Reports (processed)*—Estimates of the total retail and wholesale trade, by provinces and by kinds of business. Retail Trade in Canada, *Price 25 cents.* Separate reports for the five economic divisions, *Price 10 cents each.* Wholesale Trade in Canada and the Provinces, *Price 10 cents.* Miscellaneous Results on Retail Trade (gross margins, stocks, payroll, accounts outstanding), *Price 10 cents.* Similar report on wholesale trade, *Price 10 cents.* Motion Picture Theatres, *Price 25 cents.* Sales of Manufacturers' Outlets, *Price 10 cents.* Complete merchandising series for one year, *Price \$1.*

(c) *Monthly Reports*—Changes in the Value of Wholesale Sales; Changes in the Value of Country General Store Sales; *Price 75 cents per year for each publication.* Changes in the Value of Retail Sales; New Motor Vehicle Sales for Canada and the Provinces; Financing of Automobile Sales; *Price \$1 per year for each publication; the two last-named together \$1.50 per year.*

## CHAPTER XXX.—THE ANNUAL REGISTER. 1937-38.

### Section 1.—Dominion Legislation, 1937.

Legislation of the Second Session, Eighteenth Parliament, Jan. 14, 1937, to Apr. 10, 1937.

**Finance and Taxation.**—Three Appropriation Acts were passed during the session, *viz.*, cc. 1, 2 and 45, c. 2 applying to the fiscal year ended Mar. 31, 1937, and cc. 1 and 45 to the fiscal year ended Mar. 31, 1938. C. 1, the Appropriation Act, No. 1, 1937, granted a sum not exceeding \$37,395,179·14 towards defraying the several charges and expenses of the public service, being one-sixth of the amount of each of the several items to be voted set forth in the Main Estimates, together with a sum not exceeding \$16,010,551·17 towards defraying the several charges and expenses of the public service, being one-sixth of the amount of each of the several items to be voted set forth in the Special Supplementary Estimates. C. 2, the Appropriation Act, No. 2, 1937, granted a sum not exceeding \$40,903,880·76 towards defraying the several charges and expenses of the public service set forth in the Schedule to the Act and based on Further Supplementary Estimates 1936-37. By c. 45, the Appropriation Act, No. 3, 1937, were granted: \$186,975,895·69 towards defraying the several charges and expenses of the public service, being five-sixths of the amount of each of the items set forth in Schedule A to this Act; \$80,052,755·83, being five-sixths of the amount set forth in Schedule B to this Act; \$11,339,955·98, being the amount set forth in Schedule C. Under s. 5 of this chapter, the Governor in Council was empowered to raise a loan not in excess of \$200,000,000 for public works and general purposes, principal and interest being chargeable to the Consolidated Revenue Fund.

C. 33 is the Gold Clauses Act, 1937. It enables contractual obligations payable in money of Canada, which give the creditor a right to require payment in gold or gold coin, to be discharged by currency of Canada, dollar for dollar of the face value of the obligation. Such currency shall be legal tender for a debt payable in gold. Where a gold clause obligation governed by Canadian law is payable in money other than money of Canada, tender of the face value in currency which is legal tender for the payment of debts in the country of such money shall entitle the debtor to a discharge of the obligation. Gold clause obligations are declared to be contrary to public policy and are not to be contained in any obligation made from the date of this Act.

**National Revenue.**—C. 19 is an Act to revive the Business Profits War Tax Act, 1916, certain provisions of which, relating to the procedure for appeals from assessments made thereunder, have been amended by repealing the provisions regarding procedure in appeals from assessments and substituting therefor Part VIII of the Income War Tax Act (c. 97, R.S.C. 1927) except s. 58.

Under c. 24, the Customs Act (c. 42, R.S.C. 1927), as subsequently amended, is further amended in several respects. Under s. 1, the scope of the Act is widened to include import and other duties and taxes along with excise duties and taxes as those which may be disregarded in estimating "value for duty" in certain cases. Ss. 2 and 3 amend the legislation with regard to the fixing of values for duty. With regard to the importation of fire arms and munitions of war, s. 122 of the Act is

repealed and new provisions are made under s. 10 of the Statutes for regulating this traffic. S. 8 revises the conditions under which drawbacks may be allowed.

C. 25 amends the Customs Tariff (c. 44, R.S.C. 1927, with later amendments) by the addition of subsections governing the rate of exchange on appreciated currency in computing value for duty of imported goods, and the application of special or dumping duties when such a rate of exchange has been fixed.

The Customs Tariff is also amended by c. 26, which states that the Governor in Council may, in certain cases, order that certain duties and taxes shall be disregarded in estimating market value of goods imported. By ss. 2 and 3 of this chapter, Schedules A and B of the said Act are amended by striking out certain items and substituting Schedules A and B of this legislation.

C. 27 amends the Department of National Revenue Act (c. 137, R.S.C. 1927), by repealing the subsection providing gratuity in lieu of leave on retirement.

A number of amendments are made to the Excise Act, 1934 (c. 52, 1934) by c. 29. The definition of 'officer' is extended to include every person employed for the purpose of the administration or enforcement of this Act, including any member of the R.C.M.P. To s. 43 of the Act, which deals with the ascertaining and paying of duties, is added a subsection dealing with duties imposed on goods bonded in warehouse which have been found to be deficient in quantity, to the effect that certain spirits, under such circumstances, may be subject to an abatement. The subsections providing that priority be given to court proceedings under the Excise Act and that penalties under the Act may be levied by sale of the goods and chattels of the offender are removed from s. 118. A number of other amendments are made to the legislation dealing with distilleries, mainly with respect to penalties for distilling without licences, changes in licence fees or duties, and permits to remove spirits for export. S. 16 amends Part VII of the original Act by specifically defining 'wood alcohol'. The section, also under this Part, relating to the penalties for violation of the provisions of this Act is repealed and a new section substituted as s. 319A.

C. 41 amends the Special War Revenue Act (c. 179, R.S.C. 1927). Under this amendment the term 'partly manufactured goods' is limited to goods which are to be incorporated into and form a constituent or component part of an article. The tax on dressed or dyed furs is raised from 6 to 8 p.c. Schedule III of the Act is amended mainly by the broadening of the definition of 'fire brick' and the addition of photographs, paintings, drawings, etc.; raw and salted hides; and materials used as ingredients in canned fish. Spinal braces and articles for the use of the blind are added to "Goods Enumerated in Customs Tariff Items".

**Agriculture.**—By c. 8, which amends the Dairy Industry Act, Cheddar cheese is exempted from the regulations relating to the weight of packaged cheese. Other amendments under this legislation are of a minor nature.

According to the amendment to the Prairie Farm Rehabilitation Act (c. 23, 1935), enacted by c. 14, the Governor in Council may establish one or more Advisory Committees to take over the duties, with the addition of the development and promotion of land utilization and land settlement, of the former Prairie Farm Rehabilitation Advisory Committee. The stipulations regarding the membership of that Committee do not apply to the new Committees, but the chairman of each is to be appointed by the Minister. The Act authorizes the necessary expenditure for the fiscal years 1938-39 to 1939-40.

C. 30, cited as the Feeding Stuffs Act, 1937, lays down regulations demanding the registration of certain feeding stuffs (given in Schedule A) offered for sale. Registration may be refused by the Minister in cases where the feeding stuff does not conform with stated analysis specifications and if registration is approved no change may be made in composition or ingredients without the consent of the Minister. Feeding stuffs (Schedule A) and by-products (Schedule B) must be labelled in the different ways prescribed. Provision is made for the appointment of the necessary inspectors and analysts, and offences and penalties under the Act are laid down. The Feeding Stuffs Act (c. 67, R.S.C. 1927) is repealed.

A Dominion guarantee of principal and interest of loans made by any chartered bank and guaranteed by the provinces of Manitoba, Saskatchewan, and Alberta, for the purpose of purchasing seed grain and providing other assistance to farmers in connection with seeding operations during the spring of 1937, is provided for by c. 39, the Seed Grain Loans Guarantee Act, 1937. The aggregate principal amount of such loans in Alberta shall not exceed \$1,600,000, in Manitoba \$750,000, and in Saskatchewan \$6,600,000. Guarantees given under this legislation must conform to certain stated terms and meet with the approval of the Governor in Council.

C. 40 is the Seeds Act, 1937, and sets forth regulations regarding the sale of cereal, forage crop, grass, field root, garden or vegetable and other seed under separate categories, the use of established variety names and licences for new names (the Minister of Agriculture has power to refuse or cancel a licence, or change a name). The advertising of seed for sale, the sale of seed for export, the importation of seed, the taking of official samples, etc. is also provided for. Penalties for violation of the provisions of this Act are laid down. This legislation repeals the Seeds Act (c. 185, R.S.C. 1927) as amended in 1928 (c. 47).

**Fisheries.**—The Fisheries Research Board of Canada is created under c. 31. The constitution of the Board is defined. Members serve without salary but expenses and, in certain cases, emoluments are provided for. The Board is given charge of all Dominion fishery research stations and control of investigations in connection with marine and freshwater fisheries, etc., which work was formerly carried on by the Biological Board. Other work may be assigned to the Board by the Minister of Fisheries. The Biological Board Act (c. 18, R.S.C. 1927) is repealed.

C. 36 is cited as the Northern Pacific Halibut Fishery (Convention) Act, 1937. In the Schedule to this Act is set forth the Convention between Canada and the United States of America for the Preservation of the Halibut Fishery of the Northern Pacific Ocean and Bering Sea, signed at Ottawa, Jan. 29, 1937. The Act confirms the Convention and suspends any other inconsistent laws. Powers for carrying out the Convention are vested in the Governor in Council and the apportionment of expenses of the International Fisheries Commission is laid down. A close season is defined for halibut fishing in territorial waters and control measures are set forth. Violations of this Act and penalties therefor are laid down.

**Immigration.**—By c. 34 a number of minor amendments are made to the Immigration Act (c. 93, R.S.C. 1927). A proviso is added to the section on domicile to the effect that persons absent from the Dominion on business as employees of Canadian organizations or of His Majesty's Government in Canada shall not lose their Canadian domicile on such account. Persons in transit through Canada from and to outside points are included in "non-immigrant classes" and persons suffering from trachoma are included in "prohibited classes" of immigrants. Forms C, F, and G in the Schedule are repealed and new forms substituted. A number of minor

amendments are made as a consequence of the administration of the Immigration Act having been transferred to the Department of Mines and Resources.

**Insurance.**—The section of the Canadian and British Insurance Companies Act, 1932, which deals with the registration of provincial companies, is amended by c. 5. It is now provided that the deposit required to be made by certain provincial companies may be less, within limits, than the amount otherwise required under this Act.

**Justice.**—By c. 4 (the British Columbia Divorce Appeals Act), the Court of Appeal of British Columbia shall have jurisdiction to hear and determine appeals from an order, judgment or decree of a court of the province or a judge thereof having jurisdiction in divorce and matrimonial causes.

The Supreme Court Act (c. 35, R.S.C. 1927) is amended by c. 42. To s. 37 dealing with appeals direct to the Supreme Court from courts other than courts of last resort in a province by leave of such courts, by consent of both parties, and where over \$2,000 is involved, the proviso is added that no such leave shall be granted by such court of final resort unless the appeal lies to that court and to the Supreme Court from the judgment pronounced in that appeal.

**Labour.**—The Home Improvement Loans Guarantee Act, 1937 (c. 11 of the Statutes), is an Act to increase employment by encouraging the repair of rural and urban homes. The Government of Canada may guarantee approved lending institutions against losses, which may result from home improvement loans, to the extent of 15 p.c. of the amount of such loans. The amount of loans which may be guaranteed under this Act shall not exceed \$50,000,000 and the total liability of the Government is therefore \$7,500,000. The amount of individual loans shall not exceed \$2,000 except in the case of a multiple family dwelling or a property to be so converted, when it shall not exceed \$1,000 for each family plus \$1,000. Such loans must comply with conditions laid down in the Act and are subject to regulations prescribed by the Governor in Council.

Under c. 23, which is an act to amend the Combines Investigation Act (c. 26, R.S.C. 1927), the definitions of "Commissioner" and "Minister" are amended and the definition of "Special Commissioner" is added. Ss. 5-9 of the Act, which were repealed by c. 54 of the Statutes of 1935, are now replaced by new sections which cover the subjects of administration of the legislation and remuneration of officers in amended form. The Governor in Council may appoint a Commissioner and an Assistant Commissioner, and may also appoint from time to time one or more Special Commissioners whose duty it shall be to conduct an investigation into any alleged combine. The Commissioner may employ such temporary, technical and special assistants as are necessary. Whereas formerly, after a preliminary inquiry, the decision of the Commissioner as to whether further inquiry should be made was final, a report must now be made to the Minister who may instruct further investigation. At the conclusion of an investigation, the Special Commissioner shall make a report to the Commissioner which shall be transmitted to the Minister and within fifteen days be made public unless otherwise decided by the Minister. The authority of the Commission to investigate agreements according to the provisions of the Dominion Trade and Industry Commission Act, 1935, and to report to the Minister of Justice the misuse of a patent with a view to having the patent revoked, is repealed. The Act is extended to provide that orders of the Commissioner or Special Commissioner compelling the attendance of any witness or the production of any book, record, paper, or article, or the examination of any person on oath, or for

certain other purposes, can be enforced only on the certificate of the President of the Exchequer Court or Chief Commissioner of the Dominion Trade and Industry Commission that it is fit and proper that the action mentioned in the application should be taken. It is further provided that where an investigation under the Act is proceeding in any province, and the Commissioner or Special Commissioner is desirous of exercising the power to commit to prison or otherwise penalize any person, application for authority to do so may be made to a judge of the Supreme or Superior Court of the province in which the investigation is being made.

For the purpose of expanding employment in primary and secondary production and at the same time conserving and developing natural resources, accelerating the expansion of trade, industry, and gainful occupation, and thereby lessening the governmental burdens consequent upon unemployment and agricultural distress, the Unemployment and Agricultural Assistance Act, 1937, (c. 44) was enacted. The Act authorizes the execution of such works and undertakings as may be determined, and the employment thereon of competent persons who are in receipt of relief. All contracts for such works carried out under provincial jurisdiction but to which the Dominion Government is contributing shall be approved by the Minister of Labour and supervised by the Dominion Government. The Government may enter into agreements with any of the provinces respecting alleviation of unemployment conditions and of agricultural distress and may, where necessary, grant financial assistance by way of a loan to assist the province to pay its share of expenditures for such purposes. Such agreements may be entered into with corporations or individuals respecting expansion of industrial employment, but no financial assistance shall be granted to any province unless certified statements as the Dominion Government may require are furnished. The Dominion Government may also examine and audit provincial records related to such works if deemed necessary.

**Parliamentary Representation.**—C. 9 amends the Dominion Franchise Act to permit of the annual revision of the lists of electors being omitted for the year 1937.

**Pensions.**—By c. 12, the payments of pensions and compassionate allowances to officers' wives, under the Militia Pension Act, are to be made in equal monthly instalments in arrear, instead of yearly in advance, and, unless otherwise specified, shall continue during the lifetime of the recipient.

C. 13 amends the Old Age Pensions Act (c. 156, R.S.C. 1927). It provides for the payment of a pension to every blind person, 40 years of age or over, who does not receive a pension in respect of blindness under other legislation, and whose income is less than the specified amount for each of the classes enumerated in s. 8A, s-s. 1. The maximum pension is \$240 yearly, but in the case of a blind person who, after the coming into force of this legislation, marries a blind person unable to perform work for which sight is essential the maximum pension is \$120. Maximum pensions are subject to reductions as laid down. Pensions for blind persons are to be made on the same basis as old age pensions, *i.e.*, the Dominion Government will contribute 75 p.c. of the cost if and when the individual provinces undertake to contribute the remainder.

**The Throne.**—By c. 16, the alteration in the law touching the Succession to the Throne, as set forth in the Act of Parliament of the United Kingdom entitled "His Majesty's Declaration of Abdication Act, 1936", is assented to in line with the Statute of Westminster, 1931. The Instrument of Abdication is set out in Schedule 1 to the Act and the request and consent of Canada to the enactment of the said Act in Schedule 2.

**Trade and Commerce.**—C. 15 amends the Precious Metals Marking Act (c. 84, R.S.C. 1927) so far as the latter legislation applies to gold- and silver-plated articles. To the original list of such articles which must have applied to them the authorized trade mark are added "gold plate" and "gold plated", "silver plate" and "silver plated". The penalties outlined in s. 14 of the original legislation are also amplified with regard to the importation of advertising matter wrongly describing such articles.

The Trade Agreement between Canada and the United Kingdom is approved by c. 17. Inconsistent laws are suspended and the United Kingdom Trade Agreement Act, 1932, (c. 2, 1932-33) is repealed. The new Agreement is set out in the seven Schedules to the Act.

C. 18 is a minor amendment to the Weights and Measures Act regarding recovery of penalties.

A Trade Agreement between Canada and Germany, as set out in the Schedule to the Act, is approved by c. 20 of the Statutes.

C. 21 approves a Trade Agreement between Canada and Uruguay, as set out in the Schedule to the Act.

**Transportation.**—*Railway.*—By c. 3, independent auditors for the year 1937 are appointed to make a continuous audit of the accounts of the National Railways notwithstanding the provisions of s. 13 of the Canadian National-Canadian Pacific Act, 1933.

C. 6 is an Act to authorize the provision of moneys to meet certain expenditures made and indebtedness incurred by the Canadian National Railways during the calendar year 1937 and to authorize the guarantee by the Dominion Government of certain securities to be issued by the Canadian National Railways. The Company is given power to issue securities for retiring maturing obligations and payment of sinking funds to the extent of \$7,114,000 and for capital improvements to the extent of \$23,607,700. The form and terms of the guarantee are laid down.

The cancellation of capital stocks and certain indebtedness of the Canadian National Railway System to the Dominion Government and the adjustment of the accounts of the System is provided for by c. 22, the Canadian National Railway Capital Revision Act, 1937. Certain Government claims against the Canadian National Railways are abandoned, and capital stock surrendered. Provision is also made for the adjustment of differences between the Public Accounts and the National Railway System accounts; surpluses and deficits, notwithstanding s. 15 of the Canadian National Railways Act, are now to be included in the surpluses and deficits of the National Railways but the directors of the C.N.R. may cause surplus earnings to be paid over to the Consolidated Revenue Fund. The 'proprietor's equity' must now be shown in the accounts of the National Railway System and included in the net debt of Canada as well as disclosed in the Public Accounts under "Government assistance to railways". A 'Securities Trust' is established to which is transferred indebtedness amounting to \$1,218,642,195·67 as set out in Schedules A1 and A2 which it is to hold as authorized by this Act.

*Other.*—Minor amendments are made to the Government Harbours and Piers Act by c. 10, mainly respecting changes made necessary by the organization of the Department of Transport and the National Harbours Board.

C. 28 provides for the opening of a Department of Transport Stores Account to which shall be charged the value, at cost, of all stores acquired prior to Apr. 1, 1927, and transferred to the Department of Transport, together with all subsequently

acquired stores. The Minister of Finance is authorized to make such advances from the Consolidated Revenue Fund as may be necessary to enable the Minister of Transport to acquire or replenish such materials and equipment as is authorized by statute, but the outstanding balance of such advances shall at no time exceed one million dollars, and the appropriations of the Department for the particular items covered are to be applied against such advances.

The Trans-Canada Air Lines are incorporated under c. 43. The Corporation, under the management of a Board of Directors composed of seven persons, to be elected and appointed as provided, is authorized to establish, operate, and maintain air lines for the purpose of transporting mails, passengers, and goods by air and to enter into contracts for such transportation across Canada and between and within the several provinces. The authorized capital of the Corporation is \$5,000,000 (50,000 shares of \$100 par value). Shares were offered to the Canadian National Railway Company at par and the Company was permitted to sell or dispose of not more than 24,900 shares (except by the approval of Parliament) to persons engaged or interested in aviation and approved by the Minister of Transport. The Minister is empowered to contract with the Corporation for the operation and maintenance of the Trans-Canada Lines and the Postmaster General may enter into a contract with the Corporation for the transport of mails by the Trans-Canada Lines.

**Miscellaneous.**—Amendments are made regarding the organization of the Central Council and the Executive Committee of the Red Cross Society by c. 7.

C. 32 is the Foreign Enlistment Act, 1937. It is an offence against this Act to enlist, or induce another to enlist, in the armed forces of a foreign State at war with a friendly foreign State (except that nationals of countries which are represented in Canada by foreign consular or diplomatic officers may be recruited by the latter under regulations made by the Governor in Council), to take on board a conveyance any person so enlisted, to build, commission, equip, or dispatch ships to be employed by armed forces of any foreign State against a friendly State, to prepare any military, naval, or air expedition to proceed against dominions of any friendly State, or to bring within Canada, in violation of Canadian neutrality, any prize of war. Offences against this Act may be prosecuted as indictable offences in which case fines up to \$2,000 or two years imprisonment or both fine and imprisonment may be imposed. Regulations that the Governor in Council may make under this Act are to be published in the *Canada Gazette*. The Foreign Enlistment Act, 1870, passed by the Parliament of the United Kingdom (c. 90, 33-34 Victoria) is repealed in so far as it is part of the law of Canada.

C. 35, the National Parks Act, 1937, provides for the setting aside, as a National Park, of such lands in New Brunswick as the province and Canada agree upon, subject to the National Parks Act (c. 33, 1930). The Nova Scotia and Prince Edward Island National Parks Act (c. 43, 1936) is amended by s. 3 of this legislation to provide for the withdrawal from the park in Nova Scotia of certain lands in Cape Breton island.

By c. 37, the Agreement of Mar. 30, 1920, with the city of Ottawa is extended for another year as from July 1, 1936.

C. 38 amends the Royal Canadian Mounted Police Act (c. 160, R.S.C. 1927) with respect to the appointment of the R.C.M.P. Reserve, which formerly contained only officers and men who had served in the Force and who were appointed to the Reserve for a term not exceeding one year. The Commissioner may now appoint, for a period of three years, such number of men, as reserve constables, as the Gover-

nor in Council thinks proper. Regulations relating to the conditions of appointment, rank and promotion, resignation, pension, and training, etc., of members of this Reserve are stated. It is provided that time served in the permanent forces of Canada may be included in the term of service of officers and constables of the R.C.M.P. for purposes of pension.

## Section 2.—Provincial Legislation.

The reader is referred to the different provincial authorities for information in this connection. It is felt that whatever is lost to those readers who are interested in having all provincial legislation brought together and listed under one head is more than offset by the information of more general interest which it has been possible to include in the limited space available, but which would otherwise have had to be omitted.

## Section 3.—Principal Events of the Year.

### Subsection 1.—The Economic and Financial Year, 1937.\*

While constructive factors dominated the economic situation during the first eleven months of 1937, a drop of 6.5 points in the index of the physical volume of business gave evidence of the industrial recession which began in December. In comparison with the year 1936, however, there was an increase of 9.4 p.c. in the 1937 index; major economic factors, except capitalized yields of Dominion bonds, all recorded increases. The indexes of the physical volume of business for the three latest completed years are given below, 1926 being taken as the base year.

| Month.        | 1935. | 1936. | 1937. | Month.         | 1935. | 1936. | 1937. |
|---------------|-------|-------|-------|----------------|-------|-------|-------|
| January.....  | 97.5  | 106.2 | 116.9 | July.....      | 103.0 | 110.8 | 120.5 |
| February..... | 100.6 | 104.8 | 118.0 | August.....    | 107.9 | 113.5 | 123.4 |
| March.....    | 94.2  | 104.0 | 118.7 | September..... | 101.9 | 120.0 | 123.8 |
| April.....    | 98.7  | 111.0 | 124.0 | October.....   | 107.2 | 121.5 | 127.4 |
| May.....      | 103.3 | 107.6 | 122.0 | November.....  | 110.0 | 118.0 | 127.9 |
| June.....     | 99.2  | 111.1 | 126.0 | December.....  | 106.2 | 113.4 | 121.4 |

**Agriculture.**—The volume of principal field crops in 1937 was nearly 7 p.c. under that of the preceding year, drought being responsible for low yields in the southern parts of Saskatchewan and Alberta. On the basis of value, the only provinces to record gains in farm revenues were Manitoba, Alberta, and British Columbia. Most of the major field crops registered declines in the volume of production, barley, rye, and mixed grains being exceptions. The acreage sown to potatoes increased by 5.8 p.c., and the total yield by 7.4 p.c., the value being slightly above the five-year average but nearly 40 p.c. under that of 1936, when prices were exceptionally high.

Slaughterings of cattle decreased slightly, but exports of live cattle increased by 13 p.c. Exports of live hogs also increased and pork exports registered an increase of over 25 p.c. The production and export of butter suffered slight declines but cheese exports increased by 8.6 p.c.

The rise in wholesale prices of farm products during 1937 was greater than in any other important commodity group. As a result such prices compared favourably with those of other groups for the first time in eight years.

\* Abbreviated from "Business Conditions in Canada, 1937", prepared by Sydney B. Smith, M.A., Dominion Bureau of Statistics.

**Minerals.**—Canada's mineral production valued at \$456,800,000 in 1937, showed a gain of 26.2 p.c. over 1936, the previous peak year. The increase was due to both greater production and higher prices, copper, lead, and zinc being notable in the latter connection.

Gold production increased by 9.3 p.c., while the value of all metallic minerals was 28.8 p.c. greater than in the preceding year, that of fuels was 9.7 p.c. higher, the increase in the quantity of crude petroleum being noteworthy. Other non-metallic minerals increased by 34.3 p.c., the gains in the quantities of asbestos and gypsum being 36.1 p.c. and 25.0 p.c., respectively. Clay products and other structural materials increased by 32.2 p.c. and 33.7 p.c., respectively.

**Forestry.**—Employment in the three major divisions of this group, *viz.*, logging, sawmilling, and pulp and paper, showed increases of 36.5 p.c., 11.1 p.c., and 12.7 p.c., respectively. The production of newsprint, at 3,600,000 tons, reached a new high point, the increase over 1936 having been 14.4 p.c. Exports of forest products showed a gain of 25 p.c. over the preceding year, planks and boards recorded an increase of 23.3 p.c., while newsprint was 15.4 p.c. greater.

**Electric Power.**—The output of central electric stations in 1937 amounted to 27,575,000,000 k.w.h., an increase of 8.6 p.c. over 1936. This was a new peak of production and the industry is now directing its attention to the need of extending existing plants or undertaking new developments to meet the increasing requirements of its customers.

**Manufacturing.**—The volume of manufacturing production was slightly greater than in 1929 and showed a gain of 8.5 p.c. over 1936. The output of industries engaged in the production of producer goods showed an increase of 13.1 p.c. The output of steel ingots was of 25.6 p.c. greater than in 1936, while the increase in pig iron production amounted to 32.4 p.c. The gain in the index of consumer goods amounted to 6.5 p.c.

**Construction.**—Construction contracts awarded exceeded the total for 1936 by nearly 38 p.c. Residential and industrial construction showed increases of 31 p.c. and 126 p.c., respectively, while business buildings also recorded an increase of 46 p.c.

**External Trade.**—A further gain in merchandise trade was recorded in 1937, exports having increased by 8.4 p.c. and imports by 27.4 p.c. Owing to the high level of exports, the balance of commodity or visible trade was largely in Canada's favour. Among the 'invisible' items in the complete picture of international transactions, mention should be made of the tourist trade, which is estimated to have left net wealth in the country to the extent of about \$170,000,000, an increase of 20.8 p.c. over 1936.

**Transportation.**—Carloadings recorded an increase of 5.7 p.c., although decreases were shown in grain, and coal and coke. Manufactured products were moved in greater volume, and also ore and forestry products. Gross operating revenues of the Canadian railways showed an increase of 6.0 p.c. over the preceding year.

Canal traffic recorded a general advance in 1937, the traffic passing through the St. Lawrence canals during the period of navigation showed an increase of 11 p.c. and reached a new high point of 9,195,439 tons. The traffic through the Canadian and United States locks at Sault Ste. Marie has been exceeded only in four other years, and showed a gain of 26 p.c. over 1936. A new high record was shown for the

Welland canal, the total of 11,747,950 tons being an increase of 12.6 p.c. over 1936. There was a gain of 8.8 p.c. in the tonnage of freight carried through all Canadian canals, as compared with the preceding year.

**Employment and Unemployment.**—The continued gain in employment, as reported by employers, indicated substantial business recovery, fewer persons being shown as employed in governmentally assisted projects. Index numbers of employment, as at the first of each month of 1937, will be found at pp. 768-774 of the present volume.

The number of fully-employable persons on the relief rolls declined about 40 p.c. from the level of the preceding year.

**Prices.**—Wholesale price levels turned downward in April, 1937, after an irregular rise dating from February, 1933. A short-lived midsummer recovery supported mainly by farm products was followed by a steady decline which extended well into 1938. Living costs continued to rise gradually, with foods, rent, and clothing becoming definitely more expensive than in 1936. Security prices experienced appreciable losses dating from the end of March. Common and preferred stocks suffered to a much greater extent than high-grade bonds. As in the case of commodity prices, the 1937 decline in stock markets was the first serious set-back since prices commenced to advance from the depression nadir (June, 1932, for common stocks).

**Banking.**—The advance in current loans of the chartered banks continued steadily throughout 1937, the average of the twelve monthly figures showing a gain of 4.7 p.c. Notice deposits averaged 3.6 p.c. greater than in 1936, while demand deposits increased by 11.8 p.c. Despite the greater amount of money on loan, the banks' holdings of securities increased by 7.2 p.c.

Bank debits showed a decrease from the position of 1936, the average being down 2.1 p.c. On the other hand, notes in the hands of the public increased by 3.3 p.c. at the end of December, 1937, as compared with the same date of the preceding year.

**Public Finance.**—Figures for the elapsed nine months of the Dominion fiscal year showed that, at Dec. 31, 1937, ordinary revenues had increased by over \$61,000,000, or by 18.8 p.c. as compared with the corresponding period ended in December, 1936. Ordinary expenditures increased to a lesser extent, being nearly \$7,000,000, or 2.5 p.c. greater than in the similar period of 1936. Total expenditures amounted to \$362,000,000, an increase of 0.4 p.c. Relief expenditures were down some \$10,000,000, but Government-owned enterprises called for an increase in expenditure of \$5,000,000.

### Subsection 2.—Other Principal Events of the Year.

**Provincial General Elections.**—General elections, not reported in the 1937 Year Book, took place in Ontario on Oct. 6, 1937, when the Liberal Government of Hon. M. F. Hepburn was returned to office, and in Saskatchewan on June 8, 1938, when the Liberal Government of Hon. W. J. Patterson was returned to office.

**Dominion-Provincial Relations.**—On Aug. 14, 1937, a Royal Commission was appointed "to investigate the economic and financial basis of Confederation and of the distribution of legislative powers in the light of the economic and social developments of the last seventy years". The Hon. Newton W. Rowell, Chief Justice of Ontario, was appointed chairman of the Commission, and public sittings were commenced at Winnipeg on Nov. 29, 1937. Subsequently, sittings were

held in all the provinces and briefs received from Provincial Governments and many other bodies. The report of the Committee has not yet been submitted to Parliament.

**The Bank of Canada.**—On June 8, 1938, the Minister of Finance gave notice of a resolution to introduce a bill to completely nationalize the Bank of Canada, by acquiring the 100,000 outstanding Class "A" shares (par value \$50 each) at the price of \$59.20 per share and accrued dividends. The Government has, since 1935, held a majority capital interest through its ownership of 102,000 Class "B" shares. Following the purchase of the Class "A" shares, the capital structure of the Bank is to be reduced to \$5,000,000, consisting of 100,000 shares of \$50 each, issued to the Minister of Finance.

**Diplomatic Appointments.**—Count Robert de Dampierre, who succeeded M. Raymond Brugère as Minister of France to Canada, presented his credentials to His Excellency the Governor General on Dec. 9, 1937.

Baron Shu Tomii, who succeeded Mr. Sotomatsu Kato as Minister of Japan to Canada, presented his credentials to His Excellency the Governor General on May 25, 1938.

**Trade Agreements, etc.**—Reference is made at p. 487 of the present volume to the extension of the British preference to various colonies, and of most-favoured-nation treatment to certain dominions, colonies, protectorates and mandated territories.

Particulars of the latest changes in agreements with the United Kingdom and other parts of the Commonwealth will be found at pp. 488-490, and with foreign countries at pp. 490-497.

**St. Lawrence Waterways Treaty.**—This Treaty, submitted by the United States Government to the Dominion Government on June 1, 1938, combined, in revised form, the St. Lawrence Treaty of 1932 and the Niagara Convention of 1929—both previously rejected by the United States Senate. It is designed to meet objections of Ontario to the development of power on the Canadian side of the international section before there is a market to absorb it; under the revised draught, Ontario would also be permitted to divert water from the Albany River basin to the Great Lakes, and an export market for surplus power would be opened up in the United States. The Treaty is now under consideration by the Dominion and Provincial Governments concerned.

### Subsection 3.—Obituary.

1937.—(See also pp. 1094-1095 of the 1937 Year Book.) June 19, Honoré Mercier, K.C., Châteauguay, Que., Chairman of the Quebec Streams Commission and former Minister of Lands and Forests for Quebec. Hon. Humphrey Mellish, Halifax, N.S., former Justice of the Supreme Court of Nova Scotia. June 23, James A. Sangster, Cornwall, Ont., M.L.A. for Glengarry. Lieut-Col. T. S. Belcher, Vancouver, B.C., former Deputy Commissioner of the R.C.M.P. June 30, Thomas V. Smith, Winnipeg, Man., Sergeant-at-Arms of the Manitoba Legislature. July 1, Robert Telford, Ottawa, Ont., Chief Clerk of Statistics, Department of National Revenue. July 10, Roland G. Orr, Ottawa, Ont., Chief Architect of the Department of Indian Affairs. July 25, Sir Charles Saunders, Toronto, Ont., former Dominion Cerealist, and discoverer of Marquis wheat. Aug. 6, Hon. H. B. Rainville, Atlantic City, N.J., U.S.A., former Speaker of the Quebec Legislative Assembly. Aug. 12, George F. O'Halloran, Ottawa, Ont., former Deputy Minister of Agriculture and Commissioner of Patents. Aug. 22, Col. L. H. Beer, Ottawa, Ont., Chief

Salvage Officer, Government Contracts Supervision Committee. Aug. 23, Hon. James D. Chaplin, P.C., St. Catharines, Ont., former Minister of Trade and Commerce. Aug. 24, David M. Wright, Stratford, Ont., former M.P. for Perth North. Sept. 4, D. A. Cameron, Montreal, Que., M. P. for Cape Breton North. Sept. 6, John Shearer, Ottawa, Ont., former Superintendent of Public Buildings, Dept. of Public Works. Sept. 10, Col. A. O. Lambert, Montreal, Que., former Director of Pay Services, Dept. of National Defence. Sept. 22, William J. Lynch, I.S.O., Ottawa, Ont., former Chief of the Dominion Patent Office. Sept. 28, Hon. Rodolphe Lemieux, P.C., Montreal, Que., Senator for Rougemont and former Postmaster General and Speaker of the House of Commons. Sept. 30, Hon. W. J. Roche, P.C., C.M.G., M.D., LL.D., Ottawa, Ont., former Chairman of the Civil Service Commission and Minister of the Interior. Oct. 6, Hon. James Arthurs, Toronto, Ont., Senator. Oct. 12, Albert Champagne, Ottawa, Ont., former M.P. for Battleford. Oct. 13, Hon. Simon F. Tolmie, P.C., V.S., former Dominion Minister of Agriculture and Premier of B.C. Oct. 15, Capt. L. G. Dixon, Ottawa, Ont., Supervisor of Nautical Services, Dept. of Transport. Oct. 28, Hon. D. A. Macdonald, Winnipeg, Man., Chief Justice of the Manitoba Court of King's Bench. Nov. 1, Malcolm McGugan, Strathroy, Ont., former M.P. for Middlesex South. Nov. 2, Mr. Justice J. B. Archambault, Montreal, Que., Senior Judge of the Circuit Court of the District of Montreal. Nov. 16, Hon. Nemèse Garneau, Quebec, Que., M.L.C. for Shawinigan. Nov. 20, J. A. Verville, St. Flavien, Que., M.P. for Lotbinière. Nov. 21, Dr. M. R. Blake, Winnipeg, Man., former M.P. for Winnipeg North. Nov. 22, Judge Henry Carpenter, Hamilton, Ont., Junior County Judge for Wentworth. Dec. 7, Lawson O. Clifford, Oshawa, Ont., former M.P. for Ontario. Dec. 19, Dr. C. J. Hamilton, Cornwall, Ont., former M.P. for Stormont. Dec. 24, Hon. John Alexander McEvoy, Toronto, Ont., Judge of the High Court of Justice for Ontario. Dec. 27, Sir Douglas Hazen, P.C., Saint John, N.B., retired Chief Justice of New Brunswick and former Premier of New Brunswick and Dominion Cabinet Minister. 1938.—Jan. 4, Rt. Hon. Sir George H. Perley, P.C., G.C.M.G., Ottawa, Ont., M.P. for Argenteuil and former High Commissioner for Canada in the United Kingdom and Minister of Overseas Military Forces. Wm. M. Ryan, Saint John, N.B., M.P. for St. John-Albert. Jan. 5, Hon. Arthur C. Kingstone, Vancouver, B.C., Judge of the Ontario Supreme Court. Jan. 8, Hon. Aimé Bénard, Winnipeg, Man., Senator for St. Boniface. Jan. 11, Archibald J. Macdonald, North Lancaster, Ont., former M.P. for Glengarry. Jan. 13, Hon. Wm. L. Walsh, Victoria, B.C., former Lieutenant-Governor of Alberta. Jan. 18, Alex D. Chaplin, Chatham, Ont., former M.P. for Kent. Jan. 24, Mr. Justice A. E. McPhillips, Victoria, B.C., Judge of the Appeal Court of B.C. and former Attorney-General. Jan. 26, William S. Hall, Edmonton, Alta., M.P. for Edmonton East. Jan. 28, Judge Albert Edward Taylor, Sarnia, Ont., County Judge for Lambton. Jan. 29, Capt. G. E. Robertson, Ottawa, Ont., Supervisor of Pilotage, Dept. of Transport. Feb. 3, Milton D. McVicar, Petrolia, Ont., M.L.A. for Lambton East. Feb. 10, Mr. Justice Auguste Tessier, Quebec, Que., former Judge of the Superior Court and Quebec Cabinet Minister. Dr. Frank P. Patterson, Vancouver, B.C., Leader of the Official Opposition in the British Columbia Legislature. Hon. William F. Roberts, M.D., Saint John, N.B., Minister of Health and Labour in the New Brunswick Government. Feb. 20, William A. Boys, Augusta, Ga., U.S.A., former M.P. for Simcoe. Feb. 22, Col. George P. Murphy, C.M.G., E.D., Ottawa, Ont., former Quartermaster-General of the C.E.F. Feb. 27, Mr. Justice Adolphe Stein, Montreal, Que., Judge of the Superior Court of Quebec and former M.P. for Kamouraska. Mar. 5, Major-General Sir James H. MacBrien, K.C.B., C.M.G., D.S.O., Toronto, Ont., Com-

missioner of the R.C.M.P. and former Chief of the General Staff. Mar. 8, Peter Sinclair, Ottawa, Ont., M.P. for Queens, P.E.I. Mar. 14, Engineer Lieutenant-Commander Charles S. Stephen, Ottawa, Ont., Technical Adviser, Marine Section, R.C.M.P. Mar. 20, Hon. Martin Burrell, P.C., Ottawa, Ont., Parliamentary Librarian. Mar. 23, Hon. Walter Scott, Guelph, Ont., former M.P. for Assiniboia, and first premier of Saskatchewan. Mar. 25, Hon. A. E. Fripp, Ottawa, Ont., Senator for Ottawa. Apr. 7, Hon. Norman Scarth Macdonnell, Toronto, Ont., Justice of Supreme Court of Ontario, Appellate Division. Apr. 14, Levi Thomson, K.C., Regina, Sask., former M.P. for Qu'Appelle. May 3, Major Frederick C. ## CENTRAL LIBRARY (A.R. Qs.)

Books drawn by  
Officers can be retained for  
1 month and renewed once,  
provided no other officer  
requires them.

New books must be returned  
within a week.  
Not more than 5 volumes  
may be on loan at the same  
time to an officer.

Officers are prohibited from  
transferring books to other  
officers.

Borrowers will be required  
to pay full price of any book  
lost or damaged by them.

Reference and valuable books  
of the Library are not allowed to be recalled  
Books and periodicals  
are liable to be recalled  
in special  
request.

Current periodicals  
can be issued  
for 2 days  
only.
